Burlington Route—California Excursions

Cheap; quick; comfortable.

Leave Omaha 4:35 p. m. Lincoln 6:10 p. m. and Hastings 8:50 p. m. every Thursday, in clean, modern, not crowded tourist sleepers. No transfers; cars run right through to San Francisco and Los Angeles over the Scenic Route—through Denver and Salt Lake City. Cars are carpeted; upholstered in rattan; have spring seats and backs and are provided with curtains, bedding, towels, soap, etc. Uniformed porters and experienced excursion conductors accompany each excursion, relieving passengers of all bother about baggage, pointing out objects of interest and in many other ways helping to make the overland trip a delightful experience. Second class tickets are honored. Berths \$5.

For folder giving full information, call at nearest Burlington Route ticket office, or write to J. Francis, general passenger agent, Omaha, Neb.

The Way to go to California.

Is in a tourist sleeper, personally conducted, via the Burlington Route. You don't change cars. You make fast time. You see the finest scenery of the globe.

Your car is not as expensive as furnished as a place sleeper, but it is just as good, just as comfortable, just as good to ride in and nearly \$20.00 cheaper. It has wide vestibules; plush gas high back seats; a Pullman porter; clean bedding; spacious toilet rooms, tables and heating range. Being strongly and heavily built, it rides smoothly; it is warm in winter and cool in summer.

In charge of each excursion party is an experienced excursion conductor who accompanies it right through to Los Angeles.

Cars leave Omaha, St. Joseph, Lincoln and Hastings every Thursday arriving San Francisco following Sunday, Los Angeles Monday. Only three days from Missouri River to the Pacific Coast, including two stop-overs of 1 1/2 hours at Denver and 2 1/2 hours at Salt Lake City, two of the most interesting cities on the continent.

For folder giving full information, call at any Burlington Route ticket office, or write to J. Francis, Gen'l. Pass. Agt., Omaha, Neb.

A Word to Doctors

We have the highest regard for the medical profession. Our preparations are not sold for the purpose of antagonizing them, but rather as an aid. We lay it down as an established truth that internal remedies are positively injurious to expectant mothers. The distress and discomforts experienced during the months preceding childbirth can be alleviated only by external treatment—by applying a liniment that softens and relaxes the over-strained muscles. We make and sell such a liniment, combining the ingredients in a manner hitherto unknown, and call it

Mother's Friend

We know that in thousands of cases it has proved more than a blessing to expectant mothers. It overcomes morning sickness. It relieves the sense of tightness. Headaches cease, and danger from Swollen, Hard and Rising Breasts is avoided. Labor itself is shortened and shorn of most of the pain. We know that many doctors recommend it, and we know that multitudes of women go to the drug stores and buy it because they are sure their physicians have no objections. We ask a trial—just a fair test. There is no possible chance of injury being the result, because Mother's Friend is scientifically compounded. It is sold at \$1 a bottle, and should be used during most of the period of gestation, although great relief is experienced if used only a short time before childbirth. Send for our illustrated book about Mother's Friend.

Chamberlain's Cough Remedy Always Proves Effective.

There are no better medicines on the market than Chamberlain's. We have used the Cough Remedy when all others failed, and in every instance it proved effectual.

Almost daily we here the virtues of Chamberlain's remedies extolled by those who used them. This is not an empty puff, paid for at so much a line, but is voluntarily given in good faith, in the hope that suffering humanity may try these remedies and like the writer be benefited.—From the Glenville (W. At The Paris Exposition.

(Correspondence by Frank Rogers.)

Paris, March 7th, 1900.

The latter part of February was quite warm in Paris, but since then a change. When it is cold here it is very unpleasant on account of the poor facilities for heating the houses. Steam heat is almost unknown, and for the Frenchmen who had heard of it it is entirely too modern. Fuel, a necessity which, unfortunately, can not be done away with in heating, is very dear. Coal costs about thirteen dollars a ton and wood sixty cents a hundred. I suppose that is why so many French people prefer sitting in a cold room and taking an artificial warmer in the shape of a glass of cognac or some other kind of 'booze'. In pensions where they charge less than eight francs a day—there are very few in Paris—light or heat is never furnished. If your pension happens to be far enough ahead of Parisian times to have electricity in it, you will have to pay at the rate of two francs, fifty centimes a week for light. It is an even with the times here you can buy a lamp and a can of oil and fix your light to suit your own taste. They never put gas anywhere except in their kitchens and halls. They say it isn't beautiful.

Thursday, March 8th—I have been through the Exposition grounds today with a party of American gentlemen. None of the buildings look like they might be finished in time for the formal opening on April 15th. On Tuesday, the 6th inst., two of the gentlemen had called on Mr. Ferdinand W. Peck, commissioner-general of the United States to the Paris Exposition. Mr. Peck said he thought very one of the eighteen groups comprising the American exhibit would compare favorably with those of other nations. They have been gathered with great care by the best experts that he could find in any department from all parts of the United States, and he believed they would be ready before the French buildings were ready to receive them. He also believed that the United States buildings were well advanced as compared with the general exhibit buildings, and while the facades around the United States sections in the different groups are now being constructed, yet installation of exhibits could not begin until French buildings were nearer completed. Most people connected with the Exposition say that the formal opening will certainly take place about the 15th of April, but the exhibits will not amount to much before the 1st of June.

I saw some of the Exposition entrance tickets today. They are simple little cards about an inch and a half wide by two inches long. The price marked on them is one franc—twenty cents—but they are all in the hands of brokers and may fluctuate.

Friday, March 9—Yesterday p. m. the Theatre Francis burned to the ground. One actress was burned to death and seventeen people were wounded. No one knows the real cause, but M. Claretie, the director, thinks that it was caused by overheating of furnaces. Parisians consider it a national disaster.

In This Plain Enough

If you have a nagging cough and are losing flesh, go to a drug store, and get a bottle of Shiloh's Consumption Cure. Take two thirds of it, and then, if you are not benefited, return the bottle to the druggist, and he will return your money. Isn't that fair? No one could ask more. 25cts., 50cts. and \$1.00 a bottle. Sold by H. G. Haerberle.

Chamberlain's Cough Remedy.

This remedy is intended especially for coughs, colds, croup, whooping cough and influenza. It has become famous for its cures of these diseases, over a large part of the civilized world. The most flattering testimonials have been received, giving accounts of its good work; of the aggravating and persistent coughs it has cured; of severe colds that have yielded promptly to its soothing effects, and of the dangerous attacks it has cured, often saving the life of the child. The extensive use of it for whooping cough has shown that it robs that disease of all dangerous consequences. Sold by all druggists.
