PARTY-BOUND RAYON DRESSES

BOTH these sisters are wearing matching dresses of colorful, serviceable spun rayon. They have contrasting yokes edged with scallops, set-in belts that tie in back, and circular skirts. Youngsters' clothes—whether they're for school or dress-up—should be built to "take it." Your best assurance that children's rayon garments have the necessary service qualities is to look for informative labels that tell you about the laboratory tests the fabric has passed for durability, color-fastness, shrinkage, etc.

Your BABY

We often hear that children are creatures of habit. Most adults have habits which, once established, are hard to change. Infants who are started on foods other than milk, during the first four or five months are learning to eat a variety and establishing the habit of eating new foods. At first this is an educational matter and good food habits established early are apt to last throughout life. A variety of milk, vegetables, egg, fruits, custards and simple puddings form food habits which the rest of the family could follow with advantage.

Good food habits are essential for health and also for future happiness. Eating is a life long satisfaction and source of pleasure. But, eating loses its pleasant associations if force or urging enters into the picture. No one, young or old, wants to be urged to finish a serving. One's natural resistance is aroused. A small serving looks more appetizing and second or even third helpings hold more allure than one large serving.

If food is refused, or the serving is not all eaten, it should be quietly removed and given at another meal time. It is more important to maintain a happy meal time atmosphere than that the last few spoonfuls be eaten under protest. Urging, scolding or any other indication of forcing the last mouthful down an unwilling child is not only ineffective and defeats its purpose but robs the child and parents of one source of continual happiness, satisfying family mealtime.

that he would be home in three or four days and would be happy to see all of his friends and relatives.

Stress Insect Control Methods

"It's a mistake to expect miracles of an insect killer unless exact methods of application are used," was stated recently by Dr. Heber C. Donohoe, research director and entomologist of the Peterman laboratories, in a message to the nation's housewives.

For example, many new DDT-fortified products have disappointed users who fail to realize that DDT must be applied in a certain way for each variety of insect. Particularly resistant to many widely sold insecticides is the Cimex lectularius (bedbug).

Your Home

If yours is a coal-burning furnace, there has to be some place for the ashes to drop and to be contained. It is unfortunate, though, that this receptacle has to be called the ash pit, for it really has a far more important function, which, when overlooked, can cause you more heating trouble and expense than anything else.

As explained to me by the world's largest installers of home heating furnaces, the primary function of the pot underneath the grate is to serve as an air chamber, supplying the necessary quantity of pre-heated air to bring about good burning of the coal. If this air is choked off by ashes filling up the space, the combustion must necessarily be interfered with, causing a loss of heat and a waste of coal, and even leading to the fire being extinguished. Clinkers form, and there is trouble all around.

There is, therefore, every good reason for removing the ashes daily. It is a nuisance, to be sure, but if you allow the ashes to pile up, it simply means that you are making more ashes than necessary to form in the firepot, so that the easiest way out is to keep the ash pit clean. Furthermore, if the ashes pile up too high, you not only waste more than half of your coal, but you'll burn out the grate.

Operate a clean furnace and you'll be amazed at the saving in fuel—a fact that really means something in these days of coal shortage.

LIONEL HAMPTON CROWNED "KING"!

LIONEL HAMPTON and his ORCHESTRA, with vocalists Dinah Washington and Madeline Green, has been crowned "the No. 1 Box Office Champion" and "King" of 1945's bandleaders on the record of his stellar performance by the Independent Press Service. The poll nominated as runners-up (in Positions 2, 3, 4, 5 and 6): Count Basie, Woody Herman, Louis Jordan, Gene Krupa and Louis Prima. This definitely was a popularity poll. The bands selected were named because of their appeal at the box office.

EMANUEL MANSFIELD SINGS TO CROWD IN TOLEDO

Singing before a capacity audience in the beautiful Macomber High School Auditorium, Emanuel Mansfield glorified favorite Negro spirituals. The Toledo Hospital Nurses' Alumni Association sponsored the concert. Handling his fine tenor voice as a skilled violinist uses his bow across muted strings, Mr. Mansfield presented a diversified program of works from Handel, Schubert, Tiersot and James. "Smiling Through" in memory of the late John McCormick was reminiscent of that singer's brilliant tone. His encore Ethelbert Nevin's "Mighty Lak A Rose" was beautiful and "Crucifixion" showed the deep religious of the Negro. Following the concert, a reception was given him at the home of Mrs. A. M. Harner, his close white friends, in which Miss Adabelle Ashley, Negro student at Toledo University, and Miss Ford, correspondent for the Pittsburg Courier were invited. Following the reception, Mr. Mansfield boarded a plane for his home at 9005 Old Ford Road to spend the holidays with his family before going on a southern tour. Mr. Mansfield's appearance at Toledo concluded a tour which took him to Vancouver, B. C., San Francisco and Los Angeles.

How women and girls may get wanted relief from functional periodic pain

Cardui is a liquid medicine which many women say has brought relief from the cramp-like agony and nervous strain of functional periodic distress. Here's how it may help:

1-Taken like a tonic, it should stimulate appetite, aid digestion, thus help build resistance for the "limes" to come.

2-Started 3 days before "your time", it should help relieve pain due to purely functional periodic causes.

Try Cardui. If it helps, you'll be glad you did.

JANE LOOKS PERFECTLY HAPPY—And why shouldn't she? After four years' absence from pictures, Jane Russell has returned to the screen as a full-fledged star, opposite Louis Hayward, in the new United Artists release, "Young Widow." After having been starred in the so-far-unreleased picture, "The Outlaw," which she made for Howard Hughes, Jane retired from the cinema to study dramatics. And now she's back!

"Flying Home's" Broadway birthday brings memories of the past six years of unusual achievement by Hampton in the swing world including bookings into the nation's leading theatres, hotels and ballrooms.

In presentation up and down the west coast and across the country enroute to the Strand, Hampton has broken all box office figures ever recorded.

Hampton Works Hard Hampton and his organization have put the last six years at hard work in building an aggregation that has climbed to such box office heights. That Hampton Beat with Lionel leading on the vibraharp and drums has given the Hampton bandmen a reputation that traws them in spite of any obstacles of weather or climate.
