AN IDEAL GIFT.

The gift of a watch to a relative or dear one is always a delicate token, and a constant reminder of your love and esteem. A watch possesses for women a mysterious and subtle charm to which no other jewel, however valuable, with the possible exception of the ring, can lay claim.

I have this season the latest and most complete assortment of ladies' fine watches it has ever been my privilege to show.

It isn't the material that goes into your repaired watch that results in a perfect job, it is the Know How
that does the business, any bungler can buy the fine kinds of material that I use in repairing; but skill is the most valuable material that can be used in watch repairing; and the bungler can't buy it. I sell my skill for what it is worth and it will cost you less than bungling at lower prices.

Notice to Hunters.
Parties are forbidden to hunt on my premises and land under my control, under penalty of the law. **d6-1m Wm. Franklin.**

S. Edwards, of Arnold, called last Saturday and deposited the amount necessary to credit his account up to 1902, being the first to reach a 1902 credit on our books. If the rest of our subscribers would thus kindly remember us between now and New Year's, it would enable us to start in with the twentieth century wall pleased.

A. W. Pressey, of this county, was on board the American cruiser, Yosemite, which was lost in a storm at sea Nov. 15th, off the harbor of San Luis d'Apra Island of Guam. There were five of the crew lost, but a collier rescued the remainder, which consisted of 18 officers and 267 men. Ensign Pressey was among the number rescued. A crew of five went out to endeavor to find a safe anchorage for the vessel, and were all drowned.

Wilson B. Moody, of Westerville, made this office a call Tuesday. He had with him the head of a deer with heavy horns, that he killed while visiting his son in Wyoming. He has been visiting him there for a couple of months. He and his son and grandson, and one or two others, went out on a hunt and got ten deer, two coyotes, a bob cat and three bob cat kittens. The deer which he brought home with him weighed 210 pounds.

Geo. Willing is one of those expansionists who believes in expanding. Less than two months ago he built an implement building to provide shelter for his machinery, and now he is building a tin shop on the north end of his store, in order to extend the store room back the entire length of the building, to make room for his man moth stock of hardware and furniture, which he carries to supply his constantly increasing trade.

Wm. Franklin, of Tufford, was a city visitor Tuesday, returning home Wednesday. In his locality crops were almost a failure the past season, but notwithstanding that, he is able to rejoice with the rest of us over the result of election. There was a time in Elk Creek township when he and a half dozen others were the only republicans left, but this year the 160 majority of the opposition was almost wiped out, which enabled his district to elect a republican county supervisor.

The Grand Central hotel has been undergoing an overhauling the past month, which when completed, will make it one of the best arranged and comfortable hotels in central Nebraska. The office room has been extended back twenty feet to the north, and a fire place, with a fancy oak mantle piece, with a mirror to ornament it. The new arrangement will furnish a floor space of about 24x40 feet, with wash and cloak rooms in connection. To properly light the rooms, several windows have been put in, the rooms replastered and repapered, so as to give the house an entirely different appearance.

The M. B. A. lodge of this place is holding its own with other fraternal organizations, if not a little more. At the regular meeting last week, six members were initiated, and there are fifteen applicants to be initiated at a special meeting next Saturday night. The order has a standing second to none of its age. There has been seven assessments this year, and the supreme lodge has a handsome reserve fund to protect its members from excessive assessments in later years. It is one of the few fraternal organizations that admit men and women on the same terms. Its policies provide for an indemnity in case of accident, for a broken limb or the loss of an eye.

R. E. Wright, formerly a typo in the offices of this city, now secretary of the Nebraska Printing Co., of Lincoln, Nebr., was in the city Monday, renewing old acquaintances and looking after business for his firm. He took over \$50 worth of orders while here. Four years ago he commenced in the office in which he is now a partner, on a salary of \$4.00 a week. He is now secretary of the company, and one-third owner, and employs fifteen hands in the office, besides one traveling solicitor. So much for having been a resident of Broken Bow, and learning his trade on the REPUBLICAN, and being an industrious and energetic boy. Two former Broken Bow boys, Herman and Otto Werger, are working for him. His office is the only one of the kind in the state, which is making duplicating books or counter tablets.

ROYAL

The absolutely pure
BAKING POWDER

ROYAL—the most celebrated of all the baking powders in the world—celebrated for its great leavening strength and purity. It makes your cakes, biscuit, bread, etc., healthful; it assures you against alum and all forms of adulteration that go with the cheap brands.

Alum baking powders are low priced, as alum costs but two cents a pound; but alum is a corrosive poison and it renders the baking powder dangerous to use in food.

ROYAL BAKING POWDER CO., 100 WILLIAM ST., NEW YORK.

W. A. George and S. S. McConnell, of Georgetown, who recently bought the grist mill, water right and real estate of A. E. Brigham, have organized a company under the name of Georgetown Roller Mill & Power Co., with a view of extending the business in the manufacture of flour and meal, and have in view the developing of the water power and to erect and maintain an electric power plant. They propose to extend the operation of the electric power in Custer, Buffalo and Dawson counties. Among the enterprises contemplated is to transmit the electric power necessary to operate the machinery of Broken Bow and also for electric lights, as well as to any other towns conveniently located, where the business of the community will warrant the expense.

Business Men Meet.
As per adjournment, the business men of Broken Bow and vicinity met at the Court house, Tuesday to receive the report of the committee on constitution and by laws for the business men's association. The attendance was again good. G. W. Apple called the meeting to order and after Secretary Ledwich had stated the business transacted at the former meeting, the report of the committee was called, which was made by A. R. Humphry, chairman of the committee. After considerable discussion of the subject the constitution and by laws were adopted. Mr. Tuck of the experiment station of the state university, was presented and on motion was invited to address the meeting on corn stalk disease. His talk was an interesting feature of the meeting. On motion the chair was authorized to appoint a committee of three to solicit membership. The chair appointed as such committee, F. M. Rublee, I. A. Reneau and J. C. Bowen. The meeting adjourned to meet Tuesday night to elect officers.

Wedding.
Eastman and Clawson, at the U. B. parsonage, Sunday morning at 10 o'clock, Rev. H. E. Myres officiating, Mr. George T. Eastman, of Kingston and Miss Della Clawson, of Broken Bow. The groom is well and favorably known in the vicinity of Lee's Park as a successful farmer and Miss Clawson was one of Broken Bow's estimable young ladies. The young couple took their departure on Tuesday after the wedding, for Washington state, where they expect to make their future home. Their many friends join with the REPUBLICAN in wishing them a happy and successful journey through life.

Church Services.
U. B. CHURCH.
At the U. B. church Sunday morning the text will be "For Jesus Sake." 2 Cor. 4:11. And in the evening, another chalk talk sermon will be given. The subject will be, "Jacob's Ladder." The fine interest and many good words spoken of these chalk talks warrant their continuation for a time. You are urgently requested to attend these services.

Married.
HENRY—SIBERS—Friday, November 30, at the residence of Judge Arnor, Fred Ebert and Mrs. Mary Sibers, both of this city, Judge Arnor officiating.

The groom is one of the best known citizens of Broken Bow. For a number of years he has had charge of Tierney's meat market in this city, which not only includes the business of retailing stake but of buying hogs, cattle, corn, poultry and checking out the cash therefor; he is one of those individuals who is absolutely trustworthy and regards the business of his employe with the same care and prudence as he would were it his own. His bride is a lady who enjoys the esteem of her acquaintances. They have gone to house keeping in rooms in the second story of the Union block, over Walton's drug store building. The REPUBLICAN joins their many friends in congratulating.

A. O. U. W.
At the regular meeting of the A. O. U. W. lodge next Tuesday night will be the election of officers. All members of the lodge are urged to attend. Remember, 8 o'clock sharp.

The Hand Separator
Is fast taking the place of the skim station. Dairymen with from 10 to 20 cows find better satisfaction to skim the milk when fresh, and feed the skim milk while warm to the calves, than to haul the whole milk to the station and return with skim milk.

First, the item of expense in hauling is less.

Second, calves will do better as the chance of sour milk is eliminated.

Third, the milking, skimming and feeding of the calves is all done at once.

Fourth, and not the least, you don't have to depend on the local skim station for a market for hand separator cream, but any creamery in reach by rail will bid for your cream at your at your local station.

WILLIS CADWELL.
