Beemer Gets the Penitentiary Contract. The board of public lands and buildings met yesterday, says the Lincoln Journal, and decided to award the penitentiary contract to Warden Beemer. Buckstaff Bros. of this city presented seven different propositions in their bid and Mr. Beemer presented one, which the board accepted as the best. In brief, Mr. Beemer agrees to care for convicts at 40 cents per capita, the state to furnish him all penitentiary property and keep the same in repair, he in return to account for all money received and paid out, and to refund to the state all moneys coming into his hands, less \$3,000. He is to pay his own bookkeeper out of the \$3,000.

This proposition is construed by some to mean that the board will be in control of the penitentiary contract and conduct it for the benefit of the state, Mr. Beemer retaining as his share a fair salary. Those who have investigated the proposition find no fault with it. If the contract is worth what the appraisers say it is under Mr. Beemer's bid, the state will get the benefit of all profits. Mr. Beemer is considered one of the best managers who ever occupied the position of warden, and it is generally believed that under his bid the state has a good show of getting every cent that can possibly be made off convict labor.

A Reunion Note. Hastings Dispatch: The crowd at Camp Sherman was larger than ever today. Very few people have estimated it at less than 50,000. The whole camp was a mass of moving humanity. Camp Logan also had a large crowd this afternoon. There is only about sixty rods of vacant space between the camps and that space was literally packed with people.

The Women's Relief corps had a very interesting camp fire last night. Mrs. Mary R. Morgan presided. The welcome address was made by Mrs. Mary J. Dodd and responded to by Mrs. C. E. Adams of Superior. Other addressers were made by Mesdames Mollie C. Hards, Rapier, Anna Potter and Mrs. Mary E. Morgan. Miss Mande Dilworth gave a recitation and Judge and Mrs. Beall favored the audience with some excellent music.

Attempted Suicide of a Nebraskan. Buffalo N. Y. dispatch: R. T. Allen of Omaha, Neb., shot and badly wounded himself on a New York Central train a few miles from Buffalo. Allen was traveling with his wife. They had been to New Jersey and were returning to Nebraska. Leaving his wife for a moment Allen went to the toilet room at the rear of the car, and a moment later the passengers were startled by a pistol shot. Several men rushed to the spot and found Allen lying in a pool of blood, which oozed from a bullet wound in his left side. He was cared for as well as could be on the cars, and when the train reached Buffalo was taken to the Emergency hospital. The doctors found that the bullet had just touched the apex of the heart. The aim was well directed, and had not the bullet struck some hard substance in his clothing and glanced off he would have been killed. It is thought he will recover. Later—While in the hospital Allen succeeded in getting hold of a bottle of carbolic acid, swallowing a large dose, with fatal effects. His last words were: "This time I've closed the game for keeps."

The Beet Sugar Crop. Correspondence Omaha Bee: The Oxnard Beet Sugar company of Grand Island will this year, beyond any question of doubt, make the largest run in the history of the beet sugar industry in America.

W. H. Baird has been at work analyzing beets. He stated that the beets for their present condition as to maturity are showing up splendidly, most of them averaging from 10 to 14 per cent. The late rains, while not injuring the crop, have retarded its development. And in view of this fact the company has decided to give an additional price per ton to those contractors who will make later deliveries. For November deliveries the company will pay 25 cents extra per ton; for December beets 30 cents; for January beets 35 cents; for February beets 40 cents per ton.

When asked what, in his opinion, would the crop for this factory be, Ferrar stated that they figured on no less than 35,000 tons. This, he said, was the lowest possible estimate. The factory had about 4,000 acres contracted at the beginning of the season. Supposing 500 acres in the different counties had failed, there still would be 3,500 acres in good condition, and these will certainly average more than 20 tons to the acre. A few farmers who have taken good care of their beets expect to harvest twenty-five tons to the acre. The Grand Island factory expects to begin the manufacture of sugar September 1 and run five or six months. Two hundred men per day will be employed, half of them on the day shift and the other on the night.

That Sham Battle. In regard to the statement that Governor Holcomb issued an order prohibiting guards from taking part in a proposed sham battle with the Grand Army men, Adjutant General Barry said the governor was not consulted. He and Major Fehet alone were responsible. He stated that the G. A. R. reunion committee advertised a sham battle without any authority. The committee first went so far as to get out a program for the national guards, but the chairman of that committee kindly withdrew the programs from circulation when so requested by the militia authorities. The adjutant general states that a sham battle was opposed from the start by Major Fehet and himself for various reasons, one being the liability to accident as proven by past experience.

A BIG FIRE IN BOSTON.

THE GREAT MASONIC TEMPLE BUILDING IN ASHES.

LOSS IS OVER \$1,250,000.

All But the First Floor Destroyed in Less Than Two Hours—The Structure the Scene of the Recent Conclave of Knights Templars—Was Most Magnificently Furnished.

BOSTON, Sept. 9.—A passer by discovered fire at 10:05 o'clock this morning in the Masonic temple, one of the finest Masonic buildings in the United States, the place where the Knights Templar triennial convales was held last week, and a few moments later an alarm was given from box 53, noted as being located in one of the most dangerous fire districts in the city.

At almost the same time an alarm was sent in from box 72 in the Parker house, and all the fire apparatus down town hurried to that place. The hotel blaze proved to be trivial, but the confusion resulting from the almost simultaneous alarms gave the fire in the Temple a good start before the apparatus arrived.

District Chief Hagan, who was on top of the tower of the Tremont street side of the building, found the flames curling up around him and was forced to jump to the roof, almost twenty feet below. He escaped uninjured.

About the same time a tube on chemical engine No. 2 exploded and Lieutenant Madden, who was working on the engine, was thrown to the ground and probably fatally injured. He struck on his head and it was believed his skull was fractured.

In less than an hour the roof of the magnificent building had fallen, carrying down what the fire had left of the three upper stories, and making hopeless the task of saving anything but the lower floor.

The temple was one of the most magnificently furnished Masonic buildings in the country and the loss will be over \$500,000. The building cost about \$750,000. Valuable papers in the safes on the second floor were saved.

NEW CONSUMPTION CURE. Consul Chanceller Reports the Claims of an Italian Expert.

WASHINGTON, Sept. 9.—A new cure for consumption has been reported to the state department by United States Consul Chanceller at Havre. He says it was first brought to the attention of the world at a congress of physicians and scientists at Bordeaux to consider the question of combating consumption by vaccination. Prof. Marigliano, an Italian, read a paper, which attracted much attention, claiming to have discovered an efficacious process for the treatment of consumption by the injection of tubercular serum, which, he says, renders the disease immune.

The consul recalls the comparative failures of other attempts to treat consumption successfully and says this particular process is still in the experimental stage. The paper is open to several objections, for Professor Marigliano gives no precise information as to his process for obtaining the serum, which can be had only from himself, and his statistics are incomplete and lacking confirmation.

FALSE REFORMERS. Ex-Officials of Butte, Mont., Elected on High Principles, Accused of Forgery.

BUTTE, Mont., Sept. 9.—Warrants have been issued for the arrest of several ex-officials of this city, among them ex-City Clerk Perrin Irvine and his assistant, Philip L. Miller, charging them with forgery committed during their terms of office. The accused are believed to have left town as the police have so far been unable to locate them.

The administration of which the accused were members was elected on a reform ticket. The treasurer, Simon Jacobs, committed suicide several months ago and was short in his accounts over \$50,000.

Liberia No "Promised Land." LONDON, Sept. 9.—A. Burnett and H. Jumper, American negroes, have arrived at Southampton by the steamer Tagar, with a mournful story of the fate of the party of negro colonists which left Savannah, Ga., March 19, on board the steamer Hanga for Liberia. Of the 210 persons who comprised the company only two secured work in Monrovia. Half the entire number died of fever, aggravated by privations. The remainder, excepting a few who were too ill to travel, made their way toward the coast in the vain hope of finding means of returning to America.

Five Generations Under One Roof. SEVIER, Kan., Sept. 9.—At the little town of Climax a family of five generations reside under one roof. They are: Mrs. Larkins, aged 86 years, who is a great-grandmother; Mrs. Mary Templeton, her daughter, is a great-grandmother; T. D. Templeton, Mrs. Templeton's son, is Mrs. Larkins' grandson; Mrs. Abner Russell is a great-granddaughter, and her infant daughter is great-great-granddaughter of Mrs. Larkins.

Coke Workers May Strike. UNIONTOWN, Pa., Sept. 9.—Indications point to a general strike throughout the Connellsville coke region next week or the week after. Last spring the operators granted an advance of ten per cent to avoid a threatened strike. Since that time the price of coke has been on the jump and the men now demand another advance in wages commensurate with the advance in coke. The operators are unwilling to accede to the demand.

HYPNOTISM IN CRIME.

The Subject Discussed by the Medical-Legal Congress.

NEW YORK, Sept. 9.—The third day's session of the Medical-Legal congress began by the reading by Clark Bell of a paper by Gustave Boehm on "The Brutality of Capital Punishment." The author contended that the death penalty had no deterrent effect; that it was a relic of feudal barbarism, and was merely an act of revenge on the part of the state. The afternoon session was opened with the reading of a paper by Clark Bell on "Hypnotism in the Courts of Law."

Mr. Bell pointed out that it appeared the majority of medical men in this country did not recognize hypnotic trance as an existing fact. The lawyers and judges were on the same grounds as the doctors. In the courts of Europe the contrary was the fact and men of the highest character and professional attainments devoted their best efforts to its study and elucidation. As it was with professional men, so it is with the people.

Professor Carl Sextus of Chicago wrote to say that a natural criminal could be made to do criminal acts under hypnotic influence, but not a person of real moral worth. Dr. W. L. Howard of Baltimore said that hypnotism was a reality. He gave several instances of hypnotized persons in Baltimore, including his own servant, whom he sent to a neighboring physician's laboratory to steal everything the doctor had. He restored the fellow while he had the articles still in his possession. The doctor confessed that it affected the man's brain somewhat, but he always took care, except on this occasion, to get the subject back into a good mental state before he completely restored him.

The doctor also hypnotized a bank cashier and made him steal \$45,000. He performed an operation in the John Hopkins university with the patient under hypnotic influence. Hypnotism was invaluable as a corrector of morals. Dr. Grover of Massachusetts told of a young woman in Boston who had a tendency to tuberculosis being cured by hypnotic influence.

SHORT \$1,500,000. The Bond Syndicate Fails to Keep Up the Gold Reserve Fund.

WASHINGTON, Sept. 9.—A telegram received at the treasury department states that \$1,000,000 in gold has been withdrawn for export from the sub-treasury at New York. Slight gains, however, were made at Chicago and other points, aggregating \$180,000, so the true amount of the reserve at the close of business was \$98,513,529. The cash balance was \$181,577,168.

The treasury officials maintain their usual reticence on the subject, but there is no doubt that they were somewhat disappointed and surprised that the syndicate permitted the business day to close without making any deposit. From the first the officials have confidently believed \$100,000,000 was the lowest point which the syndicate would permit the reserve to reach, and hence their inaction at this time is not understood. There is, however, no alarm felt, as it is expected the syndicate will come to the rescue on the first sign of uneasiness on the part of the public.

HURLBUT IS DEAD. A Noted American Newspaper Man Passes Away in Italy.

CARENABIA, Italy, Sept. 9.—William Henry Hurlbut is dead.

He became connected with the New York World in 1865, and in 1867 purchased the Commercial Advertiser, intending to publish it as a free trade paper, and his associates failing to agree the paper was sold to Thurlow Weed. He went to Mexico in 1866, and was invited to the capital by Maximilian. He represented the New York World at the world's fair at Paris in 1867, and the centenary festival of St. Peter in Rome, and in 1871 accompanied the United States expedition to Santa Domingo, during which time he published a very complete history of that island. In 1876-8 he was editor-in-chief of the World, and in the latter year when Joseph Pulitzer bought the World he went to Europe where he has since chiefly resided.

JOPLIN FLOODED. Severe Storms Damage a Church, Residences and Business Houses.

JOPLIN, Mo., Sept. 9.—Joplin was visited by a cloud-burst shortly after 5 o'clock yesterday afternoon. Rain fell at intervals all the afternoon, culminating in a storm which was the worst known in twenty years. The water came down in streams. The rain was accompanied by a terrific electrical display, and by a high wind, which did great damage. The First Methodist Episcopal church and several private residences were damaged by water. On Main street, for half a block, on each side of the Willow branch, several business houses were flooded. In all the low lying districts the occupants were driven from their houses. The railways suffered much damage. Many mines were flooded, and the loss from this will be heavy.

Republicans Claiming Maryland. NEW YORK, Sept. 9.—General Felix A. Angus, editor of the Baltimore American, says: "The state will go Republican for the first time since the war. Half of the Democratic papers in this state have bolted the Democratic ticket, and will support Lowndes for governor. It is almost a revolution in political sentiment, and I venture to say that Mr. Lowndes' majority will be anywhere from 5,000 to 20,000. His election is a foregone conclusion."

Artist Gibson and Fiancee Injured. RICHMOND, Va., Sept. 9.—News has just reached here of a serious accident to Charles Dana Gibson, the famous artist, and his affianced wife, Miss Irene Langhorne, in a runaway. Mr. Gibson's left wrist was broken and he sustained many severe bruises. Miss Langhorne's left knee was broken and she was also badly bruised. Her injuries will confine her to her room for at least two months.

GENUINE DEMOCRATS.

THEY DECLARE FOR THE GOLD STANDARD.

T. J. Mahoney of Omaha Placed at the Head of the Ticket—W. S. Ashby of Hildreth and J. H. Ames of Lincoln for Regents—What is Set Forth in the Platform of Principles—A Telegram From Carlisle.

The Gold Wing of Democracy. For supreme judge, T. J. MAHONEY, Omaha; For regents, W. S. ASHBY, Hildreth; J. H. AMES, Lincoln.

LINCOLN, Neb., Sept. 7.—The "straight" democratic state convention met in this city on Thursday and placed in nomination the above ticket. Euclid Martin of Omaha called the meeting to order.

The presiding officer announced that R. S. Bibb of Beatrice had been selected by the committee for temporary chairman, and C. M. Hubner of Nebraska City as temporary secretary. The convention accepted them.

The chairman appointed as a committee on credentials: O. H. Scott of Thayer, Ben F. Thierhard of Holt, J. H. Miller of Hall, R. E. McMullin of Dixon, and L. W. Hayes of Kearney.

As a committee on permanent organization these were appointed: W. D. McHugh of Douglas, D. W. Cook of Gage, R. E. Dunphy of Seward, G. A. J. Morse of Pawnee, and Jacob Higler of Chase.

The committee on credentials reported the list of delegates and no contests. The temporary organization was made permanent with the addition of Ed McCullough of Butler as assistant secretary.

Organization of N. S. Harwood of Lancaster a committee of seven on resolutions was appointed. These were N. S. Harwood of Lancaster, John A. McShane of Douglas, D. P. Rolfe of Otoe, G. M. Shellenbarger of Douglas, George P. Marvel of Gage, J. J. McIntosh of Cheyenne, and F. G. Hadler of Webster.

They brought in the following: PLATFORM OF PRINCIPLES.

The democrats of Nebraska, in convention assembled, congratulate the country upon the sure signs of returning prosperity. In spite of the evil predictions alike of protectionists and silver inflationists, the country is steadily and surely gaining ground, thus justifying the wisdom of the reversal of the republican policies of protective tariff and coinage of a redundant quantity of token-dollars. The fact that the wheels of industry, so long silenced as a consequence of these policies by a long and depressing panic, have resumed their wonted motion and that more than 300,000 laborers are receiving an increase of wages of 12 per cent proves this assertion.

CONGRATULATE GROVER. We send greeting and congratulations to Grover Cleveland and his cabinet, not only for their wise and prudent course which has aided so much in bringing about the better financial condition, but also for their firm and fearless adherence throughout the long depression to sound principles of economy for their just conception of the rights of the whole people, and for their unswerving fidelity in upholding and protecting the honor and integrity of the nation against organized mob violence.

A GOLD STANDARD. We endorse the national democratic platform of 1892 and the interpretation placed thereon by the president, and we declare ourselves unequivocally and unreservedly for that metallic money as the standard unit, the bullion and mint value of which are approximately the same, the purchasing power of which, regardless of government mintage, is the least fluctuating in all the markets of the civilized world. We insist upon this policy as especially necessary for the protection of the farmers, laborers and property owning debtors the most defenseless victims of unstable money and fluctuating currency.

Free coinage of silver, 16 to 1, means silver monometallism; it means poorer money and less of it; it means less wages for the laboring man and less actual money for the farmer and very much less credit, as well as money for the business man. It means bankruptcy for all, save the mine owner.

ONLY ONE MENACE. We recognize in the issue and reissue of our treasury notes a serious menace to the stability of the national finances and we favor the retirement of all treasury notes at the earliest possible moment with proper and safe guarantees for maintaining the necessary volume of the currency which shall be devised by a competent, non-partisan currency commission.

The constitution of this state provides that no religious test shall be made as a qualification for office. That provision we accept both in the letter and in the spirit and we condemn every attempt by secret societies or otherwise to proscribe any portion of our citizens on account of their religious beliefs or affiliations.

T. C. Marshall nominated T. J. Mahoney for candidate for justice of the supreme court. The nomination was made by acclamation and D. W. Camp and J. H. Ames conducted the nominee to the platform.

Mr. Mahoney was greeted with applause when he stepped to the front of the stage to make his speech of thanks. He said that whether locally the contest was crowned by victory or defeat he thought that the duty of the convention had been done by holding up before the people the principles of their party. Whether there was one vote or 100,000 for the candidate of a party if it was true to principle it was right, temporary success did not measure the success of a party.

UNIVERSITY REGENTS. The nomination of candidates for regents of the State university were made. The candidates were: W. S. Ashby, Hildreth; J. F. Canyon, McCook; John H. Ames, Lincoln; S. S. Green, Gage; F. P. Welton, Dakota. The roll was called and the result announced to be: Ashby 311, Canyon 60, Ames 461, Green 402, Welton 118. Ames and Ashby were declared the nominees of the convention.

The state central committee re-elected Euclid Martin chairman, and J. B. Sheehan secretary.

A SPORTY MINISTER.

Organizes a Sunday Baseball Nine to Amuse the Workmen.

ANSONIA, Conn., Sept. 5.—There is a decided sensation in religious circles of this city over the "advanced" position assumed by Rev. Henry E. Davies of the Congregational church, in reference to Sunday observance.

The recent opening of Housatonic park, with various Sunday attractions, caused a crusade, led by all Catholic and Protestant pastors, except Mr. Davies, who defied his colleagues, claiming that the days of "Blue Law" Sundays were passed, and the people should now realize the fact and conduct themselves accordingly. He said emphatically that the laboring classes should have amusement on Sundays and that all who thought otherwise were hypocrites.

These statements were emphasized by the formation of a baseball club by the minister from among the attendants at his church, and with them he played at the park. The church at once took up the matter, a division resulted, and at present the different factions are denouncing the attitudes of each other. A climax was reached to-day, when Mr. Davies presented his resignation.
