U. S. INCOME GAIN

The personal income of Americans measured in dollars, hit a new high in June. It amounted to a rate which would total 193 billion dollars if extended over a full year, the Commerce Department announced Thursday.

The total was \$1,200,000,000 more than the previous record reached in March and \$1,500,000,000 above the May figure.

The upswing mainly was due, the department said, to greater payments of wages and salaries and bigger net income for farmers. A slight decline in the income of business proprietors and partnerships was noted from May to June. But an increase in agricultural income exceeded the usual seasonal upturn.

COUNCIL DELAYS ON DANCE HALL

Inspection, Police Word on Site, Asked.

Three young men who want to open a dance hall at 201-11 North Twenty-fourth st. Tuesday gained a temporary reprieve from the City Council.

Council members decided to table Commissioner Arthur Weaver's motion that the application for a dance hall permit be denied. They agreed to inspect the location and seek a recommendation from the Police Department.

The applicants are Calvin and Earl Frazier, 2353 Miami st., and Joseph St. Clair, 2046 North Twenty-second st. They said they have the support of civic groups and "even churches."

Mayor Leeman, said he had heard that the spot is a "spiked-drink place." The applicants replied that spiking ended when another group gave up the location.

"If you boys are telling the truth," Mayor Leeman commented, "there are a lot of false statements going around about you in your neighborhood."

The applicants said they have a one-year lease, with rent at six hundred dollars per month. They will lose money if they do not get a permit, they argued.
