

GIRLS ON THE STREETS.....

LOVE WITH A CAPITAL "L"—Yes folks, Sunday was May 11th Mothers' Day. It brought memory of grief to some and joy to others. Those who wore red carnations walked proudly beside their happy mothers—Those who

wore white carnations showed their respect and love for their deceased mothers—Both colors spelled love with a capital "L".

MABEE—when a certain group of Orpheum theatre employees and their associates get ready for another picnic—they will dun down to the weather bureau and ask about the weather—or mabe they will plan it the next time when the sun is shining—Nevertheless, they had a clear view of the moon beaming down on the lake—Eh?

IF YOU LIKE TO BIKE

Many of you read of the Techster's misfortune when riding to school on a bicycle—This is the time of the season everyone enjoys bicycling—Please carefully read these safety rules:

1. Learn to ride in safe places.
2. Have your bike equipped with lights, brakes, horn.
3. Obey traffic rules.
4. Never carry extra passengers.
5. Never hold on to another moving vehicle.

MARK YOUR CALENDAR

for Thursday, May 22nd and you'll meet the Entre Nous Club at the Dreamland Hall—presenting the Sport Promenade—featuring Lloyd Hunter and his orchestra.

WHAT'S THE TROUBLE,

there seems to be a disturbance or

must I say a lack of friendship between two girls; Velma Thomas and Lola Willis—Both girls are very attractive—Both have a good personality—But neither are friends. It seems to be because of an article that we picked up about Velma and by mistake—Lola's name was under it—But to our apology she didn't have anything to do with the article—So I hope the two will reunite their chair of friendship and be friends.

KICKERS READ THIS—

"De man dat's always kickin' ain't got any real trouble on his mind; when real trouble comes you is generally too stunned to kick"

BY REQUEST—

And now that Betty Mitchell has stated the 10 best looking girls in South Omaha, We shall name the 10 nice looking girls in North Omaha.

L. R. P.—I am deeply worried. My mother and mother-in-law both live with my husband and we are not happy. My mother-in-law is trying to turn my husband against me. Should I take my mother and move out on them?
Ans: Your house isn't large enough for three families—but in a case like yours—I think that you should stick it out. It is necessary for your husband's mother to live with you as well as your own mother. Talk things over with them and let them know they must be genial, else they must leave. Don't break up your own home for the sake of your mother and mother-in-law. Get the old ladies sociable again and your problem will be solved.

L. E. C.—Why is my husband so in love with my oldest son's wife? Why is he not as nice to me as he used to be?
Ans: Whether you know it or not—you are directly responsible for your husband's cool attitude lately. He admires his daughter-in-law and respects her—he wants her to feel welcome in the family and had done his best to make her comfortable and at ease. But, my dear lady you have snorted so with jealousy that your husband is changing his opinion of you after all these years. Be kind to this daughter-in-law and stop nagging at your husband for he isn't trying to be funny with her.

R. J. T.—I have had a hard time all my life and I am tired feeling sorry for myself. I have been married many years and try to be sweet with everyone but I don't

STATES DISCOVER PRINCIPLE OF "STAR-FISH" TAXATION

ONE of the great marvels of science was the discovery years ago of the fact that if one or more points of a star-fish are cut off, the animal will grow the points again and in a short time be as big and sound as it was originally. Discovery of the principle of regeneration in some animals caused as much hubbub in the scientific world as would Sally Rand at a salesmen's convention.

as great as it was before the tax cut. Since 1934 gasoline tax revenue of most of the states has increased 50 per cent or more. Year after year more families become automobile owners. Also, people tend to use their cars more. Under these conditions of expanding revenue, most states could have reduced their rates since 1934 and they would now be collecting just as much money at the low rates as they collected at the higher rates. The gasoline levy is the greatest "star-fish" tax in all history. Its great powers of regeneration should stimulate many states to reduce their rates.

State tax officials are discovering that gasoline taxes follow the star-fish principle of regeneration, and that if a state cuts 1 cent off its gasoline tax rate, the revenue grows and in a very few years is planned to make?
Ans: Indeed I do. I strongly urge that you go there and take up the course of study that you are interested in at this writing. That the best way for you to advance in your line—do it now before you get married the last of this summer.

M. F.—A young man came to see me and asked if I would be his girl friend and I have given him no answer. We go to movies and dances and he tells everyone that I am his "old lady" and I get angry. Will I ever find the right man and is this the one?
Ans: No, he isn't the right man for you. He's grand company to take you to the nice dances, theatres and other places that a girl likes to go and you really should prize his friendship. It is my suggestion that you treat the young man with respect but don't allow your self to be swayed by his nice manners right now for you are too young to marry and you know very well that you do not love him.

W. R. C.—My husband left me some property and I am planning on selling part of it and building on one of the lots. Should I do this or hold to the property?
Ans: Sell out part of the land and you have in mind and build you a comfortable home. What good will the property be to you—you can not go wrong by building a little home.

G. B. C.—Do you think Sir that it would be to my help any to take the trip to Chicago that I have

NEW! "BACTERIOSTATIC" FEMINE HYGIENE
now finding great favor among women . . .
Many doctors recommend regular use of douches as a precautionary measure for women who want to be clean, dainty—for women troubled by offending odor or discharge.
Some products may be harmful to delicate tissues. But not Lydia E. Pinkham's Sanative Wash! Pinkham's Sanative Wash is gaining great favor because it's NOT a harmful germicide. Instead—it's a mighty effective "bacteriostatic" (the modern trend). It not only discourages bacterial growth and infection but thoroughly cleanses, deodorizes. Very soothing—relieves minor irritations and discharge and has a tonic effect on delicate membranes. Inexpensive! All druggists.
