### Notice to Hunters.

Under the law, the shooting or hunting of prairie chickens or grouse before the first day of September in any year is prohibited, and the statute provides a fine of \$500 for each and every bird killed, and provides the same fine for any one having in his possession any prairie chickens or grouse prior to the first of September, without proof that he killed them. Under the law, it is made the duty of the county attorney, the county sheriff, and the various constables of the county, to see that this law is enforced, and a fine and penalty is provided in case they fail to do so. The chickens are so small that they cannot stand any show-for their lives, and should be left alone until they are large enough to have some show to take care of themselves.
