Notice to Non-resident Defendant.
In the district court of Box Butte county, William E. Abbey, Plaintiff, vs. Annie L. Fanning, W. H. Fanning and W. J. Bowden, Defendants.
The above named defendant W. J. Bowden, will take notice that on the 6th day of August 1896, William E. Abbey plaintiff herein filed his petition in the district court of Box Butte county against the above named defendants, the object and prayer of which are to foreclose a certain mortgage, executed by the defendant Annie L. Fanning to the American Investment company upon the southeast quarter of section 22 in township 27 north, range 48 west of the sixth principal meridian in Box Butte county Nebraska, to secure the payment of one certain promissory note for the sum of \$400.00, dated March 28th 1897, and due and payable Dec. 1st 1897 with interest thereon payable semi-annually and on which time of payment was afterwards extended five years from maturity thereof. Said note and mortgage contains the condition that if any interest on said note is not paid within twenty days after the same becomes due, then the principal shall immediately become due and payable at the option of the holder thereof. Said note and mortgage was before the same became due for a valuable consideration duly assigned to the plaintiff who is now the holder and owner thereof.
All of the interest which became due on said principal note on the first day of Dec. 1895, and since that time still remains unpaid and the plaintiff elects to declare the principal and interest thereon due and payable as aforesaid, and there is now due the plaintiff on said note and mortgage the sum of \$400.00, with interest thereon from the 1st day of June 1896, at ten per cent per annum. Plaintiff prays for a decree that the defendants be required to pay the same or that said promissory note be sold to satisfy the amount found due.
You are required to answer said petition on or before the 14th day of September 1896.
Dated August 6, 1896.
WILLIAM E. ABBEY, Plaintiff.

The bereaved parents have the sympathy of their many friends.

Mesdames F. M. Phelps, W. W. Norton and H. J. Ellis drove up from Alliance Wednesday. Mrs. Phelps had planned to surprise her husband and did not inform him that she was coming. As work was a little slack in the clerk's office Mr. Phelps decided he would go home and spend the day "chopping wood" etc., and accordingly was a passenger on the 10 o'clock freight for Alliance, passing the ladies just outside the city limits of Hemingford. However, soon after arriving in the "smoky city" he learned of the surprise and returned to the county seat on the afternoon train and after making the necessary explanations and apologies to the ladies, proceeded to show them around the city. The ladies say they enjoyed the "surprise" very much and of course Mr. Phelps did. The HERALD acknowledges a pleasant call from the party.

CARD OF THANKS.

Capital Has Organized, and the Workingmen Must do Likewise.

When in the course of human affairs and political stagnation it becomes necessary for the common people to sever themselves from the money changers and to assume among the political factions of the country separate and equal stations to which the laws of nature entitle them; a decent respect of the opinions of mankind requires that they should declare for the great cause of silver, which impels them to the separation. We hold these truths to be self evident; that the farmer and laborer are created equal to the money changers. That each is endowed by his creator with certain rights, that among these are life, liberty and a pursuit of happiness, and these can only be obtained through the immediate, unconditional, unrestricted restoration of free coinage of silver at the ratio of 16 to 1, independent of Europe. We will never submit labor to wear a crown of thorns, and we ourselves to be crucified upon a cross of gold. Prudence indeed will dictate that a form of coinage laws should not be changed for light and transient causes, but this was done in 1873, but not by consent of the laborer, it was through theft and treachery. And from this stealthy act has come a long train of abuses and usurpations pursuing invariably the same objects, viz: The placing of this government on an absolute gold standard, placing the reins of government in the hands of the money changer, and following these will come the robbing of the laborer and farmer, reducing them to the lowest state of poverty imaginable. Such has been the patient sufferance of the laboring class for twenty years, and such is now the necessity which constrains us to alter the present obnoxious form of coinage laws, and emphatically declare for the free and unlimited coinage of silver independent of any other nation at the old ratio of 16 to 1. The history of the present form of coinage laws and unit of money is a history of repeated inquiries and usurpations, all having the direct object and absolute gold standard, which in a short time, if not altered, will completely rob and bankrupt the farmer and laborer. To prove this let facts be submitted to a candid world. The demonization of silver has confiscated millions of dollars worth of property. It has made tens of thousands of tramps. It has made thousands of paupers. It has brought tears to strong mens eyes and hunger and pinching want to widows and orphans. It is destroying the honest yeomanry of the land the bulwork of the nation. It has destroyed half our primary money. It has in time of peace increased our public debt to the amount of \$262,000,000 in the form of interest bearing bonds. It is reducing wages but does not reduce taxes, mortgages and debt contracted a few years ago. It has brought this once great republic to the verge of ruin, where it is now in imminent danger of tottering to its fall. In every stage of these oppressions we have petitioned for redress in most humble terms, our repeated petitions have been answered only by repeated injuries to us. Such coinage laws, and financiers who control them, whose characters are thus marked by every act which may define tyranny are unfit and unsafe for the farmers and laborers of this great nation. We have warned them time and time again of attempts by their legislation to extend an unsafe financial system over us. We have conferred them by ties of our common kindred to disavow these usurpations, which inevitably will forever interrupt the relations of the laboring mass and the money class. But they have been deaf to the voice of justice and consanguinity. We must therefore, acquiesce in the necessity which denounces the present coinage laws and the gold standard, and hold them as destructive of peace, liberty and prosperity. We, therefore, the farmers and laborers of the United States, headed by W. J. Bryan, humbly appealing to the Supreme Judge of the world for the rectitude of our intentions, do, in the name and by the authority

of the farmers and laborers of the United States, solemnly declare in order to restore prosperity we are by right and justice entitled to free, unlimited coinage of silver at the ratio of 16 to 1 independent of any other nation or nations. And we do further declare that we are absolved from all allegiance to the gold bugs, Wall street and English bankers and by ought to be totally dissolved from them in regard to making and maintaining coinage laws; and, as free and unlimited coinage of silver at the ratio of 16 to 1 because we realize this to be the only way to restore prosperity and happiness. And for the support of these declarations with a firm reliance on the protection of Divine Providence, we mutually pledge our lives, our fortune and our sacred honor in the one great good cause of free silver, which is paramount to all other questions before the American people to day; and now we humbly petition all liberty loving voters to discard all old petty prejudices and vote for the unlimited coinage of silver at 16 to 1 which will immediately restore happiness and prosperity.
