Young lady, does an old TABOO prevent your knowing this help? In less enlightened days, women didn't discuss these things. Now, it's different. If a woman suffers from periodic cramp-like pain and other purely functional distresses, she tries to learn how to help herself.

To Our Customers: For the sole purpose of trying to prejudice you against our Company, unfair interpretation has been made of the testimony given in the recent legislative committee hearing.

Any implication or inference that we have done anything that was not straight-forward and above-board is untrue, and unfair to our Company and its employees. The hearing brought forth not one item of testimony to the contrary.

The people of Omaha, time and again, have overwhelmingly indicated that they want the Nebraska Power Company to continue to serve them. We shall continue to pay for any activities we believe necessary to protect our Company and keep your electric service on its present high plane.

Enemy Equipment to be Displayed Sept. 15, 16, 17 Omaha, Sept. 9—Largest collection of captured enemy aircraft ever assembled, the Army Air Forces' "Shot From the Sky" exhibit of German and Japanese planes, fuselages and pieces of equipment will be on display at Fort Omaha, 30th and Fort Streets.

Our Record Proves that the simplest funeral can be as reverent and dignified as the most lavish. To have beauty, dignity and consolation the last rites need not be expensive. We serve as we would be served.

THOMAS FUNERAL HOME 2022 Lake St. W.E. 2022

Omaha, September 15, 16, 17, it was announced by John W. Gordon, War Department director.

No admission will be charged, and the exhibit will be open to the public from 2 until 10 p. m. on each of the three days, with afternoon and evening stage shows at 3:30 and 8 p. m.

Sponsored in Omaha by the Production Urgency Committee of the War Production Board, in cooperation with the AAF and the War Finance Committee of the Treasury Department, "Shot from the Sky" is being exhibited here to emphasize the need for increased production of war material, to urge those not now engaged in essential industry to take war jobs and to stimulate the purchase of war bonds through the payroll savings plan.

Mechanical center-pieces of the exhibit are a Nazi Messerschmidt 109F fighter plane captured intact in Africa, a Japanese Army pursuit ship shot down in the South Pacific, a German Junkers 88 bomber and the fuselage of a Jap Mitsubishi bomber. Other displays include plane engines, tail assemblies, barrage balloons, guns and ammunition, parachutes, radio equipment, link-trainer, photo-murals, war paintings and a special Women's Army Corps exhibit.

Air Wacs who accompany the exhibit perform almost every conceivable type of work, from assembling the German and Japanese planes to acting as guides and lectures when the display is in progress. In addition to handling the captured equipment, they conduct a WAC field headquarters tent in which they demonstrate control tower operation, photography and many other of the 239 jobs their organization contributes to the Air Forces.

Combat veterans, representing each of the 15 U. S. Army Air Forces, drive trucks, operate the heavy cranes necessary to move the Axis aircraft, supervise assembly of the link-trainer (device used to teach our pilots blind flying), set up the portable stage composed of four trailers placed end to end and direct the raising of the barrage balloon which will fly daily over Fort Omaha during the exhibit's stay.

Nightly programs from the 80-foot stage will feature prominent military and civilian guest speakers, Air Forces' pilots just back from combat, the Fort Des Moines WAC band, the Union Pacific chorus, the North High School rifle squad and local radio and entertainment stars.
