Senator Thurston of Nebraska for Permanent Chairman-H. Clay Evans With traws in Favor of Hobart for the Vice Presidency-Bradley May Be Dropped -Convention News.

Sr. Louis, June 15.-The Republican national convention will be called to order at noon next Tuesday by Chairman Carter of the national committee, and the day will be consumed in the r. ading of the call, the installing of temporary officers and the appointment of committees on credentials, permanent organization, order of business and resolutions. It is not known whether Chairman Carter will make any remarks in opening the convention or not, but it is safe to say

JOHN M. THURSTON.

that the temporary chairman he will present will make the best speech of which he is capable, and the proceedings of this session and of that which will follow in the evening will probably be interspersed with oratory.

Wednesday morning the report of the committee on permanent organiza-tion and order of business will probably be presented and acted upon and the permanent officers will take charge of the convention. The permanent chairman will probably be United States Senator John M. Thurston of Nebraska, a far famed orator. Pending the receipt of the report of the will be devoted to general convenbusiness, interspersed with oratorical efforts by famous ora-tors of the Republican party in attendance. At all of the sessions it s probable that resolutions will be received and referred to the committee on resolutions with or without reading or debate, as the convention may direct. Whether the money question will be precipitated upon the convention before the report of the committee on resolutions shall be received is questionable, but, regardless of any rule which may be adopted, the tension of this question is so great that the question is liable to be precipitated at any time and is threatened by some silver men.

It is hardly to be expected that the report of the committee on credentials can be prepared and presented to the convention before Thursday night or Friday morning if the contests are considered as thoroughly as by the national committee. There are 168

Owing to the interest the money question, taken in the convention will scarcely fer action on the platform until after the nomination of the candidate. It is well known that when 'ie nomination of the canadate takes place the convention rapidly disintegrates and the gold standard men, who seem to predominate in the convention, will not take chances on leaving the silver men in possession when the platform is to be passed upon. A LEEDS WOMAN WHO ASTON-ISHED HER FRIENDS AND NEIGHBORS.

Near to Death but Restored So Completely That She Has Been Accepted By a Life Insurance Company as a Good Risk.

From the Journal, Lewiston, Mc.

A bright little woman, rosy and fresh from her household duties, dropped intoa chair before the writer and talked with enthusiasm shining in her snapplug, black eyes.

The people in the pretty village of Leeds Centre, Me., have watched with some interest the restoration to complete health of Mrs. W. L. Francis, wife of the postmaster. So general were the comments on this interesting case that the writer who visited Mrs. Francis and learned from her that the statements regarding her troubles and her subse-quent extrication therefrom are entirely true. All of her neighbors know what has been the agency that has performed this cure, but that others may be bene-fited by her experience, Mrs. Francis has consented to allow her story to appear in print.

"If there is anything on earth I dread more than another," she said, "It is to see my name in the papers. But in this case I conquer my repugnance and give publicly the same credit to the savior of my life as I would to one who had dragged me from a death beneath the waves. In fact, I have extolled my preserver so enthusiastically and unpreservedly have sought out any reserved. preserved so enthusiastically and un-reservedly, have sought out sufferers and recommended the remedy to so many friends and acquaintances that already my neigh bors jocularly call me, 'Pink Pills Francis.' But really, my re-covery is something that I consider wonderful. I know that there are so many testimonials of medicine in the papers nowadays that people do not pay as much heed as formerly, but I do wish folks who are suffering would remem-ber that what I say comes right from the heart of a woman who feels that she had a new lease of happy life given

"Eleven years ago I was afflicted with nervous prostration. My existence until two years ago was one of dragging misery. Anyone in the village will tell you of my condition. My blood seemed exhausted from my veins and month after month I grew weaker. I was able to undertake only the lightest household work, and even then I could perform it only by slow and careful movements. During all these sorry months and years I was under the care of this doctor and that, but their medicines helped me only spasmodically, and then I fell into relapses more prostrating than

"In the night I used to be awakened by the most excruciating pains in my heart and side, and was obliged to use pellets of powerful medicine that the doctor gave me for relief in such at-tacks. At last my condition became so-grave that I went out only infrequent-ly. We live upstairs, you notice, over-my husband's store, and in descending the stairway I frequently was obliged to sort of fall and slide over the steps in order to descend, such was the strain on my system resulting from even this on my system resulting from even this slight exertion. Occasionally I visited the neighbors, but I was obliged to sit and rest to recover breath while ascending any elevation. In short, it did not seem that I could live, such was my

complete physical prostration.

"One day I saw an advertisement of Dr. Williams' Pink Pills for Pale People, and although my faith in remedies was weak by that time. I sent for a box and tried them. That was two years ago Now I call myself a well woman. Isn't

it wonderful?
"I haven't had one of those excruciating pains in the heart for a year and a half. Why, even the first box of pills helped me. I can walk miles now; can do my work easily; have gained in weight constantly, and you would scarcely believe it, but a little while ago I was examined for endowment life insurance and was accepted unhesitatingly after a careful examination by

the physician.
"Do you wonder that I'm shouting 'Pink Pills' all through our village? I haven't taken any of the remedy for some months for it has completely built me up, but at the first sign of trouble I know to what refuge to flee.

"Last year my aunt, Mrs. M. A. Blossom, of Dixfield, P. O., was here visiting me. She was suffering from a lack of vitality and heart trouble, but she was skeptical about my remedy that I was so enthusiastically advocating. At last, however, she tried it and carried some home with her when she went. A little while ago I received a letter from her, and in it said, 'I am cured, thanks to God and Pink Pills.' She also wrote that her husband had been prostrated but had been restored by the remedy.

One of the persons to whom Mrs.

Francis recommended Pink Pills is Sta-tion Agent C. H. Foster, of Leeds Centre, and the reporter found him patrol-ling the platform awalting the arrival of the morning train. Mr. Foster, who is one of the most trustworthy, capable and energetic men in the employ of the Maine Central railroad, appeared in unusually good health and spirits and we made inquiry as to the cause "Do you know," replied he, "I think 've made a discovery, or at least Mrs. Francis has for me. I have been in poor

health for a long time with a heart trouble variously complicated. We have been so fully interested in Mrs. Francis' wonderful recovery that I at once determined to give the medicine recommended a thorough test. So, about two months ago, I bought the first box of Dr. Williams' Pink Pills. Only two months, please note, yet already I am so much improved, so much better able to fulfill my duties, so sanguine th am on the road to recovery, that I feel like a new man. "I can now walk without the fatigue

I once experienced, my heart affection appears to be relieved, and I have joined the Pink Pills' Band in our community."
Dr. Williams' Pink Pills contain all

the elements necessary to give new life and richness to the blood and restore shattered nerves. They are for sale by by all druggists, or may be had by mail' from Dr. Williams' Medicine Company, Schenectady, N. Y., for 50c per box, or six boxes for \$2.50.

Shaw's Garden Wrecked.

The Missouri Botanical Gardens, established many years ago by Henry Shaw, a wealthy citizen of St. Louis, now dead, were devastated by the storm. These gardens contained the rarest collection of shrubbery and flowering plants in the world, with the possible exception of Kew gardens in London. The most valuable of the plants in the Shaw gardens, as it was commonly called, were uprooted and swept away by the wind. Hothouses and hotbeds and outdoor beds of flowers were tornup and scattered in the storm. The money damage is estimated at \$100,000. The loss of rare plants is irreparable.
