

SENATE REACHES NEW LOW INSULTING NEGROES, JEWS, IN FIGHT ON FEPC.

Washington, DC.—A new low record in insulting Negroes and Jews was reached in the Senate June 20 when Senators Bilbo of Mississippi, McClelland of Arkansas, Russell of Georgia, and Eastland of Mississippi aided by Maybank of South Carolina, tossed racial epithets about freely to the shock and amazement of persons in the gallery.

Eastland reached the nadir when he shouted a protest against white stenographers having to take dictation from "burr headed niggers." Later in the Congressional Record this was corrected to read: "Negroes"

Bilbo, Eastland's partner from Mississippi ranted in a long rambling speech against Negroes, Jews, the NAACP, A. P. Randolph, Howard University, Walter White, Secretary Morgenthau, Mrs. Eleanor Roosevelt, Mayor LaGuardia and others. His greatest insult was offered to Mrs. Roosevelt as he said he "might consider" making her queen of Liberia, after he had deported two and a half million Negroes to that country.

Bilbo also virtually advocated mob violence in Washington by stating that white citizens ought to take the law into their own hands in the matter of residential segregation.

Eastland suggested to McClelland during the latter's speech that the

"white race" is being discriminated against in the government and asserted "we have in fact today a government of minority groups who control this country," and concluded by saying "in other words, a white person a member of the Caucasian race, is today discriminated against, imposed upon and humiliated in the government departments in the city of Washington."

This was interpreted as a statement that Jews and Negroes now control the government.

The most significant action on the floor came at the conclusion of McClelland's diatribe during which he used the word "nigger" repeatedly, when Senator Guy Gillette, Democrat of Iowa, walked over and shook hands with McClelland, congratulating him on his speech.

The appropriation of \$500,000 for FEPC was finally adopted but three amendments were also adopted which will restrict the work of the committee, even though it now has life until June 30, 1945.

GEORGE BURROWS AWAITS DEPORTATION AT MIAMI.

New York.—Word has been received here by the NAACP that George Burrows, extradited from New York last year to Gulfport, Miss., on a charge of shooting two white men in a hotel there, is at Miami, Florida, awaiting deportation to the British West Indies. At the time Burrows was extradited on orders of Governor Thomas E. Dewey, there was great fear that he would be lynched when returned to Mississippi. However, the NAACP engaged a leading attorney of upport to defend him and after several months all charges against Burrows were dismissed, and he was ordered deported.

UNCOVER PLOT TO BLAST NEGRO HOMES.

ATLANTA, June 26 (ANP) Detectives Tuesday were investigating a plot, believed to have been instituted by angered white neighbors, to dynamite two residences into which Negro occupants moved three days before. The neighborhood previously had been all white.

The charge of dynamite, apparently set to go off the instant someone stepped on the porch of one of the houses, blew up the porch and tore off the whole front of the house, when it was released apparently when a newspaper was thrown on the porch by a route carrier.

Examining the house next door, detectives found another charge of dyn-

SEAMAN PATRIARCH

William E. Lew, 78-year-old Negro merchant seaman, chatting with Mrs. Wendell Wilkie at the Seamen's Rest Center operated by the United Seamen's Service at Oyster Bay, L. I., during a tour conducted for workers of the National War Fund, of which USS is a member agency.

Possibly the oldest active member of the National Maritime Union, William Lew joined the merchant marine in 1943 in response to a call for all available men, and served as a steward. He is recuperating at the USS Rest Center from the strain of service, and told Mrs. Wilkie he hopes to return soon to the sea.

A well-known teacher and student of music, Mr. Lew headed the music departments of high schools and colleges for a half century. His

great grandfather's band, composed of his own children, played at the inauguration of George Washington, and at least one member of the Lew family has fought in every one of this country's wars.

Forty years ago he shipped out of Boston on the S.S. Enterprise and last year resumed his early nautical calling because it afforded an opportunity for service where he was best fitted to aid the war effort. And having once more answered the call of the sea, the patriarch says he would like to continue with the merchant marine as long as he is able. United Seamen's Service is one of nineteen National War Fund agencies supported by the American public's contributions to 10,000 local community war fund campaigns.

'COTTON ED' BACKS DOWN ON 'WHITE SUPREMACY'

Lexington, S. C. June 26 (ANP)—Sen. Ellison D. "Cotton Ed" Smith, faced for the first time in his 36 years in the senate with the weight of Negro votes should he win the Democratic (lily-white) nomination, indicated in his opening campaign address last week that his highly advertised program for "white supremacy" has been toned down somewhat.

Declaring himself a firm believer in white supremacy and noting reporters recording his words, the aged Lee county solon, turned quickly towards them and amended his statement to say, "Naw, I better change that. I don't mean white supremacy, I mean white man's government."

HIRE 2 NEGROES; 500 WHITES STRIKE

Birmingham, June 25 (ANP) Angered because two Negro riveters were assigned to work on the same

shift with whites, 500 white employees of the Virginia Bridge company here walked off the job Wednesday.

The strike completely halted the plant's production of section bridges for the armed forces. Only 28 Negroes are employed by the company, the majority of them in menial positions.

CHAS. E. SANDALL SAYS:
NEBRASKA IS PROUD OF ONE OF THE BEST LIQUOR CONTROL LAWS IN AMERICA
Our State Liquor Control Law is one of the best planned and best executed in the United States. It is often considered the model by legislators of other states. When this law was drawn back in 1935 our Legislators studied the problem, acted with care and consideration. Time has proved their wisdom. Today conditions in Nebraska are very good, thanks to this law.
This Committee, which is concerned with the proper administration of this law, works closely with your law enforcement officers, aids wherever possible in maintaining the good conditions for which Nebraska is famous.
Good laws, well enforced, have been proved better than unenforceable laws—or the finest enforcement of poorly drawn legislation.
