WORLD - IN REVIEW

Great Britain is now rationing clothes—Girls who used to object to the lock of silk hosiery will no longer need to complain—Bare legs will be the order of things—Britains are allowed a supply of 66 coupons for clothes which must serve one person for a whole year. Under the present plan a suit costs 26 coupons, a dress 11 and a shirt eight—Under these (circumstances, wonder who will be the best-dressed over there?

It was learned this week that by the end of this year we will have enough first line warplanes to control the skies over both North and South America—Another report forecasts that United States planes will be flying 50 miles per hour and faster inside of three years. The United States is spending tremendous sums for defense. The Treasury announced that of \$11,229,288 federal expenditures during the first 11 months of the current fiscal year, defense items totaled \$5,240,420,822. President Roosevelt put the production machinery of the United States on a war basis—Under the mandatory priorities bill he signed, industry must produce first the things the government tells it to and without protest.

An estimated \$25,000,000 worth of waterfront property in Jersey City went up in smoke last week in what was called "The worst fire in Jersey City's history"—The blaze destroyed stockyards, railroad piers, warehouses, engine houses, an eight-story grain elevator, warehouse stores, a milk platform, 16 freight cars and two automobiles. Fire Chief Frank Ertle, backed up by J. Edgar Hoover, insisted that sabotage had nothing to do with the fire.

Harold L. Ickes, Defense Oil Coordinator has suggested gasoline-less Sundays to help meet an impending oil shortage, due to lack of transport facilities. Others have mentioned reducing home temperatures about 5 degrees and converting some oil-burning furnaces to use coal in an effort to save oil. Saturday last's performance of "Tobacco Road" marked the end of that drama's long career at the Forrest Theatre in New York. It had played 3,180 performances dating from December 4, 1933.

A Philip Randolph explained the purpose of the plan for 160,000 Negroes to march on Washington. He said that in a democracy every citizen has a right to express his opinion about the policies of the government. And every citizen has a right to seek to change these policies when he deems them inadequate and unjust

M. L. E.—I have been in college two years and I wish to know whether I will get a job this year or not. Have I met my future husband yet?
Ans: Yes, you will secure work of some kind for the summer months. This is going to be very necessary if you expect to complete your training in college and you do want to no doubt. You are allowing romance to interfere with your school work—you are taking the boys entirely too seriously. You haven't met your mate as yet.

P. E. R. J.—I think I'm in love with a nice girl but today I heard she was going with another fellow at the same time and I would like to know if there is anything to it?
Ans: Well why shouldn't she receive other company—you two aren't engaged. The girl is using good judgement and if you expect to win her heart you will have to change your views to some extent as she isn't going to let a jealous fit influence her to give up her friends.

F. H.—Dear Sir: I am a news boy and I would like to know what you could send me to get more customers and to make more money?
Ans: I can send you some good advice, which if followed, will get you the results you desire. Here it is: You aren't putting the enthusiasm into the job you now have that you could. The secret to getting new customers and making money for yourself is to get out and hustle and dig up new business. There are plenty of people who would be glad to buy your papers—if you ask them, Salesmanship is what it takes and this is one job you must learn to do yourself.

V. M. S.—To begin with I'm in love with a man much older than I. I am married, and have 2 children but my husband spends most of his time in jail. My friend told me to go back to my husband and make him do for me and the children and I did. But my friend has changed and does not do for me like he once did. My husband has changed to and seems more kind and loving. I don't think I love him so tell me what to do?
Ans: The friend is tired of you and doesn't care to go with you any more. Stop the relationship altogether. Devote your entire time making your husband and children happy for your husband realizes now just what you meant to him and will do everything in his power to make you happy. If you live right and be a good wife to him, he will do right himself and will not have to go back to jail.

M. M.—My boy friend has gone to the army and I want to know if I must wait until he comes back?
Ans: No, you can go ahead and get married. If you do not want to wait until he comes back, you can get married now. If you do not want to wait until he comes back, you can get married now. If you do not want to wait until he comes back, you can get married now.

As each book is read a patriotic sticker bearing the author and title of the book reported on, will be inserted in the folder. Additional information may be obtained in the Children's Room of the Main Library at South, North and Benson branches where the project will be carried out.

It is your public library's every hope to make Omaha girls and boys better Americans, stronger than ever before, not only healthier in body, steeper in nerves, surer in living, but keener in mind and more discriminating as readers.

White Congressman HITS WPA CUT
Washington, May 31 (ANP) — Rep. Bishop of Illinois addressed the house of representatives and soundly berated the proposal to reduce the WPA appropriations. Said Rep. Bishop:

"It is stated that the President was going to ask the congress to reduce the amount of money for relief by \$109,000,000 and that he also wanted the congress to enact legislation which would permit employment of aliens on WPA jobs.

"I think that this is a very unfair request and is unsound public policy.

"In my district there are more American citizens in need of relief than last year. This is not their fault. No national-defense industry has been established in that part of Illinois to take care of a portion of the unemployed.

"To cut down the amount of help to our fellow countrymen is bad enough but to insist that aliens be taken care of before citizens of our own country are provided for just does not make sense.

"Mr. Speaker, I hope to see the day come once again when we will look out for the welfare of our own American citizens and provide for them in place of spending so much time and money in behalf of non-Americans.

"I hold that our first duty is to see to it that the needs of the citizens of the United States are taken care of first, and then we can consider the wants of aliens next. We hear a lot about 'I Am An American'. Let us give those who are unemployed the faith and the courage to be proud of it. Let us not make them fear that someone who is not a citizen will get the bread and butter that rightfully should go to Americans first.

"Let no one deceive you. The first line of national defense in this country is the welfare of the unemployed."
