

JOSLYN MEMORIAL TO MARK TENTH ANNIVERSARY

A three day celebration starting November 28 will mark the tenth anniversary of Joslyn Memorial, Omaha's \$4,000,000 art museum, according to Chairman John J. Gillin, Jr., of the Omaha Chamber of Commerce Convention and Visitors Committee.

When the tenth year is completed on November 29, more than 1,500,000 persons will have visited the Memorial since it was given to the city in 1931 by the late Mrs. Sarah A. Joslyn. Per capita, it is the nation's second most popular art museum. Dr. Paul H. Grummman, director of Joslyn Memorial estimates that more than 1,000 traveling exhibitions have been put on display in the building and an even greater number of free concerts, lectures and special programs have been presented.

"Ten Years into the Future" will be the theme of the celebration. A purchasing project will soon be launched to increase the permanent collections both in size and prestige. A large collection of masterpieces assembled from eastern galleries for the anniversary will show what the program is intended to accomplish during the next ten years.

The exhibition will be opened to the public on November 28 at 7:30 p. m. Opening on the same evening is the 1941 States Exhibition selected by jury from entries of artists in Nebraska, Iowa, Kansas, Missouri, Colorado and South Da-

kota. The program opens Friday, November 28, at 8:00 p. m., with a concert by Claire Coci, noted young organist. This and all other events during the three days will be presented without charge.

On Saturday, November 29, puppet shows by the Shanafelt Marionettes of Lincoln are scheduled at 10 a. m. and 3 p. m. At 2:30 the Folks Arts Society of Omaha will present a patriotic pageant, "Our America."

Saturday at 8 p. m. an Omaha Community Playhouse cast will present "Jim Dandy," the new play by William Saroyan. This play has not been staged in New York, and special permission had to be obtained for the Omaha showing.

Working artists demonstrating their various art processes are to be another feature of the three-day program. Painters in oil and watercolor, print makers, sculptors and craftsmen will be working in the building throughout Saturday and Sunday afternoon and evening, November 29 and 30.

Sunday's program, November 30, will include a University of Omaha dance concert directed by Miss Ruth Diamond at 2:30 in the afternoon, and a Boystown Choir Vespers service at 4 p. m. Harold W. Parsons, new art adviser for Joslyn Memorial, will also give an illustrated lecture on "Masterpieces of European Art in American Collections" at 3 p. m. The celebration closes that evening with a concert by the Omaha Little Symphony Orchestra, under the direction of Mr. Richard Duncan.

All of the public of Omaha and the surrounding territory is invited to attend and take part in the tenth anniversary celebration.

A telegram received by Mrs. Hiram Greenfield last Wednesday informed her of the death of Mrs. N. P. Gregg of Los Angeles, California at 10 a. m. Wednesday.

Mrs. Gregg was a visitor in Omaha for two months in the winter of 38-39 as the guest of Mrs. Greenfield at her home. They were bosom friends.

While in Omaha she made many warm friends. Mrs. Gregg was the widow of the late Rev. N. P. STRAUS HITS DUPLICATION IN FEDERAL HOUSING

Washington, Nov. 19 (ANP)—Calling upon the administration to practice real economy in housing, Nathan Straus, U. S. Housing administrator, sharply denounced the government's defense housing program for its "wasteful inefficiency" and urged a house subcommittee to abolish overlapping housing agencies rather than decentralize them.

Mr. Straus, whose office employs a large number of Negroes in administrative capacities, has been the target of a certain group of legislators for some time, but Wright Patman, representative from Texas, recently pointed out what the U. S. housing administration had accomplished in the way of erecting houses, through many of which Negroes profited, both in labor and in housing and asked why should other agencies be set up to do this work which had been so ably done by Straus' organization.

One of the factors pointed out by Mr. Straus as faulty is the inclusion of what is known as Title VI in the federal housing program. Under this provision, workers are permitted to buy houses with little or no down payment. Now that boom times are here and towns are being crowded with defense workers seeking homes. Declaring to Negroes and other workers that it is cheaper to buy than to rent, the group sponsoring these houses is asking defense workers to invest their money in the houses.

They do not consider what will happen should the defense industries suddenly shut down and the workers be left stranded. Well known housing experts and authorities throughout the country are advising all defense workers to wait and continue to rent houses, even if the government does build them.

If there is a sudden shut down and no one knows just how long this defense boom will last, what is to happen to the houses? The workers, it is said, will lose their investment in the houses and the federal government will again be stuck with organizations to take over the workers' homes in an effort to save them, with the subsequent result that the government will be saddled with the homes and taxpayers again be called upon to defray the expenses.

Recent appropriations for the U. S. Housing administration have saved the necessity for reduction of the personnel especially as far as the workers are concerned.

THIS WEEK IN RELIGION & THOUGHT
by Robert L. Moody

Thanksgiving—

The Nation has had much discussion and some confusion because of the changes in days for observing Thanksgiving. It does not matter whether the day is observed the first or fourth Thursday, if the true spirit of gratefulness, fills the heart.

One should be ready to "Bless the Lord at all times and forget not all his benefits".

War has brought murder, hate, destruction an misery to thousands of people since September 1, 1939. But our nation has been given another year of peace. We may yet behold airplanes flying over us without running into holes as rats, because of the rain of death by bombs. We are feeling the affects of the struggle by taxation and demands for personal sacrifices, but there are many resources in our country. There are hundred who are suffering from hunger and the each of the life's needs.

Shall we receive these blessings

You Too Can Have Beautiful Hair

LET THE NU-HAIR BESEGO FORMULA HELP YOU AS IT HAS HELPED THOUSANDS OF OTHERS!

How You Can Grow Long, Healthy Hair

Certain parts of the body grow to a certain size and no further, whereas, Hair grows always if you keep your scalp healthy. An ailing scalp causes itching. When you scratch your scalp you make sores and scars.

HAIR WILL NOT GROW FROM A SCAR

There are no sweat glands in sores or scars. The body is given power by nature to make certain outgrowths of skin which we all know very well. Hair is produced by our scalp skin. Each Hair Grows from a special little place in the true skin. If you destroy or mutilate this true skin you may feel all right, but nothing will ever form another true skin. A scar is not skin. You will never find a hair growing from a scar or sore. Hair grows from the cells of the hair bulbs. If you do not look after these hair bulbs, hair will become brittle and break off. There are two glands to each hair to produce oil that keeps it soft and pliable, keeps it from becoming unruly and from cracking. Every hair has a muscle which is attached to its Hair Root. In order to have attractive, healthy hair, you must help nature to Grow Hair by keeping your scalp in good condition. Keep it clean, soft and eliminate itching and dandruff. If you are suffering with head sores or scars do not delay taking our complete treatment or you will lose your hair. To keep your hair cells working properly and guarantee yourself a healthy, beautiful head of long growing hair, give yourself a complete Nu-Hair Treatment.
