Cancer Research Program Started

(by Dr. John E. Moseley, Assistant Radiologist at Mt. Sinai and Sydenham Hospitals, Chairman Harlem Committee, American Cancer Society)

The second greatest killer of man kind is cancer. If we cannot save ourselves from physical torment and premature death, our industrial advances do not help us much. Leaders of research in the field of cancer believe the greatest hope for understanding the cause and cure of cancer lies in the Dr. Moseley direction of providing answers to the following questions:

1. What causes and controls the growth of the normal living body cell?
2. Why does body cell growth get out of control to form cancer?
3. What are the differences between the normal and the cancer body cell?
4. What natural defenses does the human body have against cancer; how can they be strengthened?
5. What influence does diet have on cancer?
6. What can be done to help the effectiveness of x-rays and radium? These questions and others will form the subjects of new investigations. Since cancer is really the uncontrollable growth of living cells within the body, the whole subject of the growth of living things will be thoroughly studied.

During the war years, important scientific problems were solved by research teamwork in many different fields. Scientists attacked the same problem from different angles. The results of these investigations were then tied together and out of them came the great developments of wartime science. This scientific teamwork proved very successful. Therefore, the research committee started the cancer program by putting its confidence in the same kind of teamwork.

The tremendous advances in all sciences during the war years have re-awakened the world to the great possibilities of modern science. Governments throughout the world are preparing to hire scientists in vast new research programs. Chief among the subjects to be investigated is cancer. The National Research Council, chief scientific advisor of Government has joined with the American Cancer Society in the organization of a national, peace-time attack on cancer. A half million dollars is being given by the American Cancer Society for the first step in this great cancer research program. This money will be taken from the funds raised during the 1945 Spring Campaign for Cancer—to which many Negroes contributed, and to which they will no doubt contribute again next year. American Cancer Society, 350 Fifth Avenue, New York City.

ASK U. S. TO PROBE FLORIDA KLAN CROSSING
New York—A request that Tom C. Clark, United States Attorney General, institute an immediate investigation of the burning of five fiery crosses near Negro homes in a subdivision of Miami, Florida, November 2, was made last week by Thurgood Marshall, chief counsel of the N.A.A.P.P., by the recently rejuvenated Klux Klan and kindred organizations most certainly deserve the immediate attention of the Department of Justice." Marshall wrote. "This is especially in the light of the recent lynching in Florida." Marshall also wired Governor Millard F. Caldwell of Florida, urging an investigation of the incident by the Governor's office.

"THREE O'CLOCK . . . AND I HAVEN'T SLEPT A WINK"
WAKEFUL NIGHTS—how the time drags! Minutes seem like hours, when things done and left undone. After such a night, we get up in the morning more tired than when we went to bed. HUCKLEBERRY FINN

WASHINGTON, D. C.—Second Lieutenant George E. Norford, former New York newspaperman and editor was recently assigned to the Press Branch of the War Department Bureau of Public Relations. As an enlisted man he was a field correspondent in the South Pacific for "YANK," the Army Weekly, and before coming to Washington held assignments in the Public Relations Offices of the New York and Seattle Ports of Embarkation. He also is known in New York theater circles for his plays. Two have had semi-professional productions, a third has been published by Army Special Services. (U. S. Army photo from BPR.)

UNDECLARED CIVIL WAR IN CHINA
New York (Soundphoto) Shanghai province seaport of Tsingtao took a place in forefront in undeclared civil war in China when thousands of Generalissimo Chiang troops were landed from American transports. Occupied since Oct. 11 by U. S. Marines, the possibility of involvement in clashes has been heightened by fact that Chinese Communist forces ring the port by land. Whether the Marines will be pulled out of area dominated largely by Communist troops remains to be seen as other landings were reported at Chinwangtao, 2, meanwhile the Communists are besieging Paotow, 3, and next on their list is government stronghold of Taiyuan, 4, in neighboring Shansi province.
