JONES CONCEDES THE ELEC-TION OF M'KINLEY

and Proceeds to Tell How It Was Brought About-Candidate Bryan Issues an Address to the Advocates of Free Silver-He Urges All Friends to the Cause of Free Silver to Renew Their Allegiance Thereto.

# Jones and Bryan Speak.

CHICAGO, III., Nov. 7.-The result of he Presidential election is apparently 10 longer in doubt. It has been one if the closest contests that the people save been called on to determine in ecent years. We have claimed the slection on our advices from states that vere admittedly in doubt, in which we cnew there had been many frauds, and rom which there were evidences of ampering with the returns.

It seems now to be apparent that, while Mr. Bryan, after making the nost brilliant campaign in the history of our country, and having carried nost of the states claimed to be doubt-'ul, has not carried enough to assure ais success in the electoral college. Bryan electors have been chosen from all of the states south of the Potomac and Ohio, except West Virginia, and all those west of the Missouri, except lalifornia and Oregon.

He has 190 electoral votes, and this number may be increased by final reurns from states yet in question. He sas not obtained enough votes to carry the electoral college. Thus this renarkable campaign closes with the slection of William McKinley.

The result was brought about by every kind of coercion and intimidation on the part of the money power, includng threats of lock-outs and dismissals, and impending starvation: the employnent of by far the largest campaign fund ever used in this country and by he subordination of a large portion of the American press.

The president-elect and his party are ander the pledge to the American peosle to continue the gold standard, and ov its operation to restore prosperity to this country.

As chief executive, Mr. McKinley will have the cordial support of the millions of patriotic Americans who aave cast their votes for William Jentings Bryan. They bow to the majesty of the office, and abide by the result with none of the mutterings that would have come from the moneyed owers, had it not been successful.

They are confident the gold standard an not give the promised prosperity, out will gladly welcome it if it comes. They will continue the great struggle for the uplifting of humanity, and the maintenance of the dignity of our sountry in the establishing of the American monetary system. And the Democratic party, aided by its present allies, will still uplift the bimetallic standard and bear it on to victory. JAMES K. JONES.

I hereby express my per-sonal gratitude to the individual members as well as the executive officers of the Democratic, Populist and Silver parties for their efficient, untiring and unselfish labors. They have laid the foundation for future success and will be remembered as pioneers when vic-

Our hearts have been touched by the devotion of friends, and our lives shall prove our appreciation of the affection. which we prize as the richest reward which this campaign has brought.

"In the face of an enemy rejoicing in its victory, let the roll be called for the engagement and urge all friends of bimetallism to renew their alle-giance to the cause. If we are right, as I believe we are, we shall yet tri-umph. Until convinced of his error, let each advocate of bimetallism con-tinue the work. Let all silver clubs retain their organization, hold regular meetings and circulate literature.

"Our opponents have succeeded in this campaign and must now put their heories to the test. Instead of talking mysteriously about 'sound money' and 'an honest dollar' they must now elaborate and defend a financial system. Every step taken by them should be publicly considered by the silver clubs. Our cause has prospered most where the money question has been longest discussed almong the people. During the next four years it will be studied all over this nation, even more than it has been studied in the past.

# PREDICTIONS MADE FOR 1900.

"The year 1900 is not far away. Before year arrives internathat tional bimetallism will cease to deceive. Before that year arrives those who have called themselves gold standard Democrats will become bimetallists and be with us or they will become Republicans and thus open enemies. Lefore that year ar-rives trusts will have convinced still more people that a trust is a menace to private welfare and to public safety. Before that year arrives the evils of a gold standard will be even more evident than they are now, and the people then ready to domand an American financial policy for the American people, and will join with us in the immediate restoration of the free and unlimited coinage of gold and silver at the present legal ratio of 16 to 1 without waiting for the aid or consent of any other nation. "W. J. BRYAN."

# KENTUCKY VERY CLOSE. Official Counts Alone Will Decide It-

Bryan 218 Votes Ahead.

LOUISVILLE, Ky., Nov. 6 .- With two whole counties. Leslie and Knott, and eighteen precincts missing, Bryan has a plurality of 218 votes in the state, but many of the returns are unofficial and it seems highly probable that the state board will have to decide the result. Of the two missing counties, Leslie is Republican and gave Governor Bradley 716 majority, and Knott sounty is Demceratic and gave Hardin, last year, 395 majority. The missing precincts are distributed about equally among Democratic and Republican counties. Three missing precincts in Fellaire are strongly Republican, as are two precincts in Clay. One in Letcher 1s Republican and one in Grant s Democratic, as is one in Pendleton and three in Henderson. The complexion of the congressional e'erentication in form Republicans and even D. Co. rollin At 12:30 p. m., on the strength of the added returns from the Eleventh distriet. Chairman Roberts of the Reput tican committee now confidently claimed the state for McKinley by over 2,000. Chairman Sommers is likewise claiming the state, but gives no figures.

# REPUBLICANS NOT IN IT. GOES RIGHT AHEAD.

Fusionists in Kansas Have Everything Their Own Way.

TEPERA, Kan., Nov. 6 .- The Repub lican state committee continues to claim that there is a chance for the Rate. votes, but the party leaders, among themselves, generally concede the state to the Populists, although they do not admit the claim of Fusion Chair-

will have 13,000 majority. Even well informed fusionists do not agree with the two chairmen. R. W. Turner, silver national committeeman, thinks Leedy will have something like 9,000 over Morrill. To his friends Governor Morrill ad-

mits the loss of the Republican electoral and state tickets and the legislature. Cyrus Leland, the Kansas national

ommitteman, expressed his judgment of the situation in a telegram to Henry C. Payne at Chicago yesterday after-noon. "It looks pretty dark out here," he wired. It is the most disastrous defeat the

men Briedenthal and Love that Leedy

Republicans of Kansas ever have suffered. In former elections since 1890, when they began to meet adversity, they have managed to save something out of the wreck. In 1890 they saved the governor and had a holdover sen-ate from the election of 1888. In 1892 they saved the house, losing the governor and the senate. John Martin, Democrat, went to the United States Senate to join Peffer, Populist, and a Populist took a seat beside two Republicans on the supreme bench. In 1894 they won the governor and the house, but the senate was still Populist, although the Republicans had a majority on joint ballot, which retired Martin from the United States Senate.

This year everything is gone-the governor, both branches of the legis-167 ature and consequently the United States Senator, five of the six judges of the appeliate court-and the election

of Doster to be chief justice gives the Populists a majority on the supreme bench. In addition all the judicial randidates in the districts which elected this year have been carried by the fusionists, as have also nearly all of the county officers.

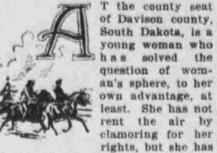

From the returns so far received the Republicans make the following estimate of the Republican strength in the two branches of the legislature; First congressional district, representitives 9, senators 4; Second district, presentatives 5, senators none; Third listrict, representatives 1, senators aone: Fourth district, representatives 7, senators 3: Fifth district, represent-tives 3, senators 3: Sixth district, repesentatives 6, senators none; Seventh listrict, representatives 14, senators 1; total, representatives 45, senators 11. If these estimates be correct the fusionists will have 80 representatives and 29 senators, a total of 109; major-ity on joint ballot, 53,

In the Congressional contests, the fusionists have elected Peters in the Second district, Ridgely in the Third, Vincent in the Fifth, McCormick in the Sixth. Simpson in the Seventh and Botkin at large, and the Republicans nave elected Broderick in the First and urtis in the Fourth.

THANKSGIVING.

THIS GIRL IS NOT WAITING FOR WOMAN SUFFRAGE.

She Has Solved the Question for Mer Sex by Going Right to Work and Accomulating Wealth at a Rapid

quietly gone ahead and asserted them without any fuss.

The young woman is Miss Jennie C. West. Miss West is now about 25 years old. A few years ago, whether from necessity or choice, it doesn't matter, she determined to be self-sustaining. At that time she was a student in Dakota university. At the end of two years spent in that institution she was made an instructor in mathematics. history and one or two other branches. After she graduated she was elected to the department of history and English literature in the university.

A year later, in the summer of 1892, Miss West was nominated for the office of superintendent of schools of Davison county, and was elected by a handsome majority. She proved such an efficient public official that at the

end of her first term she was again elected by a big majority. Her second term will end with the expiration of the present year, and the laws of her state render her ineligible for a third term. But this is only part of what Misg West has done to show the possibilities of energetic womanhood. She has acquired a quarter section of fertile South Dakota land and has developed one of the finest farms in Davison county. Miss West became the owner of this land by taking advantage of the homestead law, and she has improved it with the money she earned as a teacher and as school superintendent. She now has 120 acres uned. On the farm are for'y milch cows, false step made by an inexperienced which yield a large amount of milk climber, and followed by the breaking and cream for the market afforded by of a rope, was the sole cause of that the Mitchell creamerles. A few days | terrible tragedy. ago Miss West sold twenty-four steers for \$800 cash. The proceeds of the farm are swelling her already snug bank account and this irrepressible western girl has the promise of becoming a wealthy woman. At the close of her term of office Miss West expects to enter Chicago university. She has an ambition to become a lawyer. Miss West was born in Vermont. Her parents removed to Iowa when she was but 2 years old and settled in Fayette counwith sinful pride after their own de ty. From there they came to Dakota in 1881.

# MOUNTAIN CLIMBING.

Agaasiz Used to Shudder in Recalling His Experience on the Alps.

Since the year 1860 nearly 200 fatal accidents have occurred upon the Swiss Alps alone. Of these how many were occasioned by maladroit, feeble or timid climbers? The safety of every mountaineering party demands in advance that each member of it should be a practiced and steady climber; that no serious ascent should be undertaken by any man who cannot rely upon his own nerve and capabilities, his power of braving fatigue and standing cold; and, finally, that the party should be accompanied by a sufficient number of professional guides, says the London Telegraph. Mr. Leslie Stephen lays it down as a rule that the loftlest mountain may be scaled with safety by trained mountaineers, provided that fine weather, good guides and favorable conditions of rock and snow have first been secured. "On the other hand," he adds, "there is no mountain which may not be excessively dangerous if the weather be bad, the guides incompetent, the climbers inexperienced, the conditions of rock or snow unfavorable." Who, for instance, can say with confidence until he has been tried that he has nerve enough to stand the crucial test which Prof. Agassiz confesses was almost more than he could bear when, in 1841, he was one of a party of twelve who ascended the Jungfrau, half of them being professional guides, with the celebrated Jacob Lenthold, who died soon after of consumption, at their head?

"We started," wrote Agassiz, "from the Grimsel hospice at 4 a. m., on August 27, 1841, sleeping the first night at the chalets of Meril, and completing the ascent of the Jungfrau next day. Our difficulties were not a little increased by heavy mists and intense cold. At last the ascent became more and more steep, and every step had to be cut in the ice. Lenthold kept us close to the edge of the ridge of frozen snow, because the ice yielded there more easily to the ax. It was, however, so trying to our nerves that I, for one, should not like to repeat the experience. The awful precipice beneath us was constantly in view, and we could drive our alpenstocks through the rim of frozen snow, and gaze sheer down through the hole into a vast amphitheater which seemed yawning to swallow us thousands and thousands of yards below. The apex of the Jungfrau is so small that only one person can stand upon it. At 4 p. m. we started upon our downward path, turning our faces to the icy slope and feeling with the foot for each step below, these steps being more than 700 in all. At 11:30 p. m. we reached the chalets of Meril, which we had left that morning at the earliest dawn of day." The least imaginative mind can readily realize what one false step made upon a surface so steep and slippery that it is impossible to think of it without a shudder would have involved. In the worst accident that ever happened on the Matterhorn-that which befell Lord Francis Douglas and his three hapless der cultivation and has it well stock- companions-it is notorious that one

election of Governor Morrill and possibly some of the other candidates on the state ticket by a few hundred

to-day gave out the following to the bimetallists of the United States: "Conscious that millions of loyal hearts are saddened by temporary defeat, I anth, Tenth and Thirteenth districts. beg to offer a word of hope and en- They state that exclusive of the couragement. No cause ever had supporters more brave, earnest and devoted than those who have espoused the cause of bimetallism. They have fought for a conviction and have fought with all the zeal which conviction inspires. Events will prove whether they are right or wrong. Having done their duty as they saw it, they have nothing to regret.

The Republican candidate has been heralded as the advance agent of prosperity. If his policies bring real prosperity to the American people, those who opposed him will share in that prosperity, If, on the other hand, his policies prove an injury to the people generally, those of his supporters who do not belong to the office-holding class, or to the privileged class, will suffer in common with those who opposed him.

"The friends of bimetallism have not been vanquished; they have simply been overcome. They believe that the gold standard is a conspiracy of the money changers against the welfare of the human race, and until convinced of their error they will continue their warfare against it. The contest has been waged this year under great embarrassments and against great odds. For the first time during this generation public attention has been centered upon the money question as the paramount issue, and this has been done in spite of all attempts upon the part of our opponents to prevent it.

THE OPPONENTS OF DIMETALLISM. "The Republican convention held out the delusive hope of international bimetallism, while Republican leaders labored secretly for gold monometallism.' Gold standard Democrats have publicly advocated the election of the Indianapolis ticket, while they labored secretly for the election of the Re-publican ticket. Trusts and corporations have tried to excite a fear of lawlessness, while they have been defying the law, and financiers have boasted that they were the custodians of national honor, while they were secretly bartering away the nation's Enancial independence. But in spite of the efforts of the administration and its supporters, in spite of the threats of money lenders at home and abroad, in spite of the coercion practiced by corporation employers and in spite of trusts and syndicates, in spite of an enormous Republican campaign fund, and in spite of the influence of a hostile daily press, bimetallism has almost triumphed in its first great fight. The loss of a few states, and that, too, by a very small plurality, ent, but bimetallism emerges from the contest stronger than it was four months ago.

"I desire to commend the work of the three national committees which have joined in the management of this campaign. Co-operation between the

LINCOLN, Neb., Nov. 7 .- Mr. Bryan Sclock this morning the eilver men were claiming the state, basing their contention on mistakes in the returns published from the First, Third, Sev-Eleventh district mistakes in several counties change the result several hundred in favor of Bran.

From Clay county a letter from their county chairman this morning stated that the vote was McKinley 1,669. Bryan 685, or a McKinley plurality of 984 instead of the published plurality of 1.100. From Knox county the silver chairman reports the McKinley plurality of 1,135. a difference in Bryan's avor of ten votes.

It is possible that the entire vote of Owen county will be thrown out by the state canvassing board as a result of direct violation of the election law in that county. The Democratic pri-mary was held with the general clection, the Democratic election officers serving also as the primary officers. The Bryan plurality in this county is 2,289, and, if it is thrown out, it means the election of Col. W. P. C. Breckinridge in the Seventh district by a majority of 700 or over. Breckinridge will contest the seat of his opponent, Settle, Democrat, basing his contest on Owen county, where he alleges gross frauds were committed.

BRYAN TO M'KINLEY.

Congratulates Him on His Victory-The Silver Cause.

LINCOLN, Neb., Nov. 7 .-- "The fight has just commenced." Thus spoke William J. Bryan last night, when asked if he considered the result of tha election had been a serious blow to the cause of bimetallism.

He had just sent a message to Major McKinley, conceding his election and tendering his congratulations.

"Hon. William McKinley, Jr., Canton Ohio:

"LINCOLN, Neb., Nov. 5 .- Senato, Jones has just informed me that the returns indicate your election. and hasten to extend my congratulations We have submitted the issue to th? people and their will is law.

# THE NEXT HOUSE.

Republicans Sure of a Working Majority

# -Democrats Make It Close

WAS INGTON, Nov. 6 .- Republican Chairm n Babcock said that he had complete reports from 193 congressional districts which had elected Republicans, 155 districts that had elected Democrats and Populists and twentyeight districts in which the returns were incomplete. These may be all classed as doubtful, with the prospect that the Republicans will secure at least one-half of them, which would make a total Republican mombership in the Fifty-fifth Congress of 207. It is safe to say that under no circumstances will the membership fall below 200, Senator Faulkner, chairman of the

Democratic committee, although he does not concede the Republicans a majority in the next House, gives them 176 - within three of a majority.

Wasning.o.i for Bryan.

PORTLAND, Gre., Nov. 6.-Partial returns from all but four counties in the state of Washington show that the Bryan electors have carried the state by a plurality close to 10,000. James Hamilton Lewis and W. C. Jones, fusionists, are elected congressmen-atlarge. John R. Rogers, fusionist, is elected governor over Sallivan, Republican by 8,000, and the entire fusion state ticket is elected by majoritles not far below that of the head of the Ucket.

President Cleveland Issues a Proch tion Setting Apart a Day.

WASHINGTON, Nov. 6.-The President vesterday issued the following Thanksgiving proclamation:

"By the President of the United States: The people of the United States should never be unmindful of the gratitude they owe the God of nations for His watchful care which has shielded them from disaster and pointed out to them the way of peace and happiness. Nor should they ever refuse to acknowledge with contrite hearts their proneness to turn away from God's teachings and to follow

views. "On that day let all our people fore-

go their usual work and occupation and assembled in their accustomed places of worship, let them with one accord render thanks to the ruler of the universe for our preservation as a nation and our deliverance from every threatened danger; for the peace that has dwelt within our boundaries: for our defense against disease and pesti Inter during the year that has passed, for the plantcods rewards that have followed the labors of our husband

followed the inbors of our husband men, and for all the other blessings that have been voccharded for a). And let us, through the inclinition of lim who has targht us how to pray, implore the forgiveness of our sins and a continuation of heavenly favor. "Let us not forget on this day of thank edition to be a sing and and

thanksgiving the poor and needy, and by deeds of charity let our offerings of praise be made more acceptable in the sight of the Lord."

# NEW YORK COMPLETE.

Mckinley's Plurality the Greatest on Record-Legislature Republican.

NEW YORK, Nov. 6.- A complete compilation of the vote of New York state shows McKinley's plurality is 259.879, the greatest on record, and something like 25,000 greater than that of Black for governor. In the congressional delegation the Republicans have gained the seat for the Eighth district, Murray Mitchell defeating J. J. Walsh Thus the Republicans, counting J. J. lican majority in both branches of the

legislature is increased.

North Carolina. RALEIGH, N. C., Nov. 6,-Bryan has

less than 10,000. His vote is far in excess of that of Watson for governor, who is defeated by Russell, Republican. The Democrats and Populists have voted solidly for the fusion electors. Congressman Settle of the Fifth district is defeated by Kitcher,

Democrat, by 500. The vote in the Eighth district between Linney, Republican, and Doughtin, Democrat. is the Democrats. The legislature is anti-Democratic in both houses.

# Bottled Breath.

Doctor Berson, of Stassfurt, who has fately made several exceedingly lofty balloon ascensions, carries along a cylinder of compressed oxygen, fitted with a tube for breathing. Whenever he experiences discomfort on account of rarity of the atmosphere, a few whiffs from the cylinder suffice to restore him. It is suggested that mountain-climbers would find a cylinder of oxygen a very useful addition to their outfit. On one occasion Doctor Berson reached in his balloon an altitude of 31,300 feet, more than 2,000 feet higher than the summit of Mount Everest.

### The Unknown World.

Notwithstanding the rapid advance of exploration in various parts of the globe a recent estimate by a member of the Royal Geographical Society shows that no less than 20,000,000 square miles of the earth's surface yet remain unexplored. The largest unexplored area is in Africa, 6,500,000 square miles, but even North America contains 1,500,000 square miles of virgin territory. Some readers may be surprised to learn that there is three times as much land awaiting the foot of the pioneer in North America as in

## Measles Microbes.

Dr. Joseph Czajkowski, after four years of investigation, announces the discovery of a microbe which may be the cause of measles. Two other investigators have found the same microbe in the blood of measles patients. One undonbtedly carried this state by not of its most interseting peculiarities is, that while rabbits suffer no inconvenience when inoculated with it, it appears to be sure death to mice.

# A Horrible Charge.

It is reported that the deputy superintendent of a poor farm at Norwich, N. Y., tried the other day to bury in idlot boy alive because the boy had very close and in doubt. The other ingered him. The grave was dug and seven districts are certainly against the boy thrown into it, but he made into a dish and add a little papper and a desperate struggle and got away.

# Bicycle Cleaners.

"A new industry has sprung up of late," remarked a clerk in one of the upper departments, "which I feel sure is 'something new under the sun.' I refer to the bleycle cleaner. The average rider of the wheel seldom has time, and even more seldom the inclination, to cleanse his wheel. He knows pretty well that it should be cleaned, but postpones doing it. Here is where the bicylcle cleaner comes in. Every Saturday a colored man goes the rounds of the wheels stored in the courts of the war, state and navy departments. He at first cleans the wheel on his own hook, taking chances that he will get his fee, which is ten cents. After that, if he does the work well, he is pretty sure of a weekly customer. It is an accommodation to the rider, and, besides, the cleaner is well supplied with the tools, brushes, etc., which enable him to make a good job. In cases where the enamel is chipped off he touches that up, and actually makes an old wheel look like new for ten cents."-Washington Star.

#### By Our Own Deeds.

You have individualities that may be eccentricities, but they need not be; they may be your points of strength. Your efficiency may depend upon them. Do the work to which you are adapted. Make a distinct impression in the ophere of your activities. Be in league with others, for sometimes you will be unable to do much alone, but he sure to do something. To vote to do something, or for others to do amething, is frequently all that is done. We shall not be judged by the deeds of the organization of which we are a part, but according to the deeds that are distinctly chargeable to us.

#### The Shah's Cube of Gold.

One of the most highly prized relics belonging to the late Shah of Persia was a small cube of pure gold which tradtion says fell from heaven during the time of Mohammed and which formerly belonged to the prophet. Each side of this golden cube measures two and one-half inches and is literally covered with inscriptions written in a mixture of oriental languages. The letters and characters are all very small and appear to have been engraved by an expert in such work.
