It has not been thoroughly emphas ized that "upgrading' and "white collar" jobs are for those who are qualified and not for the maid, the butler the cook, the yardboy, or the laur ress, unless they have thoroubly pre pared for such advancement.

Soldiers Returning for Jobs ... With the postwar period figuratively just around the corner and the fact that millions of the members of our armed forces will be returned to civilian life and thus to active comhand, some manner of controlling the domestic and inskilled labor situation must be devised and put into operation immediately. Among the millions of GI's who will be hunting jobs in the very near future will be thousands wiso are expecting to return to the very jobs foolish Negroes are spurning today. White elevator operators, white countermen, white cooks, white janitors and bellhops, white truck drivers and laundresses, as well as porters, will swarm all over jobs available in these categories.

The Negro's outlook should be to keep all the jobs which have been traditionally called "Negro jobs" and and to them all others that he can get. The idea should be to control completely the vast field of domestic service: to be the main source of unskilled labor and then press forward ir. other fields through rapid and thorough training of people to fill the positions that crop up.

In such a case, it isn't hard at all to place white people in their places. The strategy in Hollywood would
