**YOUR FAMILY'S FOOD**  
By MRS. EVELYN HALM  
Director of Nutrition, Douglas County Chapter, American Red Cross

Whether for the young or old, rich or poor, meals with milk should be planned so that all family members get their share of this important food. Time was when many folks considered milk only a baby food, but today we look upon milk as everybody's food, not only for babies but also for growing boys and girls, teen agers, adults and oldsters. Whether we're 6 or 60 milk plays a vital role in nourishing us. Nature has been stingy with calcium. Only a few foods contain this mineral in important amounts, and milk is our richest source. It is also the most practical and inexpensive food for calcium.
