

SEVEN THOUSAND CAPSULES DRAWN

With the largest Selective Service Registration by any one local board on February 16 totaling 5,839, there were 7,000 capsules drawn in the Third Selective Service Lottery on Tuesday evening, March 17, it was announced today by National Headquarters, Selective Service System.

The drawing, which will determine the order numbers for the February 16 registrants, were drawn at 5 P. M. Tuesday and it is estimated that it took about 12 hours. It was held in Departmental Auditorium, 12th Street and Constitution Avenue, Northwest, Washington, D. C., where the October 1940 and July 1941 lotteries also were staged.

The largest registration 5,839 was reported by a local board in California.

The capsules drawn from the goldfish bowl at the lottery will contain the Serial Numbers T-1, T-2 and so on up to T-7,000, to include and somewhat exceed the highest Serial Number assigned to any February 16th registrant by a local board. The extra numbers will be included to take care of men who were unable to register February 16 because of absence from the country or other reasons and who still must register.

The Order Numbers assigned to the registrants in the sequence in which their Serial Numbers are drawn in the lottery will begin with 10,001 so that they will follow after the approximately 9,000 order numbers drawn in the October 1940 lottery and the 800 drawn in the July 1941 lottery. This means that the first Serial Number drawn at the lottery Tuesday was given Order No. 10,001, the second Serial Number was given Order No. 10,002 and so on.

THE CIO AND THE NEGRO

WATCH THIS COLUMN EACH WEEK FOR THE TRUTH ABOUT THE NEGRO AND THE CIO; DIRECT FROM H. Q., WASHINGTON, DC.

The CIO is the strongest force in American labor today because its unions have consistently refused to let racial or religious or nationalist disunity weaken them.

That is one basic reason why the CIO has organized more than five million American workers, why it has won billions of dollars in wage raises, why it has been able to serve the people of America more than any other organization in the nation.

And it is a basic reason why the CIO today is a great force for victory, why the five million men and women of the CIO are able to give so much to their nation and to our allies in the war for freedom from fascist slavery.

The men and women of the CIO are at work today in the arsenal of democracy, turning out tanks and guns, planes and ships the United Nations need to crush Hitlerism. They are the soldiers of production, the people who stand beside the machines that are digging Hitler's grave.

The CIO is organized in the basic industries of America, in coal and steel, in machine building, in electrical industry, in oil, in aluminum, in copper and other vital metals, in textiles, in packing, in the maritime trades, in the thousand and one industries working to arm our nation and the nations with us.

Equal Voice. In every one of these unions Negro workers take their place as members with the same democratic rights, with the same voice as all other members. The United Mine Workers of America has union shop contracts with nearly every coal mine in the country. Negro workers have always stood side by side with white workers in this union. Only recently the Mine Workers struck a great blow for the Negro people when they abolished the differential pay scale between North and South.

The Steel Workers Organizing Committee has contracts covering more than 60,000 workers. Negro workers in the SWOC have equal voice with all others. The United Automobile Workers of America has contracts covering over 700,000 workers. Negro members have equal voice in the UAW-CIO with all members. In all these unions, Negro members can and do take official positions, are elected to places of leadership by their fellow members.

All of the unions of the CIO have won benefits for their members. The CIO has raised and maintained the standard of living for many millions beyond its own membership.

Between 1940 and 1941, the CIO added one and a quarter billion dollars to the annual payroll of American workers. This has meant a better chance for the kids, an easier job for the wife who has to stretch the paycheck to meet the cost of living. And just as important it means better health and higher morale for American workers—health and morale we desperately need to defeat Hitler and Japan.

The CIO policy of higher wages does not stop with gains already won. Today rising living costs make wage increases more than ever necessary. The CIO is pressing its drive for wage increases in every industry where workers are organized in CIO unions.

In every case, the CIO makes sure that Negro workers receive the same benefits. In every union the Negro worker and his family have the same chance to win a better life that the white worker has. In every union auxiliary Negro women and white women unite for this same end.

This Week In Religion and Thought BY ROBT. L. MOODY

"THEY GOT WINGS" "You got wings, I got wings. All God's children got wings." These words became literally true for five courageous and studious Negroes on March 7th. They were the first to graduate from the 99th Pursuit Squadron Air base.

We encounter so many discouraging and disgusting reports and experiences, we become exceedingly glad and hopeful when our people make progress in new fields. These five commissioned pilots have proved the way and we hope that they will be multiplied by one thousand before many months hence.

Every Negro (especially Texan) is very proud of Dorrie Miller 22 year old Texas farm boy, who fired the machine gun on December 7 at Pearl Harbor. As we remember Pearl Harbor and Colin Kelly, we also shall remember Dorrie Miller, a messman, who was willing to fight with a machine gun although he had been denied training in such tactics. One wonders

hit hardest by the storm and floods that struck many central California communities. Illinois has reported floods in Illinois River valley, the highest in 26 years.

FLOOD TIME IS HERE Napa, Calif., Pixpage—Inundated automobiles parked along the curb show where Pearl street runs or flows, rather, through the heart of Napa. That north bay city was

WHAT YOU DON'T SAY THE ENEMY CAN'T USE... This, in effect, is the message of this recent poster issued by the Office of Facts and Figures. Not only workers in war production plants but all workers and non-workers have been warned by the Army and other government agencies against talking about production figures, what's going on in the neighboring army camp, even about weather predictions. What seems harmless to you may be important to the enemy. Silence is golden. It's a lot more fun to make your knowledge a secret and stay alive to tell it to your grandchildren. Copies of this poster, in colors, may be had on written request to Division of Information, War Production Board.

CITY ANNOUNCES NOTICES FOR EXAMINATIONS Notice of examination for position of Stationary Engineer. Statement of qualifications. Applicants for the position of Stationary Engineer for the City of Omaha should be skilled mechanics able to take charge of steam pressure plants. They must be responsible for the operation, maintenance and repair of steam plants, including emergency repairs and any other work necessary to the maintenance of the building in which they are employed.

USE OF DEFENSE STAMPS OR BONDS TO STIMULATE TRADE BARRED SAYS BUREAU Use of defense stamps or bonds as premiums in connection with the stimulation of trade has been barred under a policy adopted by the Retail Advisory Committee of the United States Treasury, according to an announcement by Robert J. Bauer, president of the National Association of Better Business Bureaus.

M., each day, for the purpose of presenting their claims for examination, adjustment and allowance. Three months are allowed for the creditors to present their claims, from the 4th day of April 1942. Charles J. Southard, County Judge. 3rd beg. March 14, 1942 end March 28th incl.

Is Your Laxative A Popular One? In laxatives, as in people, it takes "something extra" to get to the top and stay there. BLACK-DRAUGHT has been one of the popular laxatives with four generations of Americans. That is the reason you ought to try this all-vegetable medicine next. You'll discover an all-around good laxative. Spicy, aromatic, easy-to-take. Punctual and thorough, yet usually gentle in its action when simple directions are followed. The main reason for all this is a "tonic-laxative" ingredient in BLACK-DRAUGHT that helps to tone lazy intestinal muscles.
