Why is a worm like a hole in a sack?
That's easy. Both the worm and the hole waste chicken feed.
Name a good worm remedy. That's easy, too—Nicozine. Here's a product that destroys two species of poultry worms. These are the large roundworm and the cecal worm. Nicozine, furthermore, is a floc treatment. It is given along with a little feed to the flock—they eat the mixture. Treat your flock now with Nicozine.

HERE'S THE TOP MAN IN SHOW BIZ AND, BROTHER, IT'S A GOOD DEAL!

Exclusive to Ted Yates Publications
Say what you will, folks, and we warn you not to argue the point. Larry Steele (pictured above) is America's No. 1 outstanding performer in the entertainment world. Yes, he's top man in show biz—but definitely! As an emcee, producer of hit shows—theatres and night clubs; singer, actor, gagster, scriptwriter and radio artist; Steele has no peer. As a lyricist, composer and musician he is rising rapidly as the foremost among our young artists and has written many outstanding tunes. "It's A Good Deal" was one and still is one of Larry's most popular numbers. His latest, "It's A Smart Affair" is destined to become as much a favorite with music and dance lovers as "Good Deal." Last week Steele became the headlined featured attraction at Club Ball in Washington, D. C. Why a club like the Cafe Zanzibar in New York has passed up this talented star makes us wonder if talent scouts are a right lot.

The DAY IS COMING

That the management of Constitution Hall in Washington is bigoted is self-evident. Its refusal to permit the appearance there of Marian Anderson in 1939, and its more recent discrimination against the talented Hazel Scott, were offenses none but bigots would be guilty of. Yet, when this is said, not all is said. The policy which guides the management is laid down by the very distant Daughters of the American Revolution, an organization notoriously anti-liberal, anti-intelligent and anti-labor, not to say anti-foreign, anti-Semitic and anti-Negro. As the late William Allen White pungently observed: "The DAR, has...yanked the KuKluxKlan out of its own cow pastures and set it down in the breakfast room of respectability."

The DAAR, represents the female plutocratic viewpoint, and the more one examines this viewpoint, the more one is inclined to agree that, if not more deadly, the female of the reactionary species is equally deadly with the male. Its literature gives startling evidence of the "Daughters'" fear and hatred of democracy and contempt for the working class. In the 1934-35 handbook, "National Defense through Patriotic Education," the DAR after launching a savage attack on Socialism, recorded the following terse and wistful description of Fascism:

- "1. Spiritual interpretations essentially an ethical concept.
- "2. Right of private property—Charter of Labor—Intervention only when private initiative is lacking.
- "3. Social responsibility—Class Distinction—Recognizes natural inequalities.
- "4. State Supreme.
- "5. Opposition met by annihilation."

Doubtless, the more recent DAR publications are more cautiously phrased, but the fact that, in 1935, the DAR believed Fascism to be an "ethical concept" spiritually betrays a state of mind far more sinister than mere bigotry.

It has ever been the fate of ruling classes that, when their tenure as rulers is threatened, the blindest, most bigoted and most ferocious elements among them dominate their class policies. It happened when the imperial power of the Romans began to crumble. It happened again when the surfeited feudal class of the Middle Ages felt their system quake under the repeated blows of the rising bourgeoisie. Indeed, in our own time we have seen the rise to power of the most dissolute and barbarous capitalist elements in the Fascist nations as the giant Labor showed signs of awakening.

The DAR is one of many groups in America representing the least enlightened and most ferocious element of our own ruling class. Its policies, as typified by the exclusion of Negro artists from Constitution Hall, may be futile and fatuous. But, as the fear-ridden, reactionary mind sees it, they are vital policies if the prejudices and superstitions which tend to keep the working class divided are to be perpetuated. To such a mind, the superstition of race inferiority is a pillar of modern society and an essential prop for class privilege.

The Marian Andersons and Hazel Scotts are living rebukes to purveyors of the race inferiority superstition. Hence, the DAR's mean and contemptible policy of denying the mthe use of Constitution Hall.

Decent men and women from coast to coast are hotly and righteously indignant over the grossly discriminatory action of the hall's management. This is a wholesome reaction. It reveals that a

large proportion of the people have achieved enlightenment far in advance of the dominant ruling class elements. Yet, the indignation decent men and women feel would be far more effective if it were also directed against the system of class rule which the DAR is dedicated to perpetuate.

NO TIP AT ALL!
New York (CNS) Leonard Lyons reports: Arm-and-Deutsch has a good story on his grandfather, Julius Rosenwald, fund establisher and Tuskegee angel. It goes like this: Rosenwald, riding on a Pullman, was discussed by two porters. Said one, "I have Rosenwald in my era. I expect a big tip from him".....Said the other, "You'll find Mr. Rosenwald is more for the race than for the individual!"

CROWDS CHEER PERON AFTER JAIL RELEASE
Buenos Aires—Colonel Juan Domingo Peron is shown with right hand uplifted as he addressed throngs of his followers from the balcony of the Government Building at Plaza Mayo after his release from prison and restoration to power. President Edelmirto J. Farrell, partly hidden by microphone just to left of Peron, is said to have publicly embraced him while the estimated crowd of 50,000 cheered on.

Your BABY
By Lillian B. Storms

Lunch time, during most of your baby's infancy is going to be the most interesting meal. New foods are introduced first at the luncheon meal. Even cereals are given first at noon—or the feeding near mid-day. Later, when strained vegetables and egg yolks are put into the luncheon menu, then the cereal is moved to breakfast and often given at the evening meal as well.

Each new food is introduced in very small servings. If he accepts the new food with its different texture and flavor and appearance, well and good. But don't give him very much even though he may be willing to take more. After a few days is soon enough to increase the servings a little at a time.

If he refuses any new food offered him, say nothing and remove the offending food. If no unpleasant associations are established in connection with any food, he probably will take it without question on the second or third trial.

Children of all ages resent being forced or urged or coaxed to eat. Most adults have the same reaction. A serving which is too small becomes more desirable. Babies, like the rest of us, know when they have had enough and like the rest of us, vary in the amounts they eat.

Lunch time is the time to learn to drink from a cup and when the first strained fruit or custard is given.

How women and girls may get wanted relief from functional periodic pain

Cardul is a liquid medicine which many women say has brought relief from the cramp-like agony and nervous strain of functional periodic distress. Here's how it may help:

- 1-Taken like a tonic, it should stimulate appetite, aid digestion,* thus help build resistance for the "time" to come.
- 2-Started 3 days before "your time", it should help relieve pain due to purely functional periodic causes.

Try Cardul. If it helps, you'll be glad you did.
