Have You Seen Our Annual Report?

Nine years of beer industry self-regulation are reviewed in an annual report just issued by the Nebraska Committee.

It is a report which reflects substantial progress in raising the standards of beer retailing in this state, and you will find it interesting reading. A card, or letter will bring you a copy by return mail.

Brewing industry self-regulation is a program which supports and supplements public authority—both state and local—in the enforcement of a good Nebraska liquor control act as it affects the sale of beer. The report describes some of the ways this is accomplished.

McDONALD REPORTING

An exquisite wedding highlighted Omaha social event on Friday Aug. 29. Her only ornament was a string of cultured pearls.

SINGER CAUSING AN HEAT WAVE OF HIS OWN

LOS ANGELES.—Hotter than the August heaveave these days is smiling, personable Joe Alexander, whose Capitol record of "Cling To Me Baby" has zoomed into the nation's best-seller listings within the past two weeks.

Alexander, a former member of Floyd Ray's band, was signed yesterday to open at San Diego's famous Cin-A-Bar immediately following his one-week appearance at the Los Angeles Lincoln Theater Sept. 4-10. He will be co-featured at the Lincoln with Nellie (Real Gone) Luther and Joe Luther's sizzling combo.

It was Joe who recorded the first "modern" version of "Heartaches" last December. It was a smash success. A former Louisianan, Alexander has lived in California since 1940. Later this fall he will hit the road for personal appearances. "Cling To Me Baby" apparently is proving to be another "Jelly, Jelly." It was composed by Dave Cavanaugh, who conducts the orchestra and vocal group featured on Joe Alexander's Capitol etchings. Capitol executives this week declared the disc might hit the half-million mark by late September, at the rate it's nabbing juke nickels and moving in record shops from coast to coast.

How women and girls may get wanted relief from functional periodic pain

Cardui is a liquid medicine which many women say has brought relief from the cramp-like agony and nervous strain of functional periodic distress. Here's how it may help:

1. Taken like a tonic, it should stimulate appetite, aid digestion, thus help build resistance for the "time" to come.
2. Started 3 days before "your time", it should help relieve pain due to purely functional periodic causes.

Try Cardui. If it helps, you'll be glad you did.
