We disagree. We think Patience is a poor companion to Progress. When, in all the history of the world has progress come except when people were aroused and got behind it and pushed? For every freedom we have today, for every liberty wrested from the reluctant hand of tyranny, we owe a debt to the dauntless spirit of men and women who wouldn't and couldn't wait. The greatest immediate manpower need, Mr. Wilson pointed out, is in artillery, mortar and small arms ammunition plants, forges and foundries, tire plants and cotton duck mills.

Other war industries for which more workers are needed immediately to meet pressing military demands he added, are shipbuilding and naval repair yards, plants producing B-29 bombers and new fighter planes, plants making trucks and components communication wire and wire rope factories, plants building artillery and gun carriages, tanks and self-propelled guns.

RANDOLPH COMES OUT FOR THIRD PARTY

New York (CNS) A Philip Randolph, head of the Brotherhood of Sleeping Car Porters, has come out for an independent party to be organized "without delay if America is to face with assurance the difficult problems of peace and postwar reconstruction."

In a stirring article in the Common Sense Magazine, Randolph says he wants this party to stand up the Scanlon-Dawson-LaFollette Bill for a permanent FEPC. It would want the party to be clearly for a federal poll tax repeal bill and a federal anti-lynching bill and for abolition of race segregated education in border states such as Missouri and Maryland.

"It must exclude fascists and communists but such groups as the Liberal Party in New York, the Political Action Committee, the Socialist, Party and Michigan Commonwealth Federation should be urged to unite with the trade unions and liberal farm organizations in building the new party."
