

American People Face Acid Test in Treasury's 2nd War Loan To Raise 13 Billion Dollars in Three Weeks

The Nation Dare Not Fail in This Greatest Financing Task in History—"They Give Their Lives—You Lend Your Money."

Washington, D. C.—Coming as it does upon the heels of income tax payments, the people of America will face an acid test this month when the Treasury's Second War Loan drive opens April 12 with an objective of thirteen billion dollars to be raised through sale of Government securities.

A substantial part of this huge financing, the most stupendous ever undertaken by any government in the world's history, must be loaned by people in ordinary walks of life.

High Government officials have pointed out that the nation must not fail in this duty to our men on the battle fronts who are now carrying the offensive to the enemy at every stage. It is obvious to every thinking man and woman that as the United Nations take this offensive against the dictators, the cost of war operations increases in proportion.

The American people must no longer think of war costs in terms of equipping a soldier, building a tank or plane or a ship. We must now think in terms of the cost of battles, invasions and new offensives. Attacking armies cost more money than equipping that army and we must meet that increased cost by buying more War Bonds and Second War Loan Securities.

They Give Their Lives. It is not only necessary that the American people lend here at home...

And that is the theme of the Second War Loan, "They Give Their Lives—You Lend Your Money."

Financial experts who know monetary conditions in the nation point out that at the present time there is in liquid funds, cash and commercial bank deposits over and above taxes and present investment in Government Bonds, and over and

What are We Fighting for?

(BY RUTH TAYLOR) "It's not what you would die for—it's what you're living for that counts!" He wasn't much more than eight...

It should be the objective of every American to invest these loose dollars, idle dollars, in Government securities, not only from a patriotic standpoint, but from the standpoint of their own financial security.

Are Wild Dollars Every dollar of these forty billions of dollars available, which is not invested in Government securities during this War Loan Drive is a "wild" dollar which, together with its mates, will tend to increase inflation.

Remember those boys out there... in Tunisia... in the South Pacific... They give their lives—You lend your money.

What are we living for? The Secretary of State expressed it thus, in stating our war aims—"We have always believed—and we believe today, that all peoples, without distinction of race, color or religion, who are prepared and willing to accept the responsibilities of liberty, are entitled to its enjoyment."

PLAN YOUR VACATION AT HOME Mrs. America should plan to take her vacation this year inside the pages of a travel book.

If Mrs. America's war working family feels that "getting away from it all" is absolutely essential for health and morale, here are some suggestions on how to bog down transportation as little as possible.
