JOLLY MATES CLUB

The Jolly Mates Club met at the home of Mr. and Mrs. Robert Robinson, 2624 N. 24 st., Saturday July 19, with most members present.

A final check was made up on the wist tournament which was held recently at the Masonic Hall. It turned out to be a complete success.

Plans were made for our Annual picnic to be the second Sunday in August.

We truly hope for our Annual Picnic to be the second Sunday in August.

We truly hope Mr. and Mrs. Curtright are able to be with us at our next meeting. Illness in their family has made it impossible for them to meet with us in several meetings now.

After the business meeting was adjourned Mrs. Robinson served a most delicious plate lunch, and the remains of the evening was spent in playing games and chattering.

Our next meeting will be at the residence of Mr. and Mrs. Arthur Rone, 30th and Wirt st. John Davis, president.

Eye Girl's Worth
To tempt potential husbands many maidens in the Orient, especially in Asia Minor, build up nice dowries by weaving rugs. With their earnings they buy perforated gold coins, which they wear as necklaces around their necks so that a young village buck, at a glance, can evaluate a girl's worth.

SCHOOL PARK NEED OF CO-OPERATION
Close co-operation between the Omaha School Board and the Parks and Recreation Commission is needed to give Omaha children the proper chance for recreation.

Parks and Recreation Supt. Ralph McClintock offered that opinion Saturday. He added that he feels sure the co-operation will be achieved.

Most schools are located near the center of neighborhood population. Mr. McClintock pointed out. Playgrounds should be similarly situated, he said.

The recreation director said the commission and the School Board might well co-operate in these ways.

1. Obtaining playgrounds near schools.
2. Joint use of the playgrounds as well as toilet and storage facilities in the schools.

"It would mean that the kids would have full use of the playgrounds for the nine months they are in school," he said.

Putting playgrounds as close as possible to schools would mean some change in the City-Wide Plan for park development, Mr. McClintock added.

Racial and international lines melt as Girl Guides and Girl Scouts from 20 foreign countries and every state of the union get to now each other at the 35th Anniversary.

JIM-CRO HOSPITAL UNDER NAACP FIRE

NEW YORK—The National Association for the Advancement of the Colored People restated its uncompromising opposition to any attempts to establish Jim-Crow veterans' hospitals today when Roy Wilkins, NAACP assistant secretary, notified Rep. Ed. itth Nurse Rogers (R-Mass.) of the Association's stand

In a message wired to the congresswoman, who is chairman of the House Veterans' Affairs Committee, Mr. Wilkins stated, "The National Association for the Advancement of colored People has noted in the press that the House Veterans' Affairs Committee has approved a bill to establish a hospital for Negro veterans in Franklin County, Virginia. We wish to reaffirm our opposition to the policy of hospitals as are on a non-segregated basis. The hospitals on the fighting fronts during wartime were non-segregated. If all men who fought and were wounded for their country during wartime could be treated without segregation surely our Government should not adopt a policy of separating them on the basis of color in veterans hospitals during peace time. We believe that such a policy nullifies the goal which the allied countries fought to achieve namely the destruction of the armies dedicated to the master race theory. We urge your Committee to reconsider its action and to disapprove any policy calling for the segregation of veterans on the basis of race and color."

Dr. Butler also opposes like action contemplated first for Alaska and then for Puerto Rico, and says:

"We should soon be pressed to admit the Philippine Islands, Cuba and possibly even Australia."

Dr. Butler suggests that Alaska, Hawaii, and Puerto Rico be established "as independent nations by diplomatic action."

Lime Essential
Lime is essential on acid soils for proper growth of many crop and pasture plants. To promote this desired growth, sufficient lime should be applied to change the acid condition to a near neutral point. Under most conditions in the upland area the addition of lime to the soil also provides calcium for plant growth. Commercial fertilizer, incorporated with the soil management practices previously mentioned, is essential for continued high crop production. Every crop harvested for grain, forage or other use removes plant food from the soil. Soils under continuous cropping systems, coupled with erosion, lose their plant nutrients faster than they can be replaced by nature.
