LOCAL NOTES
BUSINESS MAN BUYS J. D. LEWIS MORTUARY

Mr. Preston Hieronymus, the owner of the Northside Transfer Co., has purchased the J. D. Lewis Mortuary property at 2310 North 24th street. Mr. Hieronymus has not fully decided just what he will do with the building. However he has definitely decided not to operate a mortuary. He is considering turning it into a small apartment house.

Mr. and Mrs. Lewis are now visiting relatives and friends in Kansas and are expected to return to Omaha in the near future enroute to Calif. where they will make their future home. Mr. and Mrs. Lewis have two daughters in California, who have been living there for some time. We are informed they are teachers in the public schools in Los Angeles.

Princess Ozell Chapter Number 11 OES gave a Get Acquainted and Social Hour, Sunday afternoon, July 22nd, honoring the W. M. Asen, and all of our Grand Officers. Punch and cake was served. Everyone there reported having a very pleasant time. We should have the Social gathering more often.

Mrs. Thearia Wiley, Chairman of Committee.

I wish to thank Princess Ozell Chapter Number 11, Rough Ashler Lodge Number 1, My WGM., and my many friends for their kindness in giving me this hearing aid. Something I have been hoping for, for many years. It is such a comfort to me. My God bless you one and all!

May we greet you in Mt. Nebo Baptist church Sunday, Aug. 12th, 1945? A special message for you will be delivered by the pastor. The "Pilgrim Travelers" will also bring us a special treat.

All departments of the church are doing a great work and carrying on a wonderful program. Everyone is invited to attend regularly.
Rev. J. P. Mosley, pastor.
C. Phillips, reporter.

Mrs. A. M. Stevens of 2606 N. 30th St. is now at Lake Okiboji, Iowa, working. She has been there one month and will return to her home at 2606 N. 30th St. on Labor day.

We miss Rev. Blackmore so much since he left for Texas. However, the church is moving along nicely.

Mr. Larry Peeples will leave tonight on a fishing trip and will return Sunday. We hope they will have success.

The reporter landed in Council Bluffs at 10 A. M. and beheld, they had on what they call a dog catcher parade. I never saw so many dogs and Shetland ponies. Quite a swell affair for Council Bluffs. The parade was near one mile long and plenty of a thrill. Watch for next Wednesday, when the circus arrives, August 8th.

ENGLAND'S post-war problems are upon her and they are almost exactly like ours will be when our war is over in the Pacific. The one big difference lies in what the working people think. The British workers don't think they fared very well under private capital and private management. They figure they would be better off if the government owned everything.

Workers in America prefer free enterprise. Our labor is in favor of open competition. The reason is that working people in America see how they have fared ill right with private enterprise. Labor leaders speak freely in favor of capitalism. Our workers probably will not turn against the American system since it has not turned against them.

Americans NOBODY has the Fare Well working people of either country fooled. They have the truth in both cases. In England, labor has had a pretty shabby deal; in America the worker has lived well. The important question is this: British workers oppose capitalism and American workers favor it—can it be possible that they are talking about the same thing?

Before World War II, the economic system in Britain was called private enterprise—same as in America. Moreover the two were quite a little alike, at this variance, except that wages on this

she likes Omaha very much, and sure will stay here. She says corn crops are fine also the gardens. They are the parents of a girl and a boy. Mrs. Thomson's husband has a very good job and says, "Give me Nebraska."

Mr. Lamar of 1625 Ave. E, Council Bluffs, is now working at a tavern. Mr. Lamar reports that he is doing nicely. He formerly lived in Omaha but since living in Council Bluffs has learned to like it very much. He would sell B. O. R. but can't get the meat at present.

Mr. Bradley of 2409 N. 29th St. is now doing some improvement on his home. Mr. Bradley is a R. R. man and keeps very busy at all times. He is looking much better. There is a great deal of improvement among the colored people of Omaha. Seems that we will soon have a very nice portion of town in which to live.

Mrs. Golden, 24 N. 16th St., reports C. B. Ashford of South Dakota was making her official visit in the interests of the mission work and enjoyed themselves in honor of Mrs. Isabelle, Des Moines, Mrs. Ruth Kitchen of Des Moines and Mrs. Minnie Taylor, Omaha. The Mission Tabernacle had a very successful Finance Rally.

The aid summer From Night given by the Jr. N. A. C. P. of Council Bluffs, Iowa had a very good time and everyone enjoyed themselves. We meet once each week. Earl Coobin, president; Norman Cave, vice president; Mary L. Coffee, treasurer; Winona Spires, secretary; Russell Leeper, assistant secretary; Jack Terry, sergeant-at-arms.

We truly hope those of us that are regularly employed will not allow ourselves to do so much that were eliminated! Too much liquor which leaves absentees overdrawn salary. Very little corporation given to head waiter and captaincy. Think it over boys, very seriously.

side of the ocean were high and American workers earned more than twice as much as the British workers, trade for trade. The difference was that private enterprise in Britain was not free.

Britishers COMPETITION in Need More England was not actually open. Wasteful monopolies operated within the law. Private business concerns were fenced in with legal restraints on their government restrictions on that and government restrictions on that. What they had was government-bossed private enterprise. Business men couldn't make money and therefore couldn't pay their workers.

British workers couldn't work hard enough to live well. They needed new tools and modern methods so they could produce more; so their employers could pay them better. But the employers couldn't buy better tools. They were so restricted that they couldn't make a profit. Result: Labor unions formed a socialist party and now are bidding strongly for control of the government.

America can keep private enterprise free. With prosperity and progress, American firms can pay their workers well. But silly restrictions and heavy taxes can choke out profits. Without profits there can be no better wages. Unhappy workers bring socialism. Socialism, nowhere in the world, has brought wages half as high as America now enjoys.

Mrs. Thomson of 2901 Lake St. left for Marihu, Arkansas, on the 8th of July. She spent about 10 days in the state. While there she had an opportunity to look the country over. She reports that all the cotton, corn and gardens are in a very poor condition. All crops seem to be far behind crops of previous years. Some have had too much rain, everything flooded. However, Mrs. Thomson and daughter enjoyed her old home state very well but not like Omaha. She said she could not live there any more. I told her she had eaten some of Omaha neck bones and made it difficult for her to leave.

FROM THE WAR PRODUCTION BOARD
Ambulances and hearses will no longer be rationed, the War Production Board announced today.

The Office of Price Administration, under delegation of authority from WPB, has been rationing passenger cars from fast disappearing stock piles, and is now preparing to ration new production, its authority broadened to include station wagons and coupes with "pick-up" boxes, formerly rationed by the Office of Defense Transportation.

It is important to note that although rationing restrictions have been removed from hearses and ambulances, their production is still limited by WPB controls, the agency said.

This action was effected today by amendment of Directive 36 and Supplementary Directive 1-X.

FROM THE OFFICE OF PRICE ADMINISTRATION
The Office of Price Administration today made the following statement: A further investigation confirms OPA's statement of July 31, 1945, that reports of sales of rancid butter for use in soap making were unfounded.

Since then a news story was published (August 1) crediting Proctor and Gamble with a statement that the company had bought 90,000 pounds of rancid butter.

What Proctor and Gamble actually received was salvaged inedible grease derived from cheese rinds and cheese "handages" (a cloth wrapping). The grease contained reclaimed fat, paraffin, and cheese components.

OPA has been informed by the concern which sold the grease to Proctor and Gamble—E. Rauh and Sons of Indianapolis—that the shipment contained only inedible grease derived from cheese rind. This grease was shipped to E. Rauh and Sons by Rosenberg and Sons of Green Bay, Wisconsin. Officials of the Rosenberg company also advise OPA that no rancid butter was contained in the shipment, and that the freight bill showed a shipment of inedible grease.

OPA has been advised that Proctor and Gamble is aware of these facts and today issued a supplementary statement confirming that no butter, rancid or otherwise, was received.
