EAST INDIA MERCHANT VISITS IN OMAHA

Mr. Abdul Rohim Surker, an East Indian Merchant, recently visited the City of Omaha. Mr. Surker, was very glad to tell us some interesting facts about his native country. In India, there are about 10 castes of people. The high caste of people work for themselves, but will not work for anybody else as the lower castes of people will. Except for the Caste system, all the races of people in India are the same, that is the color of the skin doesn't play a great part in discrimination. If a person has money, he can attend any place he wants to regardless of the color of his skin, in other words money is the only discriminatory factor. Mr. Surker also pointed out that the "Cow" was the sacred animal of the Hindus. The "Cow" is used only as a Sacrificial animal. If another person kills a cow, the Hindus people will try to kill that person. The Hindus people also do not eat meat of any kind. Mr. Surker, who is a Moslem, and who is a Mohammed, pointed out that the people who believed in Mohammed, did eat meat, but will not eat "hog". Mr. Surker's Sabbath day is Friday instead of Sunday, as ours.

In India, there is no intermingling of races. The Hindus marry the Hindus, the Moslems the Moslem, etc. The women in India go to the same schools as the men, but their classes are separate. The women in India do not work outside the home as the American women do. When they are married, they stay home and care for the home, and the husband provides for them.

The people in India are satisfied with the rule of the British Government. They also like the United States Government. Mr. Surker although now permanently in the United States showed how well he liked the British by being the 1st man to send over a food package to British families under the Red Cross.

Since the death of his wife, Mr. Surker has no desire to return to India, and he has become a member of the Red Cross, the N. A. A. C. P. and other organizations to show that he really is an American citizen. Mr. Surker carries a full line of imported furs, tapestries, medicines, and his headquarters are in Shreveport, Louisiana.

A cute little thing she is—Froshine Stewart. To most of us who have seen her, wonder who has been responsible for hiding the talented little brownskin who sings so lovely in front of the Sunset Royals Band. To hear Miss Stewart render, "Sweet Embraceable You" is to be thrilled. You will be reading about this girl's skyrocketing climb to fame—and soon.

Marie Downing BEAUTY AND ROMANCE SPONSORED BY LARIEUSE BEAUTY BUREAU The Larieuse Beauty Bureau was established by the Godefroy Manufacturing Company to study methods of preserving women's natural beauty, and to make the results of this research available to the public.

The real secret of beauty is making the best of every one of your good points and drawing attention away from your bad points. You have both, you know. Every woman has. But the girl who is considered beautiful is the one who lets you see her always looking her best. Make-up is one of the most important aids to beauty that we have, but even make-up has its limitations. It should be used to enhance beauty, but it can't be expected to paint a whole new face on top of your own. Here's a good rule to remember. Be lavish with your soap and water and with your cleansing creams; be sparing with your make-up. And speaking of cleansing, never, never go to bed without thoroughly cleansing your face! Many women prefer a thorough soap and water cleansing at night, followed by the application of a smooth night cream to help soften your skin while you sleep. When it comes to make-up, be sure to do it in a good light, and take time enough to do it carefully. More and more, women are finding that they like a good foundation cream or make-up base, and there are many fine ones on the market. If you use a cream foundation, a cream rouge blends best. Use very little of it, just a touch on a finger tip, and smooth it carefully into your cheeks, following the cheekbone line, and blending the coloring so that it fades out at the edges.

You Too Can Have Beautiful Hair

LET THE NU-HAIR BEGRO FORMULA HELP YOU AS IT HAS HELPED THOUSANDS OF OTHERS!

How You Can Grow Long, Healthy Hair Certain parts of the body grow to a certain size and no further, whereas, Hair Grows always if you keep your scalp healthy. An itching scalp causes itching. When you scratch your scalp you make sores and scars. HAIR WILL NOT GROW FROM A SCAR There are no sweat glands in sores or scars. The body is given power by nature to make certain outgrowths of skin which we all know very well. Hair is produced by our scalp skin. Each Hair Grows from a special little place in the true skin. If you destroy or mutilate this true skin you may feel all right, but nothing will ever form another true skin. A scar is not skin. You will never find a hair growing from a scar or sore. Hair grows from the cells of the hair bulbs. If you do not look after these hair bulbs, hair will become brittle and break off. There are two glands to each hair to produce oil that keeps it soft and pliable, keeps it from becoming unruly and from cracking. Every hair has a muscle which is attached to its Hair Root. In order to have attractive, healthy hair, you must help nature to Grow Hair by keeping your scalp in good condition. Keep it clean, soft and eliminate itching and dandruff. If you are suffering with head sores or scars do not delay taking our complete treatment or you will lose your hair.
