

By Melvin Douglas, Columbia Pictures' star, currently co'starring with Rosalind Russell in "The Guilt of Janet Ames"

If it were not for the present chaotic conditions surrounding the whole question of Negro equality, the race prejudice and lynchings which have disgraced the national social and political scenes it would be presumptuous for any white Americas to comment on

But those conditions do exist, and I have been asked what is the case for Negro equality. My answer to that is there is the same case for Negro equality as there is, let us say, for white equality or for religious equality.

In the first place, Negroes are people. As such, they are equal to all other people, neither below them nor above them in the human scale. In a world gravely in danger of being blown to bits by of new high in idiocy for one kind of human being to place himself in a superior position to any other. And no contrary law of natural selection, to my knowledge, or ever has existed.

Holding Co

cy exist, there simply can be no dividing line between one sort of the original charge. citizen and another.

If they taught me nothing else my years years in India with the American forces taught me that bitterness and violence must always accompany race prejudice. It was evident to any observer in that field that much more detested than the economic exploitation which the people of India resented was the arrogance and assumed superiority of those who had been sent to govern them.

mission is the most important piece of unenacted legislation in the country today and its early adoption should be urged by every one able to make himself heard. -APA-

SEMPER GETS N. H. A. APPOINTMENT

Appointment of Joseph Semper as reporting analyst for the region al office of the National Housing Agency was announced today by Charles J. Horan, regional administrator for the agency. Semper, former assistant chief

of training with Illinois State office of the United States Employ-ment Service, will have charge of reviewing housing reports for the planning and program section of the agency, and will serve as an U. N. words and more U. N. aclanning and program section of

for the past six years.

For two years Semper worked closely on studies of business pro blems in Chicago areas with hea vy concentrations on Negro problems, and cooperated with the authors of "Black Metropolis" in making their study of this city. TO RESIST CEILINGS

NEW YORK, Nov. 20th-Alar-Walter White, NAACP executive Secretary, today sent an appeal to President Truman urging him to resist pressure to increase rent ceilings. In a strong telegram to the President, Mr. White said:

"On behalf of all Americans, we urge you to stand firm against pressure to increase rent ceilings. Record shows lowest vacancy rate in history, almost no expenditures for repairs and redecorating, and profits of real estate operators above 1939. Contrasted with these profits are pinched budgets of American families forced to pay inflation prices. Any increase in rents now will will cut into food and health expenditures of American people and seriously en-danger standard of living of the country. Rent controls must continue at present levels."

In addition to this message, the NAACP wired its larger branches and those in strategic areas, urging that they and their members telegraph Paul Porter, Administrator of the Office of Price Administration in Washington, D. C., demanding that he, too stand firm against pressure to eliminate rent
