We have information that Mr. John Marchello, the waldorf-astoria chef, will assume management of the Omaha Chamber of Commerce dining room. Succeeding Mrs. Gertrude Suraglio on the 1st of April. Mr. Marchello is worthy of the advancement as his past experience and contact, places him in a position to be well qualified for the job and the very widely known musician head-waiter, who has used every effort to give good service with a very pleasant smile, will see that all the members and their friends are taken care of in a very fine way.

WEEKLY REVIEWS

—BY BLACK—

CONSTANTLY BEFORE YOU—THE NAACP!

Every day, every hour, every minute, this organization is at work on some case in which the rights of some American citizen is at stake. We do not mean just Negroes, but Americans. We must realize this—Any minority group in a growing democracy is practically at the mercy of the ruling class. The greater the unity and understanding in any group or country, the greater is their power. We note in reports of some of the Vardaman-Tilman-Bilbo type of men that are in Congress a nonsensical tirade on the back to Africa movement, which anyone with a grain of sense, knows full well the utter impossibility of such an accomplishment, that is one of the many reasons why we must do our share here in Omaha toward a membership in Omaha of 1,000 before the end of this year. This is an educational institution, in that in its work it carries on a type of instruction that if accepted and taken advantage of, must wield a beneficial influence. We are against any Uncle Tomism, we do not condone familiarity. We urge dignified actions and approach. We condemn this thing of our wives, daughters, when making purchases at some stores answering to their first names by the clerks, telling their business and in general making a nuisance of themselves. The most of them will not hire a Negro boy or girl, nor would they speak to you if they passed you on the street or in a car. You get more respect by respecting yourself, the more we act the part of intelligent, dignified persons, the more we receive in kind.

POST WAR PLAN—FEPC

All of America is concerned in Post war plans. What is to become of the fighters that have left jobs of various kinds. The replacements and the readjustments. Converting wartime activities to peace-times will bring very many opportunities for the FEPC to step into the breach and see justice done. It may be the curbing of undemocratic actions. We must get back of every effort to make this committee a permanent organization in our economic and industrial struggles. All organizations of any type, prominent citizens and laymen, should contact their representatives in Congress and urge them to support to the last ditch, the greatest and least effort to pass this law.

It is very unfortunate that our government representatives should carry into government affairs, this inhuman monster which has the world divided today. Time marches on, a new day is dawning. A new and better world (we hope) is being opened up to us. We must prepare ourselves to meet the challenge and go on and up that coming generations may enjoy a better, broader civilization than that through which we have passed.

NAACP MEETING

At the meeting on March 26 at the Clair Chapel Church, there was not so many, but those there were treated to a well timed and instructive speech by Mr. Raymond R. Brown, the Urban League Executive Secretary, which was discussed by those present.

The Executive Board will hold its regular meeting the second Tuesday in April at the headquarters. Members be on hand.

WILBERFORCE ACCREDITED BY THE AMERICAN ASSOCIATION OF TEACHERS COLLEGES

Wilberforce, Ohio—President Charles E. Wesley announced this week that the Accrediting Committee of the American Association of Teachers Colleges had recommended the placing of the College of Education of Wilberforce University on the accredited list of the Association at its recent annual meeting. This action gives increased status and national approval to teacher-training facilities and certification which have already been receiving approval from the Department of Education of the State of Ohio. This accreditation is the second one attained by Wilberforce within a period of two years. The first was the removal in 1942 of the probationary accreditation granted by the North Central Association of Colleges in 1939. The approval of the American Association of Teachers Colleges is described by the recommendation as a "full accreditation."

The concluding statements of the report of the Inspection Committee are: "The Committee left with a feeling that a visit to Wilberforce is worthwhile if for nothing else than to be exposed to the wholesome earnestness of the faculty and of the students, too. Your Committee feels that the North Central Association acted wisely in unconditionally accrediting Wilberforce University and recommends the full accreditation by the American Association of Teachers Colleges."
