Dizzy Spells.

Dizziness is very often attributable to visual defects, especially in the case of women, and men, too, who are nearing middle life. Very often dizziness that is thought to come from a disordered stomach can be traced from the primary cause—eye defect, entailing a constant strain on the vital forces, robbing the stomach and other organs of their allotted portion. If you are subject to "dizzy spells," let me examine your eyes. You may think they are not at fault. We can make sure for you.

The Methodist General Conference in session at Chicago took a vote Saturday on the question of whether the church would maintain its rule, prohibiting card playing, dancing and theater going. The vote stood 333 to 290, in favor of the rule. It was a close vote and shows that there has been a great change in the sentiment of the church on that question the past few years. Fortunately the better sentiment prevailed, but with the vote being so close it will be a difficult matter for ministers to control. While there may be no harm in either of the prohibited amusements, in themselves, they are mediums through which the devil does some of his most effectual work and it will be a sad day for the

Decision Against the Water Works Co.

The case of the Water Works company, in which was sought to compel W. H. Osborn, city assessor to raise the valuation of the city four times the present assessment was tried before Judge Sullivan Tuesday forenoon. Attorney O'Neil of Omaha appeared as prosecutor and city attorney Ledwith assisted by C. L. Gutterson, L. E. Kirkpatrick and Willis Cadwell appeared for the defense. The case was argued by the several attorneys. Mr. O'Neil made a strong plea in behalf of his client, but he could not convince the court that Broken Bow in justice to its citizens should be made pay taxes on a valuation four times as high as the rest of the county. In his finding Judge Sullivan refused to grant the petition.
