1. That as republicans and citizens of the great nation on earth, we send our greetings and congratulations to Wm. McKinley, the wise and patriotic president, and pledge him the hearty support of the republican party of Custer county in the fulfillment of all the pledges of the national platform on which he was elected.
2. We congratulate the present administration upon its prompt and vigorous conduct of our recent war with Spain, and are in hearty accord with the policy of the administration in its conduct of affairs of national importance in the Philippine islands and firm that it is our belief that the present policy toward said islands must be maintained until the life, liberty and property of all its inhabitants is sure and safe from the lawlessness of the insurgents of said islands.
3. We condemn as unpatriotic and unamerican the actions and utterances of the leaders of the so-called fusion reform forces in their attempt to create dissatisfaction and an untrue sentiment against the government by falsehood and unjust criticism.
4. That the republican party of Custer county are in favor of a service pension of \$5.00 per month to the two hundred thousand worthy veterans who are not yet on the pension roll and who are equally as worthy as men who are now drawing pensions.
5. We recognize the able, impartial services of Hon. F. M. Currie as state senator, and believing him eminently qualified to fill any office within the gift of the people, we heartily endorse him as Custer county's candidate for the position of United States Senator.
6. To the Senate and House of Representatives of the Fifty-sixth Congress of the United States: We respectfully ask for the prompt passage by your honorable bodies of a sixteen month amendment to the constitution to be submitted to several states for ratification, prohibiting the disfranchisement of the United States citizens on account of race.
7. We appreciate the loyalty and patriotism of our young men in supporting our country's honor and flag in the Philippine islands.
8. Knowing that property has returned and that the evil propensities of demagogues and office seekers made in 1896 have been proven false by the course of business events since the election of President McKinley, we submit these resolutions to the voters of Custer county and ask that every republican do his full duty in the campaign before us.

G. P. Butterfield has been sick for the past week, but is now able to be around part of the time.

Baking Powder Economy

The manufacturers of Royal Baking Powder have always declined to produce a cheap baking powder at the sacrifice of quality.

The Royal is made from the most highly refined and wholesome ingredients, and is the embodiment of all the excellence possible to be attained in the highest class baking powder.

Royal Baking Powder costs only a fair price, and is cheaper at its price than any similar article.

Samples of mixtures made in imitation of baking powders, but containing alum, are frequently distributed from door to door, or given away in grocery stores. Such mixtures are dangerous to use in food, and in many cities their sale is prohibited by law. Alum is a corrosive poison, and all physicians condemn baking powders containing it.
