### Senator Robert Taft Calls for True Liberals

In an address before the Douglas County Republican Women's Club at the Fontenelle Hotel on Friday, 13, 1948 Senator Robert Taft of Ohio spoke on the subject "What is a Liberal". According to Senator Taft every reactionary group has taken the title of Liberal in order to meet its own gains. His definition of a liberal is one that is in favor of freedom of thought, favors freedom of others ideas, etc. Any program that tends to destroy freedom of thought is false and reactionary in nature. Organizations of all types pretend to be liberal, special interest groups have also, but none of these organizations or special interest groups have contributed one liberal thought toward the welfare of all the people of our nation. They have gone so far as to use totalitarian control and use of Facist tactics to reach their objective for control over the country. Registration must be done away with whether it be U. M. T. Excess bureaus, unnecessary controls, etc. Universal military training is not necessary in time of peace it is just another control over the people of the country in disguise by special interest groups.

Internal vigilants is the price of true liberalism.

### Mrs. Evelyn Halm NUTRITION RATING

Whether served on Shrove Tuesday or at other times it is well to ask ourselves if pancakes are a good food from the nutrition standpoint. One hears pros and cons on the subject, but we know that there are both good and bad pancakes nutritionally speaking. That depends on the ingredients used in their making. Eggs and milk can not be skimmed. Most pancake receipts call for too few eggs. An egg per person in the batter is a good rule to follow. Thus each family member may bet his breakfast egg via the pancake.

### UNBALANCED MEALS

No matter how nutritious with milk and eggs, pancake breakfast and suppers are often very one-sided with sausage, butter and syrup—all high calorie foods served with them. Because of their fat content, sausage and bacon are not good accompaniments. They may slow up the digestion of pancakes and waffles, which so often are referred to as indigestible. It's difficult to keep pat cake and waffle meals from being unbalanced. They should be served only occasionally.

The wouldbe robber ran out of the store. Reported to Phelan and Hagen.
