VOL. 2.

HEMINGFORD, BOX BUTTE COUNTY, NEBRASKA, FRIDAY, SEPT. 25, 1896.

NO. 31

ARISTOTLE said: "Money exists by law, not by nature."

The Custer County Chief has come out flat-footed for Bryan and silver.

BISMARCK said in 1894: "I have always been in favor of an international agreement for the restoration of silver as a money metal, and if it cannot be had without England's help, then we ought to restore silver without her."

MR. REED, of Maine, said, referring to the closing of the Indian mints, "we have learned from that object lesson that the yellow man using white money holds at his mercy the industry of the white man using yellow money."

McKinley talks to about as many strangers at his home every day as Bryan does by chasing after them from city to city with a special train chartered at the expense of the silver kings.—Alliance Guide.

Now Bro. Paradis you know as well as anybody that Mr. Bryan has not and never did have a special train at his disposal. 'Tis true he has a special car which is attached to regular trains and it is necessary that he should have. You also know that those "many strangers" are rounded up and carried to "visit" McKinley on a special train and everything is as free as water. Yes, why don't McKinley chase the people around a while? Is it because those "many strangers" and special trains keep him at home or is it because he is afraid to meet an honest, liberal-minded man like W. J. Bryan in joint debate. McKinley is afraid to come out of his hole and the people know it.

Is This a Free Country?

Cobden, Ill., Sept. 18.—James Davis, William Wiker, Thomas Smith and Charles Fuller, residence of this place, employed as track-layers by the contractors laying the steel of the new double track of the Illinois Central between Makanda and Dongola, were notified this morning by their foreman, McCoy, to report to him and receive checks for their time. Twelve non-resident laborers received the same notice. McCoy informed them that the only reason that he could give for their dismissal was that they were advocating the cause of Bryan and free silver too freely. Their places were promptly filled by Italians. As soon as the news reached this place the Bryan followers became very angry and excitement is at fever heat to-night.

"If any man dare say that 37 1/2 grains of pure silver are not a dollar's worth, let him be challenged with the question whether that amount of uncoined silver will not purchase as much as the average of twenty-five of the great staples of the American market, including real estate and labor, as the same silver would have purchased twenty five years ago? Let him answer that truly, or forever afterward hold his peace. As a matter of fact the uncoined silver in the American dollar will buy more of the average of our great staples than the same would have bought in 1875. The claim that gold coin is the 'sound money,' the 'honest money,' of the world, and that silver—real, primary silver money, of our old statutory ratio—is dishonest and unsound money, is the most false, as it is the most adroit, proposition ever put forth by interested parties to defraud the people of the great nation."—John Clark Ridpath.

Total democratic gains to date 53,000
Total republican gains to date 18,000

THE HERALD received a letter from W. H. Roberts, a former citizen of this county, who is now residing near Galena, Ill. Mr. Roberts asks "will Bryan carry Nebraska and Kansas" and adds "here he has gained some silver republicans and lost some gold democrats, but I think he has gained two for every one he has lost in this county." This news is from the old home of General Grant. We informed Mr. Roberts that Bryan would carry Box Butte county by 150 and Nebraska by at least 50,000.

After the Palmer speaking at Alliance a prominent McKinley republican of this city was heard to remark, "By George, I've attended a great many republican rallies but that was the 'rattiest' one I ever saw; if they can't send out a man who can produce more argument and make a better impression than Palmer did, they better not send any." And just then an old soldier chipped in "Yes' John Bull ought to send out good orators anyhow because it takes a 'dandy' to cram his argument down the throats of Americans."
