**FALLOUT CLOUD** could look much like this artist's conception following an attack on a target city, such as the 76 target areas which will be assumed hit during Operation Alert, 1956 (July 20-26). Radioactive dust in the bomb's mushroom cloud could be blown 200 miles or more downwind from the blast area, covering the countryside with radioactive material which

for days could bring injury or possibly death to anyone not under cover. In rural areas, a basement, root cellar or "cyclone shelter" would be the best shield from radiation. Such a shelter should have food and water for at least seven days, and a battery-operated standard radio to receive emergency instructions from civil defense broadcasts. (FCDA Photo)

**ARMY AIR MECHANIC**—Private First Class Lyles G. Horner Jr. of Centerville, Tenn., repairs the "bubble" on a helicopter at the Army's only aircraft maintenance shop in Korea. The airstrip is a busy place as light aircraft and "copters" drop down for minor repairs or complete "break-down" jobs by soldier-mechanics.

**FLOOD FIGHT**—Kent Austin teams up with Sergeant Charles R. Clark of Springfield, Mass., during sandbagging operations in Bonners Ferry, Ida., in a successful two-week fight to prevent the Kootenai River from cresting the last fatal inch over the levees. Nearby Fort Lewis, Wash., supplied equipment and 900 soldiers.

**AMERICAN TARZAN**—Although normally in a Quartermaster Petroleum Supply Company at Fort Lee, Va., Private First Class Harry A. Davis of Seaman, Ohio, becomes an agile and alert sharpshooter by taking to the trees when his unit was assigned the Aggressor mission during recent Army training tests.

## Scoop A Summer Snowball!

A snowball in Summer is rare—so make one of ice cream, fluffy with tender, flaked coconut, and it's a rare treat! Serve these deliciously edible snowballs with your favorite sauce. For a particularly refreshing change, try this one of fresh apricots. The fruit is changeable, too... you can substitute peaches or pears if you like. Beauty hint: For attractive serving, spoon the sauce into dishes first... then place the coconut snowballs in the sauce. Pass more sauce... and more coconut flakes... folks love to help themselves!

### Coconut Snowballs with Fresh Apricot Sauce

1 quart vanilla ice cream 1 can tender-thin flaked coconut  
Scoop ice cream into 8 balls. Roll balls in coconut flakes. Place in freezing tray of refrigerator for about 1 hour. Put about a table-spoonful of apricot sauce in individual dishes. Place a Coconut Snowball on each serving. Garnish with tender-thin flaked coconut.

### Fresh Apricot Sauce

1 cup sugar 2 cups cold water  
1 1/2 tablespoons cornstarch 2 cups fresh apricots, peeled and quartered  
Dash of salt  
Combine sugar, cornstarch, and salt in saucepan. Add cold water and blend. Add apricots. Place over medium heat and bring to a boil, stirring constantly. Then cook 3 to 5 minutes, or until clear. Cool slightly. Serve on Coconut Snowballs.

**FREEDOM—AND COURAGE!**  
LUCKILY LYDIA DERRAH WAS RECOGNIZED AND HER WARNING REACHED WASHINGTON ON TIME. THE BRAVERY AND SELF-SACRIFICE OF ORDINARY AMERICANS IS A GLOWING SYMBOL OF THE LOVE OF COUNTRY THAT DEMOCRACY CREATES.

## Cooks Sandwich Some Free Time With Sandwich Cold Cut Supper

How to sandwich in some free time for herself for outdoor fun is a problem for every cook. Let cold cut sandwich assemblies solve the problem. You furnish the makings. They make sandwiches to suit themselves. A great variety of cold cuts, are made in this country. Beside cold cut classics like bologna, salami, and liver sausage, there are lots of others at your market. Try some new ones. Those pictured are, left to right: chicken patie, cooked tongue, meat loaf, liver sausage. In center is petite loaf and directly above it, chicken loaf. Each region produces its own specialties in cold cuts as well as those nationally known and distributed. A most comforting cold cut fact is that these convenient meats are good for your family. Just like the meats you cook yourself, they furnish complete high quality protein, B vitamins and essential minerals. Cold cuts can help to keep your family's nutrition quota high during the wilting summer months, when complete high quality protein is just as important to the diet as in winter. There are many interesting ways to serve cold cuts, besides the proverbial, and always welcome, platter. Serve a sandwich assembly, with different kinds of bread and a variety of cold cuts and relishes, to save yourself work, and to give the family a novel meal in summer. They'll like helping themselves, middling their sandwiches with just the meats and fixings they prefer.
