Are you PALE? WEAK? from loss of BLOOD-IRON?
Here's One Of The Best Home Ways To Build Up Red Blood!

You girls who suffer from simple anemia or who lose so much during monthly periods that you are pale, feel tired, weak, "drained out"—this may be due to low blood-iron.

and child care services and an expansion of medical research and education. Above all it must bring adequate medical care and hospital care within reach of all the people.

Today, approximately 100,000,000 Americans cannot afford adequate medical care. National Health Insurance covering the population, financed primarily through contributions from employees is the answer. It will enable every one to receive comprehensive medical services. It will make all Americans free to go to doctors and hospitals of their own choice, free from worry over the costs, free from fear of the unpredictable. It will assure most doctors adequate and more stable incomes.

HOW WILL IT WORK?
Every worker will pay approximately one and one-half percent of his income (up to \$3600) into a "Health Service Account". Employers will contribute an equal amount. In return, the insured AND HIS FAMILY will be entitled to complete medical and hospital service.

HOW WILL IT HELP DOCTORS?
In addition to assuring them more adequate and more stable income, National Health Insurance will make it possible for them to practice in communities of their own choice, even in low income rural areas without loss of income.

HOW WILL IT HELP FARMERS?
More doctors and specialists will be given incentive to practice in rural areas. Most important, it will enable rural areas to construct and maintain adequate hospital and health facilities. A farmer's low cash income will no longer be a barrier to good medical service for himself and his family.

HOW WILL IT HELP VETS?
VETERANS AND THEIR FAMILIES will be assured access to complete medical service from the doctors and specialists of their own choosing. Special benefits now afforded a veteran through veteran's hospitals are limited to his own service-connected disabilities.

HOW WILL IT HELP BUSINESS?
About five hundred million man-days of work are lost annually due to illness and accidents. Full medical care under National Health Insurance will decrease absenteeism, labor turnover, and increase productivity. Business men and their families, moreover, will also be eligible for benefits.

WHAT WILL IT COST?
The cost of National Health Insurance will not be greater than our present insufficient and wasteful fee for service system according to a report of the Subcommittee on Health and Education of the Senate Committee on Education and Labor.

WHO WANTS IT?
The American Federation of Labor; Congress of Industrial Organizations; Brotherhood of Railway Trainmen; National Farmers Union; National Consumers League; National Lawyers Guild; Na-

The TESTIMONY OF THOUSANDS:
It's the HOTEL THERESA
When in NEW YORK any season of the year

...in the Heart of Harlem
300 spacious, all outside rooms; luxurious suites, the beautiful Oxidized Room for dining, cocktail lounge and bar; the lovely Mexican for relaxation. Ideal atmosphere for rest, study, and comfort.

WALTER W. SCOTT, Manager
HOTEL THERESA
7th Ave. at 125th St., New York City

National Conference of Catholic Charities; Physician's Forum; Methodist Federation for Social Service; American Veterans Committee; National Catholic Welfare Council; American Jewish Congress; Fraternal Order of Eagles; University Women Association of Omaha and many other organizations and prominent individuals who testified in favor of National Health Insurance at recent Senate Committee hearings.

THE AMERICAN PEOPLE WANT IT!
The results of numerous polls prove this:
National Opinion Research Center Poll 85 percent favorable
American Institute of Public Opinion 59 percent favorable
N. Y. Commission on Medical Care Poll 86 percent favorable
Fortune Poll 75.3 percent favorable
Washington Post Poll 70 percent favorable

UNIVERSITY OF DENVER POLL
68 percent favorable
Only 2.5 percent of the population are insured for comprehensive medical care under voluntary plans after more than 100 years of effort.

National Health Insurance does what no private or voluntary plan can do: it provides the only way to make the great scientific advances in medical knowledge serve every American through the doctor, pharmacist or physician of his own choice.

YWCA Notes

Five members of the Northside YWCA registered for the Volunteer Leadership Institute held at Central YWCA from October 1 thru October 4. Mesdames Haynes Dixon and Bailey and Misses Brewster and Burney represented the Branch.

This conference was built around the theme "From Faith to Action". The different discussions were centered around the part women play in the world of today.

The Trojan Club held its first open meeting Thursday, October 3 at which time they discussed plans for revitalizing the club.

The Quack club held their regular meeting Friday, October 4 to discuss business of importance to all and the new members.

Monday, October 6 Clair Chapel Church held a tea at the Branch building.

The Y-Teens held registration in the building, Tuesday, October 1 at 3:30. The Semper Fidelis and Gros Eick club met Thursday and Friday at 4:00 here at the building.

Utilities District will Bear Entire Cost of Converting Gas Appliances

Gas Change Must be Made Next Summer in Order to Meet City's Critical Gas Needs. . . Regardless of NATURAL GAS Election Result.

Omaha's need for additional gas supply is critical. The city must make a change in its gas next summer, regardless of the outcome of the Natural Gas election November 5.

If Natural Gas is approved by a majority of voters—the changeover will be made to straight Natural Gas.

If Natural Gas is not approved—then a changeover will be made to an 800 B.t.u. mixed gas, containing 75% Natural Gas, now authorized by state law. In either case—your gas appliances will have to be converted to use the new gas. There will be little difference as between converting your appliances to Natural Gas or mixed gas. The process is almost exactly the same.

The expense of converting your gas appliances will be paid for entirely by the Metropolitan Utilities District. Whether the change is to full Natural Gas or mixed gas . . . you will pay no charge whatsoever, either for materials or labor. NO BOND ISSUE OR PUBLIC DEBT WILL BE NECESSARY IN ORDER TO PAY FOR THE CHANGEOVER.

Please consider these points as you make up your mind about NATURAL GAS:

1. Omaha is now using a 50% mixture of Natural Gas, and this mixture must be increased to 75% if voters do not approve full Natural Gas November 5.
2. You are not voting as between Manufactured and Natural Gas. You are voting your choice between 75% Natural Gas and full Natural Gas. Because our present gas must be advanced to 75% Natural Gas mixture regardless of the election outcome in order to meet the acute need of the city for a greater gas supply.
3. In either case—a changeover will have to be made next summer. The cost will be paid for by the Utilities District.
4. Gas engineering authorities have advised the city that a 75% mixed gas would be only a temporary measure and that within a few years Omaha would have no choice but to go to full Natural Gas service. Putting off the decision to go to full Natural Gas would practically double the changeover expenses.
5. Approving full, 100% Natural Gas now will assure abundant gas for all purposes in the future, and will avoid further inconvenience, expense and difficulty as Omaha's gas demands increase through the years.

If You Want NATURAL GAS VOTE YES!
