War Stamps Sold By Harlem Church

With more than \$16,000 in War Bond sales to its credit during the past 5 months, St. Martin's Episcopal Church, 230 Lenox Avenue, New York City, is becoming one of the most active centers in Harlem for the promotion and distribution of War Savings securities.

Sunday announcements and appeals by Dr. John H. Johnson (shown at right), pastor, and weekday efforts of Guy C. Payne, sexton, stimulate systematic investment in War Bonds and Stamps among the 3,000 members of the congregation.

Sale of Stamps alone averages over \$30 daily—in addition to the \$3,200 average monthly sale of Bonds.

Enrolled as a branch of the Federal Credit Union, the church is legally entitled to handle War Bonds and Stamps for direct sale, and its office is open every Wednesday evening for the convenience of all persons in the neighborhood, regardless of whether they are members of St. Martin's or not.

The church itself subscribed for \$4,000 in War Bonds and various clubs and societies have made block purchases. A number of middle-aged women banded together and invested their savings in \$400 worth of Bonds.

COORDINATING COMMITTEE ON NEGRO HEALTH PLAN HEALTH FORUM NOVEMBER 19th AT URBAN LEAGUE

At a meeting of the Coordinating Committee on Negro Health (Health) plans were made for a series of health forums to be held throughout Omaha to acquaint the people with the serious health needs of the community.

The first in this series of Forums is a discussion entitled, "Your Health Your Community, Your Responsibility", to be held at the Omaha Urban League at 8:15 p. m. on Thursday, November 19th.

Mr. T. P. Mahamitt, local civic leader, will lead the discussion. Panel members include Dr. S. L. Pearlman, Director Communicable Disease Control, Omaha Health Department; Raymond R. Brown, Executive Secretary, Omaha Urban League; Dr. Craig Morris, Chairman, Coordinating Committee on Negro Health; C. F. McNeil, Executive Secretary, Community Welfare Council.

War has greatly changed the health picture in many communities largely because of population movements, entrance of many men and women in war industries, and shifting of soldiers in and out of communities, and the mental effects of war itself on the general population.

"Health is an important cog in home defense and in production for our war effort. Thus the Coordinating Committee on Negro Health states Dr. Craig Morris, Chairman, "urges every citizen to plan to attend."

Questions to be discussed will include:

1. What is OUR Community doing about Health Protection?

2. ARE WE defending OUR citizens' rights to health?

3. Are WE providing THEM with the facilities they need?

4. How has the war affected the health of OUR Community?

These and other vital health matters will be considered at this meeting. The audience will be encouraged to ask questions.

The full text of Dr. Oliver's letter released by the U. S. Office of Education. The purpose of this organization is to mobilize the boy and girl-power of the Nation, to utilize their full resources to organize the eagerness in effective action, and to channel it to areas of increasingly critical need. Community Student-act has emphasized the fact that this is a war... not only of armies and navies, of factories and farms, but also a war of homes and schools and therefore, that education has an indispensable part to play. He has said that "schools must help to train their students in the total war effort; to guide them into conscious personal relationship to the struggle."

"The Victory Corps offers every Negro high school and every Negro student an opportunity to participate and share in the war effort. This is the most significant and urgent task this Nation has ever undertaken. I am particularly glad of this opportunity and respectfully urge every principal and teacher to give their students a chance to make their full contribution."

"Negroes have a very important stake in this war. It is to their personal and group interest that we win the victory as speedily as possible, for their only hope lies in democracy. Our boys and girls—and adults, too—should be made to realize that in spite of the many disadvantages and discriminations faced by them, we are better off than many minority groups; that progress is being made slowly but surely toward realization of the democratic principles of freedom, equality and justice; and that, imperfect as our present situation is, we still have the right and opportunity to use every legitimate means to improve our condition. This most certainly would not be possible under an Axis dominated country. There is a great deal of truth in the following excerpt of an article appearing in the Pittsburgh Courier and reprinted in the Norfolk Journal and Guide, September 12, 1942:

"What we call Negro progress will most certainly be ended in case the Axis wins, and every Negro who has managed to lift his head above the mire mass

will be ruthlessly shovelled down. "Every colored citizen with a municipal, state or Federal job will lose it.

"Every college for the education of Negro youth will be closed and colored students will be barred from white colleges.

"Every Negro who now is able to will be ruthlessly shovelled down. "Every colored citizen with a municipal, state or Federal job will lose it.
