A Rug of Many Pieces.

A Washington man has on his dining room floor a remarkable rug. It 13 composed of 225 pieces so artistically sewn together that no seam is visible. It seems that there is a certain wild sheep in Brazil whose general color is solid brown, with the exception of a small spot, snow white, about' four inches square, on its breast. The rug in question is made of these white spots, and 225 sheep were killed to provide them.

#### MANY AMERICANS AMONG THEM.

Fighting Men From Everywhere Flocking to Boer Standard.

NEW YORK, correspondent writing from Pretoria, March 7, says: The Boer army has thus far been strengthened by about 3,000 men who have come into the country through Delagoa bay since the war began. Three thousand is a low estimate, but the exact number cannot be ascertained, even from the war office here, which is willing to tell almost anything concerning the conduct of the war. This large body of men has been recruited chiefly in Europe, where sympathy for the Boers is second only to the bate of England, but many men have come from America, and even Australia. Ever since the war began this steady stream of fighting men has been pouring into the Transvaal over the Portuguese border, although the English officials there have done everything in their power to stop it.

Every train arriving from Lourenzo Marquez brings from ten to fifty recruits and a short time ago such a large number of men were clamoring for transportation from the Portuguese town that an extra train was run for their accommodation.

Graham was removed as a result of an investigation by the house postoffice committee on charges that he was a polygamist. The committee found that he was guilty as charged, but exonerated the president and all officials of the postoffice department or any knowledge that he was guilty of polygamy at the time of his ap-

No man is better known in the State | of Nebraska than Mr. Carl T. Roberts, contractor and mason. A typical Amerlean-active, shrewd and full of business sagacity. He is not only a pro-vider for his family, but a protector. In a recent letter to Dr. Hartman he writes among other things, as follows:

"Our boy, James, had the membranous croup and repeated attacks of lung fever. Our boy, Charlie, was also subject to attacks of pneumonia and pleurisy. Our third boy, John, was subject to fever and ague (malarial) and liver trouble. Your remedy, Peruna, cured my boys entirely, and now I have three of the healthlest boys in the State of Nebraska, which I attribute to your mediciae. My wife had a stomach trouble which Peruna also cured. Altogether for my whole family we have used nineteen bottles of Peruna, and have thus saved \$500 in doctors' bills.
