 LET'S LOOK AT IT  
 ANOTHER WAY --  
 MAYBE SOME PRICES  
 CAN BE  
 CUT  
 WITHOUT  
 CUTTING  
 WAGES

If anybody can afford to raise wages of his workers 25 per cent without raising the retail price of his product, I have a counter suggestion.  
 Everybody forgets about me—Mr. Doit Consumer.  
 How about giving poor little me some of that 25 per cent?  
 Every time some economic fortune teller or tea-leave-reader says that industry can raise wages without raising prices, some union leaders start grabbing.  
 If there are any loose 25 per cents lying around, how about remembering us consumers for a change?

**THE DAY IS COMING FOR CALVIN NEWS**  
 BY ERIC HASS  
 What is this country going to defend in Greece, democracy or capitalism?  
 President Truman says it's democracy. But, if by "democracy" is meant a government of, by and for the people, then there just isn't any democracy in Greece to defend. The Greek government is a government of frowsy monarchists and venal capitalist politicians, with a sprinkling of "liberals" to give it a "popular" flavor. It was established by British arms and a phony, fraudulent election—and with the blessing of the U. S. A. And even a blind man can see that it operates for a greedy capitalist class and its American and British imperialist partners.  
 There isn't any democracy in Greece to defend. But there is a broken-down system of capitalist exploitation. And that, me thinks, is why this country is about to make a \$250,000,000 loan to Greece. President Truman's announcement of the new policy was accepted by the Greek reactionaries as a signal to unleash a ferocious police terror. At this very moment, Greek thugs, in and out of "Security Police" uniforms are hunting down thousands of little people who are suspected of harboring the wicked thought that they are being robbed and held in subjugation by a vicious ruling class and a moth-eaten monarchy.  
 The so-called "Truman Doctrine" is far too large a subject, and its portents and implications are too numerous and too grave to be disposed of in a single column. Therefore, this writer will lay over to future columns such questions as the role of "Middle East" oil in the Greco-Turkish loan and what Mr. Henry Wallace's opposition to the "Truman Doctrine" means, etc. Here let it suffice to spell out the larger implications of this fateful turn in American foreign policy.  
 We must all of us understand that the "Truman Doctrine" isn't "just another foreign policy." It and yawn over, after which we

**Beer Retailers Approve Self-Regulation**  
 The beer retailers of Nebraska, generally, are sincere advocates of Self-Regulation in the beer industry.  
 The law-abiding beer dealers welcome suggestions from this office for improving conditions in their places. And they cooperate gladly and promptly. As good business men and respected citizens, they wish to conduct their places in a clean, wholesome and law-abiding manner.  
 When one fails to cooperate, this Committee promptly presents the facts to legal authorities. The number is small.  
 You can help keep beer retailing on a high plane by confining your patronage to reputable dealers. A word of commendation to those who run exceptionally clean and orderly places encourages them to do still better.
