End ALL Discrimination Against Negro Workers!

At the recent convention in Chicago of the A. F. of L. International Alliance of Theatrical Stage Employees and Motion Picture Operators, 22 Negro union members, representing "auxiliaries," were denied admission to the convention floor.

Members of this delegation, representing hundreds of Negro workers from all over the country, declared that they were being "taxed without representation." THROUGH "CLOSED MEMBERSHIPS" AND "CLOSED SHOP" CONTRACTS, NEGROES ARE DENIED EMPLOYMENT IN MANY TRADE UNIONS.

If Constitutional Amendment 302 is passed, the Negro worker will have new independence of decision and action! In trades where Negroes are now admitted to "auxiliary" membership but DENIED A VOICE IN UNION AFFAIRS, they will be able to resign from the union if they desire and still retain their jobs. This would place Negroes in an excellent bargaining position in order to win and hold their just rights. In trades which are now closed to Negroes because closed shop unions will not admit them to membership, Negroes will, under Amendment 302, be able to gain employment without having to beg for union membership!

302 TAKES AWAY NONE OF LABOR'S JUST RIGHTS

It merely provides that no worker can be FORCED to join a union against his will or be FIRED because he does join a union.

HOUSEWIVES ASK RETAILERS HELP IN BRINGING THE MEAT PRICES DOWN
Omaha housewives invite the cooperation of meat retailers in their buyer's strike. It is clear that if retailers would cooperate by refusing to stock meat at the present inflated wholesale prices the price situation could be cracked in short order.

Frankly, the retailer and consumer both stand to lose from inflated prices. High prices restrict consumer purchasing power and retailers quickly feel the pinch while consumers lose because the value of their dollar shrinks.

Housewives can and will bring prices down but retailers could rapidly accelerate the downward spiral by supporting their strike.

—Mrs. F. J. Gallagher, chairman Housewives League

HAIR STYLES AND HATS
So often we hear women disingenuously exclaim, "I just can't wear these hats! I have been trying for months to find a hat but I look horrid in these new shaped hats. I don't know what I am going to do!"

The answer is simple. Just arrange the hair to suit the hat. The face, the hat and the hair must combine to make a harmonizing whole. In most cases we find no fault with the face and the hats are beautiful. What we need is a simple re-arrangement of the hair style.

Perhaps you have a high forehead. The answer is bangs and bangs of all varieties are the order of the day. "Forward moving" waves or rolls of curls placed at the front hair line, are very welcome.

If you need any help, why not drop in and have a friendly chat with us? Our staff of efficient hair stylists are ever ready to suggest and assist you in the arrangement of the latest and most becoming hair styles.

From where I sit... by Joe Marsh

On Playing the Fiddle Badly

A favorite recreation in our town is getting together in one or another's home and making music. There's somebody at the piano; a guitar; a fiddle player; and Molly Birtles even has a harp!

What comes out isn't the best music in the whole world. In fact, a lot of it is downright bad. But nobody even thinks to question or to criticize.

Because the spirit of harmony is there—harmony between folks who like each other's company, who enjoy the simple, homey atmosphere

—with nothing more exciting than old songs, and a glass of moderate beer or cider.

From where I sit, it's a heap more important to be a poor fiddle player, than not to play at all. More important to be a part of the American scene—with its community music, home entertainment, friendly glass of beer—than to hold out for professional perfection. (Besides, I like to play the fiddle—even badly!)
