

RESPECT DEMOCRACY!

by Ruth Taylor

Father Wilfrid Parsons brought out an interesting thought recently which expresses a great deal of what is wrong in our attitude toward government. He said that we are too apt to treat legislation as a sports event, that a bill may be carefully and thoughtfully worked out and brought before Congress but when the vote is taken the headlines read, "Such and such a side won."

This is a strong indictment. Is legislation to be a battle of wits—or a genuine effort to bring to pass a law for the betterment of all the people? Must there be a winner and a

loser in government? Or is this a government of the people, by the people and for the people?

We must be more dignified in our concept of public life. We must make it not a sports event where the cleverest is the best, but a career in which a man does the best he can. We need to treat with as much respect the oath of office as we do the physicians' oath.

Have you heard the surprise with which foreigners greet many of our "democratic" vitriolic attacks upon those in authority. It starts with surprise but then it turns into a sort of derision, asking, "Is this democracy?" If you would understand why they feel this way, read the legislative news in your morning paper, critically, not with amused tolerance.

Only as we take seriously our duties as citizens, prayerfully, earnestly seeking out the best men for the job, regardless of the party or the creed to which they belong, then dignifying them with respect and expecting of them due recognition of the responsibility they owe—not to the voters who elect them, but to all the people of the United States—only as we act this way can we properly dignify the democratic process.

Let us show what we really mean by a government of the people, by the people. Let us stop thinking of it as a race or a glorified advertising competition and treat our government as we would have outsiders consider it. If we don't respect the democratic process, we can't expect our world neighbors to do so.
