## YOU Select Beer Licensees

It is NOT the beer industry, nor the Nebraska Committee, United States Brewers Foundation, that issues the licenses permitting beer sales in your town.

It is YOU, and the other citizens of your town who do that, with and through local and state governing bodies.

YOU are responsible in determining whether the operation of taverns in your town is to be good this coming year.

With license-granting time here, it is your civic duty to act at once in seeing that licenses are given only to worthy citizens.

Remember—the law provides that the governing body which issues licenses in your town must be guided by the facts presented to them.

Don't hold back and then complain afterward. Act NOW! Appear at the public hearings to be held, or file a written protest or criticism if you feel one is warranted. Help us weed out undesirables!

evision stations through inaccessible communities may have regular worship services.

"The first messengers of Christ's resurrection were the members of the laity," Dr. Maier recalled, stating: "If the 20th century church with all its wealth and advantages is to perpetuate the victory of the 1st century church, it must have the unselfish service of laymen, trained to make at a low percentage efficiency; but supported by an intelligent active and aggressive laity, the cause of Christ can successfully overcome the startling advantages of atheism.

**EYE 'SPOTS'**

Marilyn Mundt holds "polka dot" patterns used in experiments to determine how the human eye detects graininess in photographic enlargements. With the charts, which are conventional patterns of the graininess seen in photographic negatives, scientists are trying to learn characteristics of various patterns and what determines "just perceptible" graininess, according to National Patent Council.

Thirty women, aware of the urgent need for salvaged fats, have found a means to make their resourcefulness pay dividends. Selling their used fats to meat dealers augments their household allowances.

**"MR. DISTRICT ATTORNEY" Says—**

Watch out for the man who thinks he can break the law just once—because of some desperate need—and then become a law-abiding citizen again. No man is ever content with one crime!

If you're faced with a tough problem, don't try to solve it by going around the trouble. Tackle the job directly in the best way you can and nine times out of ten the right solution will come.

Startling as it may seem, almost 90% of all stolen automobiles have their ignition keys in them at the time of theft. We make it easy for criminals by leaving keys in cars. Remove keys and lock doors every time you park—and you'll help reduce crime.

Today it is vital for most of us to budget our cash expenses in some way. But just as important—if we seek happiness and true achievement in life—is that we budget our time.

**HERE'S WHY MORE PEOPLE WANT STASSEN!**

CHECK THIS LIST — PROVE TO YOURSELF STASSEN STANDS FOR THE SAME THINGS YOU DO

- STASSEN is for cutting the cost of government — and knows how to do it. In Minnesota he slashed debt 30%, cut expenses 12%. He reduced taxes on farm and home property 45% — yet had more money for schools, welfare and future reserves.
- STASSEN is for a sound, prosperous farm economy. He is the only candidate with a mid-west farm background. He was born and raised on a Minnesota farm—was three times governor of that farming state. He knows our farm problems, and he appreciates the importance of the farmer to the nation.
- STASSEN is for a strong army and navy ready to meet any emergency. He has had important military experience, having served two years in the Pacific as aide to Admiral Halsey.
- STASSEN is for a business-like foreign policy that will keep America strong. He is the ONLY candidate who has dealt first-hand with Stalin. He knows what we face in the world. He is for a firm hand with Russia and says we should STOP shipping them war goods NOW!
- STASSEN is for peace between labor and industry — and knows how to get it. In Minnesota he reduced the number of men on strike 70% while, during the same period, strikes in the nation doubled!
- STASSEN is for the average, hard-working American citizen. Time magazine says of him: "Few men in public life have exhibited more sympathy for the ordinary man, more understanding of the hopes and fears of the ordinary citizen."

**STASSEN CAN WIN!**  
National polls show more people want Stassen. Gallup Poll, Roper Poll and Fortune Magazine stand highest of all candidates with independent voters. Nominate a man who can be elected, and return Good Government to the United States.
