Some products may be harmful to delicate tissues. But not Lydia E. Pinkham's Sanative Wash! Pinkham's Sanative Wash is gaining great favor among women because it's NOT a harmful germicide, instead—it's a mighty effective "bacteriostatic" (the modern trend). It not only discourages bacterial growth and infection but thoroughly cleanses and deodorizes. Very soothing—relieves minor irritations and discharge and has a tonic effect on delicate membranes. Inexpensive! Get your bottle of Lydia Pinkham's Sanative Wash today. All druggists.

NEW! "BACTERIOSTATIC" FEMINE HYGIENE
now finding great favor among women...
Many doctors recommend regular use of douches as a precautionary measure for women who want to be clean, dainty—for women troubled by offending odor or discharge. Some products may be harmful to delicate tissues. But not Lydia E. Pinkham's Sanative Wash! Pinkham's Sanative Wash is gaining great favor among women because it's NOT a harmful germicide, instead—it's a mighty effective "bacteriostatic" (the modern trend). It not only discourages bacterial growth and infection but thoroughly cleanses and deodorizes. Very soothing—relieves minor irritations and discharge and has a tonic effect on delicate membranes. Inexpensive! Get your bottle of Lydia Pinkham's Sanative Wash today. All druggists.

KEEP PITCHING AMERICA

By Albert J. Bates
Under the spur of wartime need, American inventive and research genius is producing virtual miracles in the way of new products and new processes to meet combat and domestic needs.
With imports of several vital raw materials such as rubber and tin either drastically reduced or eliminated, and certain domestically-produced items being channeled into the war effort, American resourcefulness is flowering into full play. Scores of needs have already been met with synthetic products... more problems are being solved daily and it is only a matter of time before the most spectacular problem of all... rubber... is solved.
The plastic industry, already great before the War, is making giant strides and producing hundreds of items to take the strain off of the critical materials supply. Other industries are "in there, pitching" with research, invention and innovation.
We have flintless tin cans, brushes with synthetic bristles, rubberless raincoats and a host of other new or substitute products too numerous to list, but all filling vital needs. And recently one great electrical company started the manufacture of tiny drops of hard glass to take the place of imported sapphires required as jewel bearings for vital electrical indicating instruments. In these as in other ways, America will win through. Keep Pitching, America!
