President release this man was the main factor. I'm sure, that brought about the release of Earl Browder, General Secretary of the Communist Party.

To the people that are acquainted with the facts of the case, there is no doubt but that Browder was a political prisoner, and even the President in ordering his release from prison stated that the sentence imposed upon Browder was unjust in its severity.

To the Negro people I want to say that they should rejoice in the liberation of Browder and in the part they took in bringing about his freedom, such as signing cards, petitions, etc. Earl Browder is the people's champion; he is the man who for years led the struggle for the freedom of Tom Mooney and Warren K. Biling, and as fate would have it, these are the two men that led the struggle to win Browder's release, though I regret to say that Tom Mooney did not live to see the release of Browder effected. I refer to Tom Mooney and Warren K. Biling for the benefit of our trade union members, for these men served long prison terms on trumped up charges of the preparedness day bombing on the west coast.

But to come closer to home, Earl Browder, led the fight for the freedom of the Scottsboro boys. Also Angelo Herndon. The Communist Party led by Earl Browder was in the vanguard of these struggles and worked until the freedom of the kids unjustly accused was affected. And just as the Communists led by Browder fought for these things, they will continue to fight for victory over Hitler and Hiderism.

The Communist Party is a powerful ally of the Negro people because they are fighting for the very same things we are. Anyone who doubts this, should read the program of the Communist Party of the USA.

I once read in the Chicago Defender that every black man was a potential Communist, and I'm 'cared to agree with this statement when I see the treatment accorded my people at the hands of the other political parties.

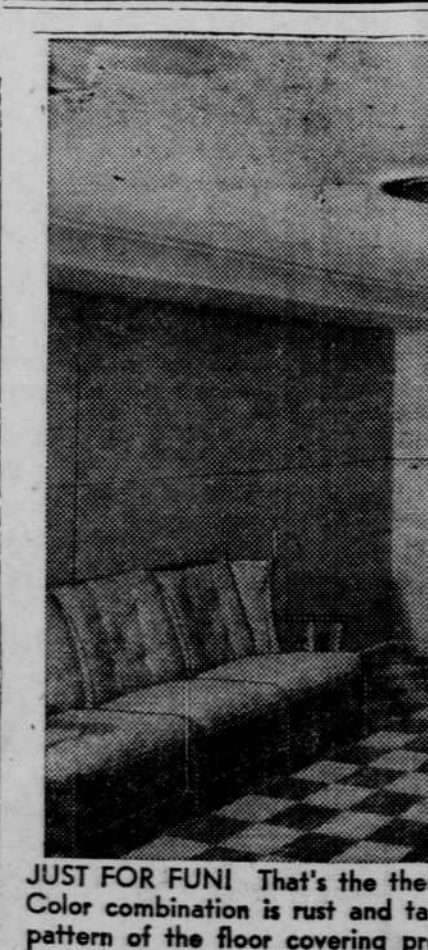

Some people may feel that the Communists are doing these things to win the support of the Negro people, but the people who do feel this way are wrong, for the Communists are doing these things because they know it is the only way real and lasting democracy can be established.

The things that have been told to us about the Communists are being proven daily to have been a bunch of lies, for today the Communists in Russia are leading the people of the USSR, in battle against fascism and it is their valiant struggle that is giving our government time to prepare the death blow to Hitler and his satellites. And the Russian people have been preaching, namely, The Brotherhood of Man.

I would suggest that anyone interested in learning some of the true facts about the USSR, read the Dean of Canterbury book, Soviet Power, on sale at Brumbaugh's book shop on 16th Street, across from the postoffice.
So I say that we as Negro people can rejoice in the freedom of Earl Browder as we know he and the Communist Party will help us in our struggle to tear down these discriminatory measures that are used against our people.
