VETERANS' BENEFITS

Reliable and authentic information concerning monetary and other benefits available to returning servicemen and servicewomen and their dependents may be found in Veterans Administration Pamphlet No. 44. Those who wish correct information on the many phases of veterans' welfare will find this pamphlet valuable. It has been prepared by the Veterans Administration and contains helpful information of interest to both veterans and their dependents concerning pensions, compensation, retirement pay, insurance, readjustment allowances, medical treatment, hospital and domiciliary care; burial and funeral expenses; vocational rehabilitation; education and training; guaranty of loans for purchase or construction of homes, farms and business property and other related benefits.

Because of the dissemination of inaccurate and incomplete data on veterans' benefits by some publications, veterans and their dependents should avail themselves of the opportunity to obtain a copy of Veterans Administration Pamphlet No. 44. Libraries and colleagues will find this document valuable.

It may be secured only by purchase from the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C. at 15c per copy. It is not available at the Veterans Administration.

One of the hardest things for us to understand in this world is our friends' friends.

A fellow recently started to show me snapshots of his children, but I was quicker on the draw.

A lot of people who can do nothing else do it in a hurry.

Dogs are everything that you expected children to be.

One thing this country needs is a clearing-house for co-hangers.

Never make a final exit speech; you might want to go back.

Moisture Needed Fertilizers are of no value to the plant unless the soil contains ample moisture and air. Fertilizers should not be applied to dry soil; so, during periods of drought, artificial watering should be practiced. On soils known to be highly acid or deficient in calcium, this condition can be corrected by applying agricultural ground limestone or hydrated lime at a rate of 50 to 70 pounds per 1,000 square feet. The rate of application of lime should be based on soil tests, and lime should be applied only if analysis shows it is necessary.

GREAT NEWS FOR WOMEN WHO DOUCHE Many Doctors today recommend the use of douches for women troubled with discharge ("the whites"), offending odor, and minor irritation—for women who want to be and feel refreshingly clean. And here's a product for the douche—Hospital tested, too, with splendid results—Lydia E. Pinkham's Sanative Wash, made by the same great company that makes Lydia E. Pinkham's Vegetable Compound. Pinkham's Sanative Wash is gaining great favor today with women. It's mighty effective to cleanse, relieve offending odor, discharge and discomfort of minor irritation, yet it positively won't harm even the most delicate membranes or tissues. Inexpensive, too. Any drug store.
