International Workers Order 80 Fifth Ave., New York, N.Y. January 24, 1945

Mr. Dave Klein, Omaha, Nebraska.

Dear Local Secretary: During the week of February 11 to 18th our country will observe Negro History Week. This is a very important occasion. The birthdays of Abraham Lincoln and that great Negro fight for freedom, Frederick Douglass, fall during this week.

The American Negro has made so many contributions to America that Negro history is American history. The Negro helped build the roads, railways and buildings. Important contributions have been made to industry, agriculture and science by such men as George Washington Carver, to education by Booker T. Washington, to music by James Weldon Johnson, Marian Anderson, Paul Robeson, to sports by Joe Louis, Jesse Owens and many others. The contributions of the Negro people are the property of all Americans.

Yet the Negro people in this war still suffer from Jim Crow and job discrimination and other forms of oppression. We have begun to realize that the future of American democracy depends on the elimination of this oppression and the complete integration of the Negro people in every phase of American life.

We suggest that during the month of February, your lodge should arrange some observance of this week. You may turn one of your regular lodge meetings into such an observance, or you could arrange a special meeting on the history and problems of the Negro people.

In almost every community there is now functioning a local Negro History Committee. Please get in touch with this Committee to help you plan the meeting. Invite a speaker from the Committee. Invite people from the Negro Community to your observance.

Where no such Committee exists, get in touch with the progressive Negro leaders in your community. Wherever possible a public meeting should be organized. We also suggest a film program showing the contributions of the Negroes to the present war.

In a few days you will receive an outline in bulletin form on Negro History Week. You will also receive copies of a special folder on Negro recruiting. A pamphlet on the struggle for Negro Rights, by Max Bedacht is being prepared.

We hope that your lodge will put forth its best effort in this undertaking.

Fraternally yours, SAM MILGRAM, Gen'l. Org. Director

BENEFITS AND PENSIONS THE SAME
The Northwestern Bell Telephone Company announced today that employees of the Company who are on military leave of absence from the Company will receive a rate of pay when they return to work which will be the same as if they had worked continuously with the Company in the jobs they held when they left for military service. This means that the rate of pay those on military absence from the Company receive when they return to employment with the Company will include all general wage increases which are made during their absence as well as those normal wage progression increases which they would have received if they had stayed at work in the same job. This arrangement will apply retroactively to all employees who have already returned from military service to employment with the Company. This promise was reached in negotiations between the Company and the Northwestern Union of Telephone Workers.

The announcement received here also states that the Company's practice in regard to its personnel now on military leave of absence who re-

turn to the employment of the Company is that the entire period of their leave is counted as service under the Company's benefit and pension plan. The period of service with the Company has a definite bearing on the amount of pensions and benefits for sickness, accident and death. This provision also applies retroactively.
