Experiments Show Burning Pastures Injures Growth

To burn or not to burn is the question that many land owners ask themselves each spring. Usually they succumb to the impulse to "clean up the place."

The report goes on to say that a still greater loss caused by fire, although not so apparent in a single year, is the destruction of soil fertility.

CHAS. E. SANDALL SAYS:

"SOIL-CONSERVATION IS ONE KIND OF SELF-REGULATION"

The thousands of Nebraska farmers who adhere to the sound practices of soil and water conservation not only protect their own interests but the interest of all whose lives and fortunes are dependent on Nebraska's fertile acres.

This activity on the farms yields benefits to the common good much like the Nebraska Committee's self-regulation program in the brewing industry; a program which constantly develops and promotes clean, orderly conditions and observance of law wherever beer is sold, and thus benefits both the industry and our citizens in all walks of life.

6-N-45 Pay-Cut By GEORGE S. BENSON President of Harding College Searcy, Arkansas Looking Ahead

LAST YEAR at this time I enjoyed the acquaintance of a business man whose salary was \$50,000 a year. I looked upon him with a great deal of admiration and respect for several reasons.

Inside HERE is another enigma lightening passage from his statement: "Perhaps you wonder why my net realization from wages has been so small. The answer lies in the extremely high income tax rates which apply to my wages, added as they are to my other income, and to the fact that I must pay not only federal income taxes but also state income taxes."

Men who cut off big salaries have other income. That's why their tax rates are so high. That's why they can afford to spurn a salary. But if they must decline the proceeds of their own investment earnings, one thing is sure: They will not hazard further earnings to start new ventures or expand old ones.

Salary Shrank ment: "I insisted that the board of directors reduce my annual salary from \$50,000 to one dollar. I have not been receiving net anywhere near \$50,000 a year for working... Only \$309.36 was left for my use out of my 1944 wages... Why should I permit the company to pay out \$50,000 a year to benefit me by only \$309.36?"

Let me make haste to say that I am not sorry for Uncle Frank. He will be all right; he has some other money. I am not worried about his employees either. The faithful workers among them will
