WOT'S NEW IN RECORDS

If I Had My Life to Live Over follows pretty much the "cowboy's lament" type of song, with Wally Fowler handling the lyrics and aided both vocally and instrumentally by the Georgia Chodoppers. Wally vows that if he had his life to live over he'd spend it with his mon and dad.

T for Texas again finds Merle Travis in fine fettle as he sings "T for Texas, T for Tennessee and T for Thelma, who made a wreck out of me." Merle also does a spot of yodeling on this side, all of which merges as a Top Travis effort.

Floatin' is a medium tempo'd riff instrumental, with Bobby Sherwood and his Orchestra achieving a rich, "full" effect throughout. There are two not able solos on this side featuring Bobby and his trumpet and the tenor saxophone of Herbie Haymer.

Nature of Wool
What is wool? It is the hair of the sheep, an animal fiber, a protein substance. It ranks topmost in its field and its varied utilization in the wearing apparel industry is so great as to assure its pre-eminence in the manufacture of both smart and utility clothing, especially where protection from cold is essential. There are substitutes for wool, one of the most successful being Lanital, an artificial fiber made in Italy in 1938. Another, produced in the United States in 1940, is called Aralac. Both substitutes are made from casein, a product of skimmed milk.

MISS MARCIA DAVIS RETURNS HOME FROM CALIF. VACATION

Miss Marcia Ann Davis, the daughter of Mr. and Mrs. Clarence Davis, 3212 Seward St. returned home this week from Los Angeles, California, where she has been visiting for the past two months at the home of her uncle and aunt, Mr. and Mrs. Theodore Davis. She was accompanied home by her aunt who will visit here for a few weeks.

Evening Rite Joins Couple

The lovely modernistic livingroom in the home of Mr. and Mrs. Irving Hayes of 2207 Burdette Street was the scene of the wedding Saturday evening, August 28th, 1948 of Mrs. Florence Parker Barnes and Mr. Fredrich Knight. The living room and the dining room beautiful fresh flowers.

Only close friends attended the 8:30 ceremony performed by Reverend Z. W. Williams, pastor of the Morning Star Baptist Church.

The bride wore a wo piece tailored six buttoned light bridge gabardine suit. The jacket was fashioned on large lines with painted revers and large artificial square pockets with buttoned flaps. Her skirt consisted of four gares with slits on either side.

A soft pastel pink blouse, with matching pink gloves, a small light grey suit hat with pink and blue plums, black doeksin bag and shoes completed her costume.

She wore a corsage of pink and white carnations.

Mrs. Sima Wesley was the brides only attendant. Her two piece slate grey, three buttoned suit featured a long jacket with a new detail in the shoulder styling. The skirt was fine gared with slits in either side. A pastel blue blouse with a matching blue glove, a crownless brown taffeta hat trimmed with blue and brown ribbons, brown kidd bag and gloves were her accessories.

She wore a corsage of blue and white carnations.

Best man for the groom was Mr. Bernie Felton.

A small reception was held at the home of Mrs. Mary Mc Marris 2817 North 24th St.

The wedding cake centered the table with double candle sticks on either side. A vase of fresh flowers graced each end of the table.

Assisting at the reception were Mrs. Mary Mc Harris, Mrs. Jeannette Tryan and Mrs. Mamie McKenney.

Many beautiful and useful gifts were received.

The couple will be at the home to their friends temporarily at 2728 Burdette Street.

Heart of Asparagus

Asparagus is grown in nearly all sections of the United States, but large industrial production is limited to a few localities. In 1945, in the nation, 126,258 acres were used for commercial growing of asparagus. About half of this acreage was located in California. Principal areas of production in that state are Sacramento, San Joaquin, San Fernando and Imperial valleys.

Shoes of Tomorrow

Air conditioned shoes are now available for industrial footwear for workers who had athlete's feet or blisters. The shoe is made of fine plastic meshlike material. Every step pumps air into the shoes. An Austrian shoemaker has announced electrically warmed shoes. A small battery fits into a cavity in the heel and keeps the shoe constantly warm. Eighty-five per cent of all the 20 million cattle hides consumed annually in the United States are used in the manufacture of shoes.

Oriental Rug Colors

The colors and forms of nature have been the inspiration of weavers of Oriental rugs through the ages. Because of this the basic colors and fundamental designs of Oriental rugs have a fresh feeling which, as one decorator points out, imparts a touch of warmth and hominess to modern interiors.

School bells are again calling the youth of America back to their classrooms. We are reminded of the magnificent job our American educators are doing in helping to mold the characters and lives of our boys and girls. They are making a priceless contribution in the building of a better state and nation.

In another field, too, education helps make Nebraska a better state. Progressive beer retailers are today more anxious than ever to operate their taverns in such a way that the public interest will be protected. They are aided in this by the day to day educational program and inspection service of the Nebraska Division, U. S. Brewers Foundation. This organization, through a complete program of Self-Regulation, also cooperates with public authorities to eliminate bad operations.

This educational program is one which has so proven its worth during 10 years of operation in Nebraska that it has been adopted in a score of other states.
