THE NEW 1946 READINGS ARE NOW READY

X. C.—I am deeply in love with a married woman. Does she mean everything that she tells me? I am always worried to death about her. Tell me what shall I do?

girls. You will eventually want a marriage and a home and you should choose your associates with this purpose in mind.

J. B. R.—I am a young lady age 24... I have been going with this man for years. He is much older than I. He is the father of my 2 kids. I realize now what a mistake I have made and want to quit him...

this man is temporary support of the children. If you are situated so that you can care for your two children and get along without his support, then you can become independent and take steps accordingly. It will be hard on you to be the sole support of your young ones and yourself but it can be done.

R. S. N.—I have been married for two and one half years. About this time every year my husband gets hot feet and leaves town to work. He comes back within 3 or 4 months broke. For 2 months he drove out of the state to work. He quit his job there and he went down there for a week end and I believe there was something so wrong with it. He told me he was going to Illinois to work but his uncle told me he was going to Mississippi. I am getting tired of this mess. Let me know what is best for me. We have no kids.

Ans: Having no dependents to consider, you should pack your things and go right along with him when he gets the roving fever. You have not put down any permanent roots anywhere—you are living with your mother now

and it would be much to your advantage to be with your husband more. You can't make a permanent future plans until he gets settled and if you go along with him he will settle down quicker.

C. B.—I am a young college woman, talented and easy to understand and learn. I do all I can to learn and make good in all my grades and everything else. But I have no success. What must I do? Please help me!

Ans: All work and no play usually makes Jill a dull girl—your studies of course first in importance, but you need to work out a schedule, whereby you can take an active part in outside activities, so that you can relax and get more fun out of life. Your record is good but you aren't disillusioned. Extra curricular activities are just important as the three R's.

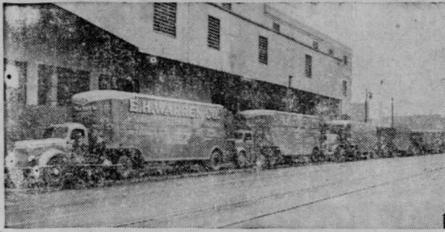

B. J. S.—A year ago I left my wife in Texas and came here. She is in a large city. Now I don't know what to do. I don't want to go there and she doesn't want to come here. Now what's a man to do?

Ans: One of you had better begin traveling. There can be no marriage when two people are determined to have their own way

as to where they are to live. One of you must give in. A change has to take place immediately or the matter will be hopeless.

Detroiters Go West—By 1946 Version Of Covered Wagon Train

"It's news when the household goods of 52 individual families leave Detroit in one huge shipment bound for Los Angeles," says E. H. Warren, veteran Detroit mover. Fruehauf trailers in the E. H. Warren fleet lent a 1946 version to the "covered wagon train" across the nation to establish new homes in sunny California.

This record load of furniture required 10 trailers with even the tailgates loaded to capacity. The units took only 8 days to make the 2,450 mile run.
