Women suffering from female troubles and weakness, and from irregular or painful menses, ought not to lose hope if doctors cannot help them. Physicians are so busy with other diseases that they do not understand fully the peculiar ailments and the delicate organism of woman. What the sufferer ought to do is to give a fair trial to

BRADFIELD'S Female Regulator

which is the true cure provided by Nature for all female troubles. It is the formula of a physician of the highest standing, who devoted his whole life to the study of the distinct ailments peculiar to our mothers, wives and daughters. It is made of soothing, healing, strengthening herbs and vegetables, which have been provided by a kindly Nature to cure irregularity in the menses, Leucorrhoea, Falling of the Womb, Nervousness, Headache and Backache. In fairness to herself and to Bradfield's Female Regulator, every suffering woman ought to give it a trial. A large \$1 bottle will do a wonderful amount of good. Sold by druggists.

Round Valley.

Putting up millet hay is the order of the day.

It is hot and dry for the corn now; a rain would do good.

Bert Engelsjerd has been troubled with rheumatism for the past two weeks.

John O. Taylor and family were visiting friends and relatives here in the valley a week ago.

N. J. Ottum sowed some of the genuine big German millet last spring, and in places it stands over four feet high; it is the finest millet that can be seen.

Andrew Olsen has sold his cattle, hogs and corn, to Frank Witman, and is going to the Wisconsin timbers and open up a farm. We wish Andrew good luck.

Dal Nash, the REPUBLICAN'S old correspondent from this valley 17 times past, has made his appearance again among his old neighbors and friends.

We can hear the report of the gun nowadays; there must be some that are violating the law. The county attorney may get after you, boys, and it will serve you right. Last spring this business went on too much, even by those who should be officers to see that the law was not violated.

It is reported that they find prairie chickens by the dozen that have died, southwest of the valley. There must be some foul that has put out poison food for the grasshoppers, that they have got hold of. A flock of prairie chickens will destroy more grasshoppers than a grain sack full of poison bran will.

The board of control of the Grand Island street fair has made contracts with upwards of thirty concessions, and the visitors will be able to see everything, from the snake eating freak to the Maid in the Air and the aerial bicycle riders.

DELINQUENT TAX.

In accordance with the resolution adopted by the County board, requiring me to collect all 1899 personal taxes before the end of the year 1900, I will commence issuing distress warrants for the same Sept. 10th. All who have not paid their 1899 tax, please do so before that time as I do not wish to add expense to the tax of any one. 8-2-41

Wind Cave, South Dakota.

Few people realize that Wind Cave, near Hot Springs, South Dakota, is the largest and most beautiful cave in the United States.

No one knows how large it really is. Over one hundred miles of passages and 3,000 chambers have been explored. And that is only the beginning. There are fourteen different "recesses," only three of which have been opened to the public. They are known as the Garden of Eden, Fair Grounds and Pearly Gates.

Leaving Hot Springs at 9 a. m., you arrive at the cave in time for lunch. Immediately afterward you enter the cave where for four hours you live and move in an underground world, beautiful beyond description.

During August the Burlington Route will run several cheap excursions to Hot Springs.

The dates are: August 2, 7, and 21. The rate is one fare, plus \$2.00, for the round trip. Tickets bear liberal return limit and the Burlington's service to the Black Hills is unrivalled.

Call on the local ticket agent of the B. & M. R. R. and let him tell you what it will cost you to make the trip. Beautifully illustrated advertising matter descriptive of the Black Hills mailed on request.

The "Paramount" Maker.

Special Correspondence.

WASHINGTON, D. C., Aug. 30, 1900. Bryan has been identified with three "paramount" issues, to which he has, with all due solemnity, dedicated his life, and pledged his powers to engrain upon the national legislation of the country.

When in the Fifty-second congress, nine years ago, he was an ardent champion of free trade; in a speech long and brilliant, he declared that "a protective tariff was conceived in greed and fashioned in iniquity, false in economy and the most vicious political principle that ever cursed this country." Yet a protective tariff bill was passed by the first congress and approved by Washington Bryan further declared that he would fight the protective system as long as there was anything to remedy. The struggle between protection and free trade went against him. The people repudiated free trade and Bryan dropped it. It was not wise to "paramount" free trade when it would not make votes.

Four years ago, realizing that he must "paramount" something else, he took up silver and worked it with all the force of his eloquence. That in turn was repudiated by the people and dropped by Bryan. All his wild prophesies have been proven to be false by the prosperous facts of recent experience.

This year, he concluded to let free trade alone, touch lightly on free silver, and "paramount" imperialism, and he is working it in the same prophetic promising, reckless fashion. In opposing protection he denounced Washington, in advocating free silver he ran counter to all financial experience, in opposing expansion he reflects on Jefferson. After a few more campaigns he may possibly get into line and strike something that is right, but at present there is a big dent in the public confidence as to the accuracy of his prophetic powers, and as to his leaderlike ability.

As the silver crown of thorns stamped the Chicago convention but failed to stampede the country, so the golden crown of imperialism will have no terrors for the people as long as proof of its existence depends on the assertion of the Nebraska prophet who said that the gold standard would starve everybody except the money changers and the money owners.

It is perhaps worth while at the present stage of political misrepresentation to turn aside from assertion and look at some facts as revealed by the conduct of the United States in dealing with Porto Rico. Sentiment is hard to weigh and difficult to appraise at its true market value, but facts are tangible evidence of intention whether they be good or bad.

The so-called imperial administration of McKinley has, according to the published statements of Porto Ricans, relieved the inhabitants of that fair Atlantic island of the following:

Stamped paper dues on the transfer of property.

Personal certificates.

Passports.

Export duties.

Tax on professions, trades and occupations.

Import duties have been made nominal, and the Porto Ricans have been given power to abolish them altogether.

Tribute to Spain.

Tribute to the Veraguas family.

Tribute to the Colonial minister.

War tribute in time of peace.

Navy tribute.

Pensions to retired Spaniards.

Support of mounted police.

Military courts to try political offenders.

Mayors appointed by the government.

A military governor.

All these burdens have been lifted from the shoulders of our insular wards, and in addition to these negative benefits, they have been given the following:

Habeas corpus.

Courts of justice composed of Porto Rican magistrates.

A modern free school system.

Uniform currency.

Regularity in exchange.

Autonomous municipal rule.

Increased right of suffrage.

Native police force.

Free justice and quick procedure.

Representation in the executive council.

A house of representatives to legislate for the island.

No people were ever treated more generously and under the new regime business has doubled in volume in two years. Burdens have been lifted, liberty has been extended, education has been advanced, business has increased, and the people are prosperous and grateful. In a short time their loyalty to the United States government will put to the blush many of those who try to blind truth by calling the best government on earth an imperial despotism.
