# THE CARVER SAVINGS & LOAN ASSOCIATION TO OPEN MAY 1st...

## Deserves Whole-Hearted Support

### EDITORIAL:

When The Carver Savings and Loan Association opens its doors May 1st, History will be in the making. This financial institution deserves the whole-hearted support of this entire community: its citizenry and the businesses operated in this section.

We are confident that when the fundamental principles of this organization and its worth to the community is properly unfolded that the people and business places will rally to the cause. Especially, since many of them have been denied financial assistance because of the location of their property and establishments.

Property on the Near North Side has potentially the same value per square foot as any other neighborhood location in the city. The progress bottleneck, is the constant draining of its financial resources. If a reasonable or normal amount of the money spent in the Near Northside Community was used or reinvested here, much of the financial credit disparity should soon disappear.

So, to the official family of the Carver Savings and Loan Association, we say: "Begin today to build that confidence and good-will which is needed to get the full cooperation of those you are destined to serve. For they will see that your cause is their cause. We say, you have made a good start and we believe that the whole Mid-City section will place their hands on your back to push you and your work forward to the success it so rightfully deserves.

Again we say: Congratulations, Salutations and Much Success to the Incorporators of the Carver Savings and Loan Association. 'Tis another step up the long, hard and rocky road, but we united can make it."
