## RAILROAD NEEDS OF PARAMOUNT IMPORTANCE SAYS HEAD

Boston, April (NIPS)—A sober warning that the needs of the railroads must establish precedence over any other industry in the allocation system of scarce materials for civilian use, was voiced by William T. Faricy, AAR head, in recent remarks to a local shippers advisory board here.

"The threat of war," Mr. Faricy stated, "hangs like a cloud over the entire civilized world, and the tough talk on both sides of the Atlantic could scarcely be tougher of we were actually at war. With the exception of the armed forces themselves, no part of the process of putting ourselves in readiness is more important than getting the railroads in shape."

It was pointed out by the rail head that in World War II the railroads carried 90 per cent of America's war freight and 97 per cent of its military traffic. He also stressed the need for building up the supply of freight cars by citing the fact that since more cars were junked than were built in the last two years, there are now 40,000 fewer freight cars in service than there were at the end of the last war.

## LOCAL BELL COMPANY ACCEPTS NEGRO WOMEN

Philadelphia, April (NIPS)—Another battle against the bias was won by the Armstrong Association here in obtaining the employment of two women as tellers in a local Bell telephone office here. The association had been recently successful in getting jobs for two Negro typists in the accounting department of the company.

It has been noted that while in both New York and New Jersey, the integration of colored workers not only in the clerical departments but as telephone operators has been existent for the past two years, this is the first step taken by a Pennsylvania unit of the system.

Many observers agree that the competence of the colored woman who has been selected to 'break the ice' has been one of the most important factors in obtaining further inroads, and the company heads have accepted the qualifications of Negroes to satisfactorily perform in any capacity.

## INDUSTRY MAY STIMULATE INTEGRATION

Nashville, April (NIPS)—An announcement by a Fisk University spokesman of a gift by the Carnegie Corporation of funds to finance a microfilm series on the Negro in America reflects previously indicated observations of the interest that American industry is taking in the sponsorship of projects in behalf of Negro progress.

Many major corporations are falling into line with the precedents established by the Carnegie and Rosenwald foundations, the Pepsi-Cola company, and other major industrial units, in the fostering of educational and cultural projects which, many observers say, may be the forerunners of better relationship between management and the Negro public.

## KANSAS CITY SHOWS BUSINESS CONSCIOUSNESS

Kansas City, Kansas, April (NIPS)—The increasing business consciousness of the Negroes of Kansas City is reflected in the first exposition of Negro business which was held here recently. Sponsored by a local organization, the occasion was planned, it was revealed, to mark the progress of the Negro enterprise in this area, and to create a public awareness of this effort.

It was noted that some twenty-nine business concerns were represented in the exposition, and the attendance at the affair was revealed to be encouraging to the sponsors, and to be reflective of a dynamic interest on the part of the city's residents in the business and industrial life in the area.

## NEW MEMBERS

The metropolitan YMCA Board of Directors Monday approved nominations for new members of North and South Omaha branch committees of management at a luncheon at the central YMCA.

Ray Stanley will be chairman of the South Omaha branch committee, and William F. Schollman will head the North Omaha committee.

New members elected to the South Omaha committee are Rev. M. C. Williams, Robert Hincliff, John Kresl, Jr., Dr. George Clark, William Klusmire, Wilbur Shainholtz, C. B. Heninger, Victor Meyers and William Levi. Hold over committee members include John Nixon, Chauncey Premer, Herbert Wells, David Blacker, Rev. George Bancroft, Lewis Leigh, Clayton H. Shrout, John White, William Berquist and Howard Johnson.

L. P.—I'm 23 years of age and have been going with a man for five years whom I love with all my heart. He loves me. He survived World War II. I waited for him. We have been engaged 4 years. He has given me the rings, he comes to see me nearly every night. My problem is—is it wrong for me to want to go ahead and marry and then find some place to stay?

Ans: Not at all—plan your wedding for an early date. In the meantime, look around for any kind of liveable place as you will not have to make it a permanent home. Just as soon as you find an apartment, you can make a change. But, if you are going to put off marriage until you can move into a little dream flat—it may be some time yet before you wed. Your friend is ready for marriage now—and so are you.

N. A. C.—Please answer this problem for me in the column. Will I get the money to get a car by my birthday in June?

ANS: No—not by the method you are practicing at this time. The odds are against you in the gambling game and you have already lost enough to begin realizing this fact. If you want a car—begin saving the money you gamble with every month and in a course of time, you will be able to buy one. I would like to have you send for Happier Living Lessons No. 5 How To Gain and Hold Money. The price is \$ .25.

L. M. C.—I am in love with the father of my three children. We broke up but now he writes that he loves me so much that he has offered me marriage.

THE MUSIC GOES ROUND AND ROUND!  
That old song reminds me of the tune "sung" by every European communist who visits America. Immediately after disembarking at an east coast port, our new "Red saviours" begin their chant.

It's an interesting chant. It never changes, and it rarely ever subsides.

These European angels who come to save us from the evils of capitalism and democracy have adopted a peculiar technique. First, they say we are corrupt and unworthy of help. Then they present a program based on communism, naturally—which they feel will make Americans acceptable to the rest of the world.

The statements made by Irene Joliot-Curie, famed French physicist, during an interview with an American newswoman offer a classic example of the tirades communists hurl against the United States.

"You Americans," she said, April 30 to May 1. He will appear on the seminar "Folk Culture and Contemporary Society."

**CAN BLACK-DRAUGHT Help Physical Fatigue?**  
Yes, Black-Draught may help physical fatigue if the only reason you have that listless feeling is because of constipation. Black-Draught, the friendly laxative, is usually prompt and thorough when taken as directed. It costs only a penny or less a dose. That's why it has been a best-seller with four generations.
