

to buy. No machine shops or manufactories employing workmen, no railroads being built, no iron being dug, the pick and the spade were rusted, nothing being done, no one employing labor, consequently no one to buy the farmer's product, no price for anything, no market anywhere.

It should not have been so. I do not desire to go into details. I have no opportunity here for extended argument. I do not wish to censure any one. The average American does his best to do right.

We were prosperous and happy under republican administration. There were some men who desired to be leaders, who determined to hold office at any price. They were willing to prostitute their ability for personal gain and public notoriety.

They went out and talked to the people. They told the people falsehoods, anything, everything that would serve to create an agitation. They succeeded. The people believed them, and believing, concluded to try an experiment. They tried it, and tried it over and over again. We have seen the seven lean kine, we have eaten of the seven blasted ears, we have experienced the seven years of famine, and I ask you, in all candor, if we have not had enough of that kind of politics?

Every year they change their issue. Can you tell me why? I can tell you. They were not honest issues. A dishonest issue can only last long enough for the people to see through it.

First it was free trade—well we practically got that—but it failed, and did not last. Then came the populist leader, and he told the people that the government should build large warehouses, where you might store your grain, and the government should loan you money on it. This lasted long enough to elect a few leaders. But the people soon saw that this was ridiculous, and they changed the issue. Again the leaders were elected and again the issue was changed, and for the same reason. Then came free coinage of silver. Many people were fooled on this issue, but not enough to defeat Wm. McKinley.

Today free coinage has been abandoned, and the leaders started out to find a new issue. In sheer despera-tion they have pitched upon "imperialism." What does it mean? What have you or I to fear? It is another false issue. It is the spook in the dark with which the children are frightened into the house. A cry to fool the people again. When the people learn there is nothing in it they will hunt up something else.

If I have not spoken the truth, why have they abandoned the scheme of the government loaning money on grain, why have they abandoned the scheme of loaning money on land, why the free coinage scheme?

You have been fooled-fooled by political demegogues.

Will you be fooled again this year?

From the hour Wm. McKinley took his seat in the White house times began to improve. The manufactories began to operate, the machine shops turned on steam, the cobwebbed wheels of trade, red with the rust of inaction, began to creak and to revolve. The miner found employment. Even out here in Custer county, the railroads have laid steel on the old grade, and trains are running from Arcadia to Sargent. Consequently there is a market for the farmer's product, and prosperity and happiness are coming back to our people. They now ask you to help to stop it. They ask you to put a brake on the wheels of trade. They ask you

to throttle the whistle of the engine. They ask you to close the doors of the machine shops. They ask you to stop digging iron and building railroads. They ask you to close the market for labor. They ask you to kill the market for your farm products. They ask you to let your wife and little ones go without clothing.

Look over the nation. A smile is on every face, and a song of rejoicing on every lip. They ask you to hush the song, and take away the smile, and put back again the old look of despair on the faces of the people

THE NEBRASEA MORTGAGE AND TRUST COMPANY

Can you tell me why?

In our state it is because Neville, Holcomb and Sullivan want an office. How are you going to vote on November 7th?

"Imperialism!"

I do not know what they mean by it. You do not know what they mean by it. Will you be fooled by it? They talk about expansion. There is no such issue as regards the Philippine Islands. We are already expanded. By the treaty of Paris, those islands became and are today as much a part of the United States as is the territory of Alaska.

If there is any issue, it is an issue of contraction.

I would like to know who there is that would chop a chunk off of the United States and throw it into the sea. It is American territory. The flag floats there-who is there in America that would lower it.

Let me tell you this, there is not a man in America today, from Silas Holcomb to William Jennings Bryan, who, if he had his fingers on the cord, would dare to haul it down.

They want to fool you again.

We want a congressman from this district who is not all the time trying to fool the people. A congressman who is in sympathy with American manhood, American business enterprises, with American progress and prosperity. A congressman who will try to open a market for the farmer's products, by keeping all the business enterprises of the country alive, and the laborer employed. Who will keep us prosperous, and make us more prosperous.

VOTE FOR JUDGE KINKAID FOR CONGRESS.

VOTE FOR HAMER FOR JUDGE. HE IS THE FARMER'S FRIEND. HE DID EQUAL JUSTICE BETWEEN THE FAR-MER AND THE LOAN COMPANY.

In conclusion I ask in all sincerity that you go to the polls on election day, and vote the republican ticket straight. I urge you to see to it that every republican in your precinct gets out and votes. I ask you to feel your personal responsibility in this matter. Talk with your populist friends, many of them are only waiting for some good republican to invite them to vote the republican ticket. Talk with him. Reason with him, and get him to try the experiment this year of voting for republicanism and prosperity. I expect you to go to the polls and vote the republican ticket straight. To stay there all day, to see that

every republican comes out and votes, and to win over to republicanism a number of your populist friends.

You can do it if you try. You owe this to yourself, to your family, to your country, and to McKinley's administration, which is bringing the people back to prosperity.

Yours Sincerely,

SIMON CAMERON,

Member Rep. Cong. and Judicial Committees.
